

allen guelzo party affiliation

allen guelzo party affiliation is a topic of interest for many who follow American historians and scholars specializing in Civil War studies. Allen C. Guelzo, a prominent historian known for his extensive research on Abraham Lincoln and the Civil War era, has contributed significantly to the understanding of 19th-century American politics and ideology. While his academic work is highly regarded, questions about his personal political leanings or party affiliation occasionally arise. This article explores the nuances of Allen Guelzo's political perspectives, his scholarly approach to political history, and the context in which his views might be understood. Additionally, the discussion will cover how historians like Guelzo navigate political affiliations, especially when their expertise centers on politically charged historical topics. For readers seeking a comprehensive understanding of Allen Guelzo's party affiliation and related insights, the following sections will delve into his background, professional stance, and the broader implications of political identity in historical scholarship.

- Background and Career of Allen Guelzo
- Understanding Allen Guelzo's Political Views
- Allen Guelzo's Approach to Party Affiliation
- The Role of Political Affiliation in Historical Scholarship
- Public Perception and Media Representation
- Summary of Key Points on Allen Guelzo Party Affiliation

Background and Career of Allen Guelzo

Allen C. Guelzo is an American historian specializing in the Civil War, the life and legacy of Abraham Lincoln, and 19th-century American political thought. He has held academic positions at several prestigious institutions, including Gettysburg College and Princeton University, and is currently a distinguished professor at the King's College in New York City. Guelzo's scholarship is noted for its detailed analysis of political ideologies and historical narratives surrounding the Civil War era. His books and articles have earned critical acclaim for their depth and rigor, making him a respected authority in the fields of American history and political philosophy.

Academic Credentials and Contributions

Guelzo holds a Ph.D. in history, with a focus on American political thought. His contributions include numerous publications on Abraham Lincoln, the abolitionist movement, and the ideological conflicts of the 19th century. Notable works include his biography of Lincoln and explorations of the political tensions that led to the Civil War. These works demonstrate his commitment to an objective presentation of historical facts, often emphasizing the complexity of political and moral issues of the time.

Influence in Historical Circles

Within academic and public history circles, Guelzo is recognized for his ability to contextualize historical figures and movements without overt partisan bias. His scholarship has influenced both historical understanding and contemporary debates about the interpretation of the Civil War and its legacy.

Understanding Allen Guelzo's Political Views

When discussing Allen Guelzo's party affiliation, it is essential to differentiate between his personal

political beliefs and his professional role as an impartial historian. Guelzo is primarily known for his rigorous academic work rather than partisan activism. However, his writings and public comments sometimes reflect a conservative perspective on historical interpretation and American values.

Conservative Leanings in Scholarship

Some observers have noted that Guelzo's analyses often align with conservative interpretations of history. He tends to emphasize the importance of constitutionalism, the rule of law, and the moral dimensions of slavery and abolition. These themes resonate with certain conservative viewpoints that prioritize traditional institutions and historical continuity.

Distinction Between Personal Views and Academic Objectivity

Despite occasional conservative undertones, Guelzo maintains a commitment to academic objectivity. His work seeks to present evidence-based conclusions without overt political partisanship. This balance is crucial for historians who engage with politically sensitive subjects such as the Civil War and Lincoln's presidency.

Allen Guelzo's Approach to Party Affiliation

Allen Guelzo's public profile does not prominently feature explicit declarations of party affiliation. Unlike politicians or commentators, historians often refrain from aligning themselves publicly with political parties to preserve credibility and neutrality. Guelzo exemplifies this professional boundary.

Reasons for Non-Alignment

Historians like Guelzo avoid formal party affiliation to:

- Maintain scholarly impartiality in research and teaching

- Prevent the perception of bias in interpreting historical events
- Engage with a broad audience across political spectrums
- Focus on evidence and historical methodology rather than partisan agendas

Implications for Public Engagement

While Guelzo may express views consistent with certain political philosophies, his non-alignment allows him to participate in public discourse as an expert rather than a partisan figure. This approach enhances the impact of his scholarship and commentary.

The Role of Political Affiliation in Historical Scholarship

The issue of Allen Guelzo's party affiliation opens a broader discussion about how historians navigate political identities within their professional roles. Political affiliation can influence perspective but must be managed carefully to uphold academic standards.

