adolf hitler speeches transcript english: A History of the English-Speaking Peoples since 1900 Andrew Roberts, 2010-12-16 Prize-winning British historian tells the story of the English-speaking peoples in the 20th century Winston Churchill's History of the English-Speaking Peoples ended in 1900. Andrew Roberts, Wolfson History prizewinner has been inspired by Churchill's example to write the story of the 20th century. Churchill wrote: 'Every nation or group of nations has its own tale to tell. Knowledge of the trials and struggles is necessary to all who would comprehend the problems, perils, challenges, and opportunities which confront us today 'It is in the hope that contemplation of the trials and tribulations of our forefathers may not only fortify the English-speaking peoples of today, but also play some small part in uniting the whole world, that I present this account.' As the greatest of all the trials and tribulations of the English-speaking peoples took place in the twentieth century, Roberts' book covers the four world-historical struggles in which the English-speaking peoples have been engaged - the wars against German Nationalism, Axis Fascism, Soviet Communism and now the War against Terror. But just as Churchill did in his four volumes, Roberts also deals with the cultural, social and political history of the English global diaspora.

Reporters from as far away as Argentina and Australia flocked to Munich for the sensational, four-week spectacle. By the end, Hitler would transform a fiasco into a stunning victory for the fledgling Nazi Party. The first book in English on the subject, The Trial of Adolf Hitler draws on never-before-published sources to re-create in riveting detail a haunting failure of justice with catastrophic consequences.

adolf hitler speeches transcript english: *Hitler* Brendan Simms, 2019-10-01 From a prize-winning historian, the definitive biography of Adolph Hitler Hitler offers a deeply learned and radically revisionist biography, arguing that the dictator's main strategic enemy, from the start of his political career in the 1920s, was not communism or the Soviet Union, but capitalism and the United States. Whereas most historians have argued that Hitler underestimated the American threat, Simms shows that Hitler embarked on a preemptive war with the United States precisely because he considered it such a potent adversary. The war against the Jews was driven both by his anxiety about combatting the supposed forces of international plutocracy and by a broader desire to maintain the domestic cohesion he thought necessary for survival on the international scene. A powerfully argued and utterly definitive account of a murderous tyrant we thought we understood, Hitler is essential reading for anyone seeking to understand the origins and outcomes of the Second World War.

adolf hitler speeches transcript english: Trials of War Criminals Before the Nuernberg Military Tribunals Volume III Various, 2023-09-03 Excerpt: In April 1949, judgment was rendered in the last of the series of 12 Nuernberg war crimes trials which had begun in October 1946 and were held pursuant to Allied Control Council Law No. 10. Far from being of concern solely to lawyers, these trials are of especial interest to soldiers, historians, students of international affairs, and others. The defendants in these proceedings, charged with war crimes and other offenses against international penal law, were prominent figures in Hitler's Germany and included such outstanding diplomats and politicians as the State Secretary of the Foreign Office, von Weizsaecker, and cabinet ministers von Krosigk and Lammers; military leaders such as Field Marshals von Leeb, List, and von Kuechler; SS leaders such as Ohlendorf, Pohl, and Hildebrandt; industrialists such as Flick, Alfried Krupp, and the directors of I. G. Farben; and leading professional men such as the famous physician Gerhard Rose, and the jurist and Acting Minister of Justice, Schlegelberger. In view of the weight of the accusations and the far-flung activities of the defendants, and the extraordinary amount of official contemporaneous German documents introduced in evidence, the records of these trials constitute a major source of historical material covering many events of the fateful years 1933 (and even earlier) to 1945, in Germany and elsewhere in Europe. The Nuernberg trials under Law No. 10 were carried out under the direct authority of the Allied Control Council, as manifested in that law, which authorized the establishment of the Tribunals. The judicial machinery for the trials, including the Military Tribunals and the Office, Chief of Counsel for War Crimes, was prescribed by Military Government Ordinance No. 7 and was part of the occupation administration for the American zone, the Office of Military Government (OMGUS). Law No. 10, Ordinance No. 7, and other basic jurisdictional or administrative documents are printed in full hereinafter. The proceedings in these trials were conducted throughout in the German and English languages, and were recorded in full by stenographic notes, and by electrical sound recording of all oral proceedings. The 12 cases required over 1,200 days of court proceedings and the transcript of these proceedings exceeds 330,000 pages, exclusive of hundreds of document books, briefs, etc. Publication of all of this material, accordingly, was quite unfeasible. This series, however, contains the indictments, judgments, and other important portions of the record of the 12 cases, and it is

believed that these materials give a fair picture of the trials, and as full and illuminating a picture as is possible within the space available. Copies of the entire record of the trials are available in the Library of Congress, the National Archives, and elsewhere. In some cases, due to time limitations, errors of one sort or another have crept into the translations which were available to the Tribunal. In other cases the same document appears in different trials, or even at different parts of the same trial, with variations in translation. For the most part these inconsistencies have been allowed to remain and only such errors as might cause misunderstanding have been corrected.

adolf hitler speeches transcript english: Seventies British Cinema Robert Shail, 2019-07-25
Seventies British Cinema provides a comprehensive re-evaluation of British film in the 1970s. The decade has long been written off in critical discussions as a 'doldrums' period in British cinema, perhaps because the industry, facing near economic collapse, turned to 'unacceptable' low culture genres such as sexploitation comedies or extreme horror. The contributors to this new collection argue that 1970s cinema is ripe for reappraisal: giving serious critical attention to populist genre films, they also consider the development of a British art cinema in the work of Derek Jarman and Peter Greenaway, and the beginnings of an independent sector fostered by the BFI Production Board and producers like Don Boyd. A host of highly individual directors managed to produce interesting and cinematically innovative work against the odds, from Nicolas Roeg to Ken Russell to Mike Hodges. As well as providing a historical and cinematic context for understanding Seventies cinema, the volume also features chapters addressing Hammer horror, the Carry On films, Bond films of the Roger Moore period, Jubilee and other films that responded to Punk rock; heritage cinema and case studies of key seventies films such as *The Wicker Man* and *Straw Dogs*. In all, the book provides the final missing piece in the rediscovery of British cinema's complex and protean history. Contributors: Ruth Barton, James Chapman, Ian Conrich, Wheeler Winston Dixon, Christophe Dupin, Steve Gerrard, Sheldon Hall I. Q. Hunter, James Leggott, Claire Monk, Paul Newland, Dan North, Robert Shail, Justin Smith and Sarah Street.