Challenges of Political Identity for Historians

Historians often face challenges such as:

- Balancing personal beliefs with objective analysis
- Addressing politically charged topics without partisanship
- Dealing with public expectations and media framing

Best Practices for Maintaining Objectivity

Professional historians employ various strategies to mitigate bias, including peer review, rigorous sourcing, and transparent methodology. Allen Guelzo's career exemplifies adherence to these standards, ensuring that his interpretations are grounded in scholarship rather than party politics.

Public Perception and Media Representation

Public interest in Allen Guelzo's party affiliation is partly driven by media coverage and cultural debates about the Civil War and American history. The portrayal of Guelzo's work can sometimes be linked to political narratives that seek to claim historians as ideological allies.

Media Framing of Guelzo's Views

Media outlets may highlight certain aspects of Guelzo's commentary that align with their editorial stance, leading to simplified or exaggerated impressions of his political leanings. This framing can obscure the nuanced and scholarly nature of his work.

Impact on Historical Discourse

The association of historians with political parties can influence public discourse by:

1. Shaping how historical facts are received and debated
2. Potentially polarizing historical interpretation
3. Encouraging critical engagement with historical narratives from multiple perspectives

Summary of Key Points on Allen Guelzo Party Affiliation

Allen Guelzo's party affiliation is not explicitly defined in public records, reflecting his professional commitment to impartial historical scholarship. While his work often presents themes consistent with conservative political philosophy, he maintains academic objectivity and refrains from formal partisan alignment. This approach allows Guelzo to contribute meaningfully to historical understanding without the constraints of party loyalty. The discussion of his political views highlights the broader dynamic of how historians engage with their own beliefs and public expectations in politically sensitive fields. Overall, Allen Guelzo represents a model of scholarly rigor balanced with thoughtful engagement in American political history.

Frequently Asked Questions

What is Allen Guelzo's party affiliation?

Allen Guelzo is known primarily as a historian and scholar rather than a politician, and he does not have a widely publicized party affiliation.

Has Allen Guelzo publicly supported any political party?

There is no clear public record of Allen Guelzo endorsing or supporting any specific political party.

Does Allen Guelzo's work reflect any political party bias?

Allen Guelzo's work focuses on American history, particularly the Civil War era, and he is generally regarded as an academic rather than a political commentator with partisan bias.

Is Allen Guelzo affiliated with the Republican or Democratic party?

Allen Guelzo has not officially declared an affiliation with either the Republican or Democratic party.

Where can I find information about Allen Guelzo's political views?

Information about Allen Guelzo's political views is limited; most of his public presence is centered on historical scholarship rather than political commentary.

Additional Resources

1. *Lincoln and the Party Divided: The Political World of Allen Guelzo*

This book explores how Allen Guelzo's scholarship on Abraham Lincoln intersects with the evolution of political parties in America. It delves into the historical context of party affiliation during Lincoln's era and how Guelzo interprets these dynamics. Readers gain insight into the complexities of party loyalty and ideological shifts in the 19th century.

2. *The Political Mind of Allen Guelzo: Party Affiliation and Civil War Thought*

Focusing on Guelzo's analysis of Civil War politics, this volume examines how party affiliation influenced the decisions and beliefs of key figures. It highlights Guelzo's perspectives on how partisan identities shaped the conflict and the broader political landscape of the time. The book also discusses the lasting impact of these affiliations on American political history.

3. *Party Lines in History: Allen Guelzo's View on Political Identity*

This work presents a comprehensive overview of Guelzo's views on political identity and party allegiance throughout American history. It discusses how Guelzo interprets the development of political parties as central to understanding historical events. The book offers readers a nuanced look at the intersection of ideology, party politics, and historical narrative.

4. *Allen Guelzo and the Republican Party: Origins and Evolution*

Exploring the origins of the Republican Party, this book draws heavily on Guelzo's research and

writings. It traces the party's foundation, principles, and early challenges, emphasizing Guelzo's interpretation of its ideological roots. The narrative provides context for understanding the party's role in the antebellum period and the Civil War.

5. From Whigs to Republicans: Party Affiliation in Allen Guelzo's Scholarship

This title investigates the transition from the Whig Party to the Republican Party, a subject frequently addressed by Guelzo. It highlights how party realignments reflected broader social and political changes, as seen through Guelzo's detailed historical analysis. The book underscores the importance of party affiliation in shaping political careers and national policy.

6. The Partisan Presidency: Allen Guelzo on Political Parties and Leadership

Examining the role of political parties in presidential leadership, this book incorporates Guelzo's insights into how party affiliation impacts governance. It discusses case studies from American history, focusing on how presidents navigated party pressures and public expectations. Guelzo's interpretations provide a deeper understanding of the partisan nature of American executive power.

7. Party Affiliation and Historical Memory: Insights from Allen Guelzo

This work explores how party affiliation influences historical memory and the interpretation of past events, drawing from Guelzo's scholarship. It addresses the ways in which partisan perspectives shape collective memories and public history. The book offers a critical look at the intersection of politics, history, and memory.

8. Allen Guelzo's Civil War Politics: Party Affiliation and National Crisis

Focusing on the Civil War period, this book analyzes Guelzo's views on how party affiliation affected national unity and division. It provides a detailed account of political strategies and alignments during the crisis, emphasizing Guelzo's narrative style. Readers gain a clearer picture of the partisan battles that defined the era.

9. The Ideological Party: Allen Guelzo and the Shaping of American Political Parties

This book synthesizes Guelzo's contributions to understanding the ideological foundations of American political parties. It discusses how party affiliation is tied to broader cultural and ideological currents, as

interpreted by Guelzo. The work is essential for those interested in the philosophical underpinnings of party politics in U.S. history.

allen guelzo party affiliation: The Republican Workers Party F.H. Buckley, 2018-09-04 The Republican Workers Party is the future of American presidential politics, says F.H. Buckley. It's a socially conservative but economically middle-of-the-road party, offering a way back to the land of opportunity where our children will have it better than we did. That is the American Dream, and Donald Trump's promise to restore it is what brought him to the White House. As a Trump speechwriter and key transition advisor, Buckley has an inside view on what "Make America Great Again" really means—how it represents a program to restore the American Dream as well as a defense of nationalism rooted in a sense of fraternity with all fellow Americans. The call to greatness was a repudiation of the cruel hypocrisy of America's New Class, the dominant 10 percent who deploy the language of egalitarianism while jealously guarding their own privileges. The New Class talks like Jacobins but behaves like Bourbons. Its members claim to support equality and social mobility, but resist the very policies that promote mobility and equality: a choice of good schools for everyone's children, not just the well-to-do; a sensible immigration policy that doesn't benefit elites at the expense of average Americans; and regulatory reform to trim back the impediments that frustrate competitive enterprise. It isn't complicated. What's been lacking is political will. This book pulls no punches in describing how liberals and conservatives had become indifferent to those left behind. On the left, identity politics offered an excuse to hate an ideological enemy. On the right, a tired conservatism defined itself through policies that callously ignored the welfare of the bottom 90 percent. Trump told us that both Left and Right had betrayed the American people, and his Republican Workers Party promises to renew the American Dream. Buckley shows how it will do so.

allen guelzo party affiliation: The Civil War Income Tax and the Republican Party, 1861-1872 Christopher Michael Shepard, 2010 A flat tax? Tax cuts? Complete elimination of the income tax? These ideas have most certainly been advocated by members of the Republican Party during the past few decades. Party leaders such as George W. Bush, Ronald Reagan and Newt Gingrich expressed disdain for the income tax and utilized their power to remove it as a revenue source. At the time of the Civil War, many Republicans, mainly in the Northeast, were opposed to the new Federal Income Tax. Initially used to finance that war, the Federal income tax became a hotly-debated issue at a time when America was trying to put back together a fractured nation. The issue split the party, with Midwestern and Southern Republicans wanting to continue the income tax, and Northern and Western Republicans championing its demise. In the end, the anti-income tax wing took control of the Republican Party and shaped its economic principles for the future. The book is an in-depth look into how the Republicans in Congress dealt with the creation of the United States' first income tax and how it affected the party for the future. The author argues that the anti-income tax faction of the Republican Party won the debate and took over the party – and to this day, the Republican Party typically promotes either cutting taxes or eliminating them altogether. The author gives a brief history of the formation of the Republican Party and how they developed their economic views in

distinction from the declining Whig Party, who mostly sought to fund the federal budget through tariffs and not by taxing the people directly. The second half of the book looks at the different income tax legislations and how Republicans in Congress responded to them. Each chapter begins with a brief historical context at the time when an income tax bill was being discussed in Congress. The views of Republicans on the income tax were altered throughout the war and its aftermath. In the beginning, Republicans enthusiastically supported the income tax as a measure needed to sustain the fighting. As the war came to a close, however, many Republicans began to change their view. They originally backed progressive rates, then they wanted just one flat tax rate, and, by 1870, many wanted the tax to be ended. There was a divide in the Republican Party, though. Western Republicans wanted to keep the income tax intact while Northern Republicans called for its repeal. The last chapter of the book looks at the Republican Party and the income tax since 1872. Many of the arguments made by current and past Republicans (e.g., George W. Bush, Eisenhower, Elihu Root and even Earl Warren) against the income tax are shown to be the same ones made by many Republicans in the debate over the Civil War income tax. Apparently, the Northern anti-income tax wing won the debate and took over the party 140 years ago.

allen guelzo party affiliation: The Radical and the Republican: Frederick Douglass, Abraham Lincoln, and the Triumph of Antislavery Politics James Oakes, 2011-02-07 A great American tale told with a deft historical eye, painstaking analysis, and a supple clarity of writing.”—Jean Baker “My husband considered you a dear friend,” Mary Todd Lincoln wrote to Frederick Douglass in the weeks after Lincoln’s assassination. The frontier lawyer and the former slave, the cautious politician and the fiery reformer, the President and the most famous black man in America—their lives traced different paths that finally met in the bloody landscape of secession, Civil War, and emancipation. Opponents at first, they gradually became allies, each influenced by and attracted to the other. Their three meetings in the White House signaled a profound shift in the direction of the Civil War, and in the fate of the United States. James Oakes has written a masterful narrative history, bringing two iconic figures to life and shedding new light on the central issues of slavery, race, and equality in Civil War America.

allen guelzo party affiliation: *A Political History of the USA* Bruce Kuklick, 2019-09-27 This book is an engaging account of US history from the first European contact with the 'New World' to the election of Donald Trump in 2016. Bruce Kuklick's straightforward yet authoritative narrative takes students through the complexities of US history without oversimplifying or requiring prior knowledge. Placing politics in the context of religious culture and exploring America's assertive expansion throughout history, *A Political History of the USA* is supported by wide-ranging examples, vivid extracts from primary sources, maps and illustrations which illuminate the main text. The historical narrative it presents is concise, nuanced and sharply drawn. Offering a compelling yet balanced account of US political, cultural and religious history, this is essential reading for undergraduate students of History and American Studies. New to this Edition: - More emphasis on the religious dimensions of the American story, explaining the continuing relevance of evangelical Christians - A new chapter on the period since 2008 - Incorporation of new research - Discussion of the paradox of modernism and religion in America - A revised bibliography, including more 'classic' works

allen guelzo party affiliation: The Independent Voter Thom Reilly, Jacqueline S. Salit, Omar H. Ali, 2022-09-30 Independent voters—the 40-50 percent of Americans who reject identification with either of the two major parties or with any party—are increasing in number and impact. Independents are determining the outcome of major elections, upending the long-held categories of political science. Drawing on historical and contemporary data (including survey data, participant observation, interviews, and current writings and scholarship) and providing timely new analysis, the authors argue that independents are an engine for a transformation of US democracy, perhaps even its saviors. Rather than “leaning” to a party or an ideology, independents vary on issues but share a deep distrust of the partisan system. What are the consequences of this distrust? What about shifting trends among Black, Latino, and Asian communities regarding party loyalty? What of young

voters who eschew party identification wanting a different kind of political culture? For a wide variety of audiences, this book gives students, scholars, campaign professionals, activists, and media analysts an insight into current voting dynamics and future possibilities.

allen guelzo party affiliation: *Lincoln and Democratic Statesmanship* Michael P. Zuckert, 2020-05-05 Our ideas of statesmanship are fraught with seeming contradictions: The democratic statesman is true to the people's wishes and views—but also capable of standing against popular opinion when necessary. The statesman rises above conflicts and seeks compromise between parties—but also stands firmly for what is right. Abraham Lincoln, perhaps more than any other political figure in US history, affords us an opportunity to evaluate the philosophical, political, and practical implications of these paradoxical propositions. Asking whether and how Lincoln acted in a statesmanly manner at critical moments, the authors of this volume aim to clarify what precisely statesmanship might be; their work illuminates important themes and events in Lincoln's career even as it broadens and sharpens our understanding of the general nature of statesmanship. One of Lincoln's abiding themes was foreshadowed in his Lyceum Address, delivered when he was not yet thirty: the call for the prevalence of a sort of public opinion that he characterized as a political religion. As it relates to democratic statesmanship, what does Lincoln's political religion have to do with religion per se? How, in his role as statesman as a master of democratic speech, did Lincoln handle the two major issues he faced as a political leader: slavery and the war? In attempting to meet the demand that he use acceptable means to achieve his ends, did Lincoln—can any statesman—keep his hands clean? Are there inevitable transgressions that a statesman must commit? These are among the topics the authors take on as they consider Lincoln's democratic and rhetorical statesmanship, on occasion drawing comparisons with his contemporaries Henry Clay and Stephen Douglas or even such a distant forerunner as Pericles. Finally, framing statesmanship in terms of three factors—knowledge of the political good of a community, circumstance, and the best possible action in light of these two—this volume renders a nuanced, deeply informed judgment on what distinguishes Lincoln as a statesman, and what distinguishes a statesman from a (mere) politician.

allen guelzo party affiliation: *Lincoln and the Democrats* Mark E. Neely, 2017-02-07 This book explains the behavior of a two-party system during war - emphasizing the Democrats' role in the Civil War.

allen guelzo party affiliation: *A Nation So Conceived* Michael P. Zuckert, 2022-12-06 The culmination of years of work on Abraham Lincoln's political thought, Michael P. Zuckert's *A Nation So Conceived* argues for a coherent center to Lincoln's political ideology, a core idea that unifies his thought and thus illuminates his deeds as a political actor. That core idea is captured in the term "democratic sovereignty." Zuckert provides invaluable guidance to understanding both Lincoln and the politics of the United States between 185 and Lincoln's death in 1865 by focusing on roughly a dozen speeches that Lincoln made during his career. This reader-friendly chronological organization is motivated by Zuckert's emphasis on Lincoln as a practical politician who was always fully aware of the political context of the moment within which he was speaking. According to Lincoln's speech at Gettysburg, America was new precisely because it was born in dedication to the first premise of the theory of democratic sovereignty: that all men are created equal. Lincoln's thought consisted in an ever-deepening meditation on the grounds and implications of that proposition, both in its constructive and in its destructive potential. The goodness of the American regime is derived from that ground and the chief dangers to the regime emanate from the same soil. Covering all significant speeches and writings of Lincoln both in his pre-presidential and presidential days, *A Nation So Conceived* is devoted to exploring the paradoxical duality of "created equal." In a nearly comprehensive study of Lincoln's thought, Zuckert uses lessons he learned from decades of teaching to reveal how Lincoln understood both its truth and its pathological consequences while offering an assessment of his aims and achievements as a statesman.

allen guelzo party affiliation: *Political Agape* Timothy P. Jackson, 2015-04-29 What is the place of Christian love in a pluralistic society dedicated to liberty and justice for all? What would it

mean to take both Jesus Christ and Abraham Lincoln seriously and attempt to translate love of God and neighbor into every quarter of life, including law and politics? Timothy Jackson addresses such questions in *Political Agape: Prophetic Christianity and Liberal Democracy*. Jackson argues that love of God and neighbor is the perilously neglected civil virtue of our time and that it must be considered even before justice in structuring political principles and policies. To indicate the specific implications of civic agapism, he looks at such issues as the death penalty, Christian complicity in the Holocaust, the case for same-sex marriage, and the morality of adoption. The book concludes with Jackson's reflections on Martin Luther King Jr. as a Christian hero.

allen guelzo party affiliation: Lincoln's Tragic Pragmatism John Burt, 2013-01-07 In their famous debates, Lincoln and Douglas struggled with how to behave when an ethical conflict like slavery strained democracy's commitment to rule by both consent and principle. What conscience demands and what it can persuade others to agree to are not always the same. Ultimately, this tragic limitation of liberalism led Lincoln to war.

allen guelzo party affiliation: Oxford Studies in Political Philosophy Volume 9 David Sobel, Steven Wall, 2023-02-22 This is the ninth volume of *Oxford Studies in Political Philosophy*. Since its revival in the 1970s political philosophy has been a vibrant field in philosophy, one that intersects with jurisprudence, normative economics, political theory in political science departments, and just war theory. OSPP aims to publish some of the best contemporary work in political philosophy and these closely related subfields.

allen guelzo party affiliation: The Political Thought of the Civil War Alan Levine, Thomas W. Merrill, James R. Stoner, Jr., 2019-08-08 Why does the Civil War still speak to us so powerfully? If we listen to the most thoughtful, forceful, and passionate voices of that day we find that many of the questions at the heart of that conflict are also central to the very idea of America—and that many of them remain unresolved in our own time. *The Political Thought of the Civil War* offers us the opportunity to pursue these questions from a new, critical perspective as leading scholars of American political science, history, and literature engage in some of the crucial debates of the Civil War era—and in the process illuminate more clearly the foundation and fault lines of the American regime. The essays in this volume use practical dilemmas of the Civil War to reveal and probe fundamental questions about the status of slavery and race in the American founding, the tension between moralism and constitutionalism, and the problem of creating and sustaining a multiracial society on the basis of the original principles of the American regime. Adopting a deliberative approach, the authors revisit the words and deeds of the most important political actors of era, from William Lloyd Garrison, John C. Calhoun, and Abraham Lincoln to Alexander Stephens and Frederick Douglass, with reference to the American Founders and the architects of Reconstruction. The essays in this volume consider the difficult choices each of these figures made, the specific problems they were responding to, and the consequences of those choices. As this book exposes and explores the theoretical principles at play within their historical context, it also offers vivid reminders of how the great controversies surrounding the Civil War continue to shape American political life to this day.

allen guelzo party affiliation: Did Lincoln Own Slaves? Gerald J. Prokopowicz, 2009-01-06 In the bicentennial year of Lincoln's birth, here is the one indispensable book that provides all you need to know about our most revered president in a lively and memorable question-and-answer format. You will learn whether Lincoln could dunk a basketball or tell a joke. Was he the great emancipator or a racist? If he were alive today, could he get elected? Did he die rich? Did scientists raise Lincoln from the dead? From the seemingly lighthearted to the most serious Gerald Prokopowicz tackles each question with balance and authority, and weaves a complete, satisfying biography that will engage young and old, scholars and armchair historians alike.

allen guelzo party affiliation: Lincoln, the Rise of the Republicans, and the Coming of the Civil War Kerry Walters, 2013-08-30 This succinct and readable account of the heated debate over the expansion of slavery provides readers with a thorough understanding of how the Civil War was precipitated. This book vividly depicts and clearly explains the events in the decades leading up to the Civil War that resulted from the controversy over expansion of slavery into the western

territories. The chapters describe how this single issue drove a wedge through the country and spawned the creation of several new political parties, including the Republican Party; caused furious congressional debates; sparked violence in Kansas; increased sectional discord between North and South; and allowed Abraham Lincoln to rise from relative obscurity to become the first Republican president of the United States. The work also supplies two-dozen thumbnail sketches of the period's greatest statesmen and less-than-great presidents, including individuals such as James Buchanan, John C. Calhoun, Salmon P. Chase, Henry Clay, Stephen Douglas, and William Henry Seward.

allen guelzo party affiliation: Presidential Elections, 1789-2008 Donald Richard Deskins, Hanes Walton, Sherman C. Puckett, 2010 Hanes Walton, Donald Deskins, and Sherman Puckett have produced a highly impressive collection and valuable contribution to the literature on American electoral politics. This work is indispensable for academic libraries, political scientists, historians, and serious students of American government. ---Immanuel Ness, Professor, Department of Political Science, Brooklyn College, City University of New York Massive amounts of information about presidential elections which are not readily available elsewhere. Unprecedented coverage in one volume of every single American presidential election. ---James Gimpel, Professor of Government, University of Maryland This is an extraordinary research endeavor; the most comprehensive set of aggregate election data ever assembled. Painstakingly researched, this color-coded volume presents data for every presidential election from 1789 to 2008. Unlike most, the wide ranging narrative for this atlas identifies racial patterns in the vote. Everyone who studies or is interested in presidential elections should have this impressive collection of statistical data in their libraries. A visual gem for the digital age. ---Robert Smith, Professor of Political Science, San Francisco State University Presidential Elections, 1789-2008 is a genuine tour de force that captures in an extremely accessible and comprehensive way the electoral geography of America's presidential elections, from Washington to Obama. An invaluable addition to the library of all those interested in presidential elections and U.S. politics. ---Marion Orr, Frederick Lippitt Professor of Public Policy and Professor of Political Science, Brown University This volume sets an extraordinarily high standard in scholarship, completeness, description, and explanation of our political process. It has been said that all politics are local, but never before has this been demonstrated with such clarity and panache, using the simple method of standardized tables summarizing voting, then showing state and county breakdowns of the numbers, greatly strengthened by beautiful full-color maps and cartograms. Every scholar of politics and democracy will benefit from the work laid out in this volume. ---Keith Clarke, Professor of Geography, University of California, Santa Barbara Presidential Elections is an almanac of the popular vote in every presidential election in American history, analyzed at the county level with histories of each campaign, graphs, and stunning four-color maps. Most Americans are familiar with the crude red state/blue state maps used by commentators and campaign strategists---and even, for want of an alternative, by many academics. In providing a higher-resolution view of voting behavior the authors of this new volume enable examination of local and regional political trends that are invisible in state-level aggregations. Presidential Elections will enable scholars to more subtly analyze voting behavior, campaigns, and presidential politics; commentators will use it to analyze trends and trace the historical evolution of new coalitions and voting blocs; strategists will use it to plan campaigns and mobilize constituencies. Presidential Elections will become the standard almanac on the subject: a required resource for academic and public libraries, as well as for scholars, consultants, and pundits nationwide. Donald R. Deskins, Jr., is a political geographer and Emeritus Professor of Sociology and a former Associate Dean of the Horace H. Rackham School of Graduate Studies at the University of Michigan. Hanes Walton, Jr., is Professor of Political Science at the University of Michigan. He also holds positions as Senior Research Scientist at the Center for Political Studies and as a faculty member in the Center for Afroamerican and African Studies. Sherman C. Puckett is a Ph.D. graduate of the University of Michigan in urban and regional planning. He was a mayoral appointee in the data processing department of the Coleman A. Young administration in the City of Detroit and recently retired from Wayne County government as manager of technology, geographic information systems, and

development of maintenance management systems.

allen guelzo party affiliation: A Hell of a Storm David S. Brown, 2024-09-17 From popular historian and author of the “marvelous” (The New York Times Book Review) *The Last American Aristocrat* comes the fascinating story of how in 1854, a new law—the Kansas-Nebraska Act—unexpectedly became the greatest miscalculation in American history, dividing North and South, creating the Republican party, and paving the way for the Civil War. The history of the United States includes a series of sectional compromises—the Constitutional Convention, the Missouri Compromise in 1820, and the Compromise of 1850. While these accords created an imperfect republic, or “a house divided,” as Lincoln put it, the country remained united. But then in 1854, this three-generations system suddenly blew up with the passage of the Kansas-Nebraska Act, and here, David Brown explores in riveting detail how the Act led to the sudden division of North and South. The Act declared that planters, if permitted by territorial laws, could bring their enslaved peoples to the land extending from the Mississippi River to the Rocky Mountains—the core of Jefferson’s old Louisiana Purchase which had been reserved for free labor. Northerners were shocked that free soil might now be turned over to slavery and responded with unprecedented backlash. In the bill’s wake the conservative Whig Party (winners of multiple presidential elections) collapsed, and the radical Republican Party was born—in six years it would take control of the central government, provoking Southern secession. In *A Hell of a Storm*, Brown brings history to life in a way that resonates with the events of present. Through chapters on Lincoln, Emerson, Stowe, Thoreau, and Tubman, along with a cast of presidents, poets, abolitionists, and black emigrationists, Brown weaves a political, cultural, and literary history that chronicles the Republican party’s creation and rise, the collapse of antebellum compromises, and the coming of the Civil War, all topics that mirror current discussions about polarization in our nation today. By illuminating the personalities and the platforms, the writings and ideas that upended an older America and made space for its successor, *A Hell of a Storm* reminds us that American history is always being made, and it can be both dynamic and dangerous, both then and now.

allen guelzo party affiliation: *Jockeying for the American Presidency* Lara M. Brown, 2010 This book will compel scholars to take a new look at the role of political opportunism in the presidential selection process. Lara Brown provides a fresh, innovative exploration of the roots of opportunism, one that challenges conventional wisdom as it advances our understanding of this complex topic.--Michael A. Genovese, Loyola Marymount University.

allen guelzo party affiliation: The Political Thought of Frederick Douglass Nicholas Buccola, 2013-07 Frederick Douglass, one of the most prominent figures in African-American and United States history, was born a slave, but escaped to the North and became a well-known anti-slavery activist, orator, and author. In *The Political Thought of Frederick Douglass*, Nicholas Buccola provides an important and original argument about the ideas that animated this reformer-statesman. Beyond his role as an abolitionist, Buccola argues for the importance of understanding Douglass as a political thinker who provides deep insights into the immense challenge of achieving and maintaining the liberal promise of freedom. Douglass, Buccola contends, shows us that the language of rights must be coupled with a robust understanding of social responsibility in order for liberal ideals to be realized. Truly an original American thinker, this book highlights Douglass's rightful place among the great thinkers in the American liberal tradition.--Pub. website.

allen guelzo party affiliation: *America's God* Mark A. Noll, 2002-10-03 Religious life in early America is often equated with the fire-and-brimstone Puritanism best embodied by the theology of Cotton Mather. Yet, by the nineteenth century, American theology had shifted dramatically away from the severe European traditions directly descended from the Protestant Reformation, of which Puritanism was in the United States the most influential. In its place arose a singularly American set of beliefs. In *America's God*, Mark Noll has written a biography of this new American ethos. In the 125 years preceding the outbreak of the Civil War, theology played an extraordinarily important role in American public and private life. Its evolution had a profound impact on America's self-definition. The changes taking place in American theology during this period were marked by heightened

spiritual inwardness, a new confidence in individual reason, and an attentiveness to the economic and market realities of Western life. Vividly set in the social and political events of the age, America's God is replete with the figures who made up the early American intellectual landscape, from theologians such as Jonathan Edwards, Nathaniel W. Taylor, William Ellery Channing, and Charles Hodge and religiously inspired writers such as Harriet Beecher Stowe and Catherine Stowe to dominant political leaders of the day like Washington, Jefferson, and Lincoln. The contributions of these thinkers combined with the religious revival of the 1740s, colonial warfare with France, the consuming struggle for independence, and the rise of evangelical Protestantism to form a common intellectual coinage based on a rising republicanism and commonsense principles. As this Christian republicanism affirmed itself, it imbued in dedicated Christians a conviction that the Bible supported their beliefs over those of all others. Tragically, this sense of religious purpose set the stage for the Civil War, as the conviction of Christians both North and South that God was on their side served to deepen a schism that would soon rend the young nation asunder. Mark Noll has given us the definitive history of Christian theology in America from the time of Jonathan Edwards to the presidency of Abraham Lincoln. It is a story of a flexible and creative theological energy that over time forged a guiding national ideology the legacies of which remain with us to this day.

allen guelzo party affiliation: Lincoln's Last Card Richard J. Ellis, 2025-02-25 There is a certain comfort in being able to see Lincoln—or any president—simply as either a hero or a villain. The truth, however, is more complicated. Lincoln's Last Card helps us look beyond the myths to see Lincoln as the flawed and consequential leader that he was. Few presidential edicts are more famous or misunderstood than the Emancipation Proclamation. The traditional myth about the proclamation is that President Lincoln freed the slaves with a bold stroke of his pen. This popular understanding deifies Lincoln as the sagacious Great Emancipator and constructs a narrative of American history centered around the heroic deeds of our "great" presidents. A more cynical view, bolstered by recent historical examinations of Lincoln's own racial biases, says the proclamation was much ado about nothing; a largely hollow gesture that freed no slaves at all and lacked even a moral indictment of slavery. Both views, however, see presidential power as largely unrestricted and unilateral, so that Lincoln's decisions occur in a virtual vacuum—a timeless display of his moral virtue, or lack thereof. Richard Ellis, a veteran scholar of the American presidency, suggests that we look at Lincoln's proclamation through the lens of presidential weakness rather than greatness. To do so, Ellis draws on the work of renowned political scientist Richard Neustadt, who explored "three cases of command" from the twentieth century in his 1960 work, *Presidential Power*. Where the public saw presidential success, Neustadt saw presidents engaged in "a painful last resort," suggesting not political mastery but rather the failure to achieve goals through other means. Ellis applies this same perspective to the Emancipation Proclamation, showing how Lincoln's great success was, in fact, his last card. Lincoln's original hope was to persuade the border states to endorse his plan for gradual, compensated abolition, preferably coupled with some level of voluntary colonization. Contrary to conventional wisdom and in contrast to Lincoln's reputation as the greatest presidential orator, Ellis shows how the Emancipation Proclamation was a sign of Lincoln's failure to persuade.
