ame zion church discipline 2021: *The Recovered Life of Isaac Anderson* Alicia K. Jackson, 2021-11-15 Owned by his father, Isaac Harold Anderson (1835-1906) was born a slave but went on to become a wealthy businessman, grocer, politician, publisher, and religious leader in the African American community in the state of Georgia. Elected to the state senate, Anderson replaced his white father there, and later shepherded his people as a founding member and leader of the Colored Methodist Episcopal church. He helped support the establishment of Lane College in Jackson, Tennessee, where he subsequently served as vice president. Anderson was instrumental in helping freed people leave Georgia for the security of progressive safe havens with significantly large Black communities in northern Mississippi and Arkansas. Eventually under threat to his life, Anderson made his own exodus to Arkansas, and then later still, to Holly Springs, Mississippi, where a vibrant Black community thrived. Much of Anderson's unique story has been lost to history—until now. In *The Recovered Life of Isaac Anderson*, author Alicia K. Jackson presents a biography of Anderson and in it a microhistory of Black religious life and politics after emancipation. A work of recovery, the volume captures the life of a shepherd to his journeying people, and of a college pioneer, a CME minister, a politician, and a former slave. Gathering together threads from salvaged details of his life, Jackson sheds light on the varied perspectives and strategies adopted by Black leaders dealing with a society that was antithetical to them and to their success.

ame zion church discipline 2021: *Black Indians and Freedmen* Christina Dickerson-Cousin, 2021-12-28 Often seen as ethnically monolithic, the African Methodist Episcopal (AME) Church in fact successfully pursued evangelism among diverse communities of indigenous peoples and Black Indians. Christina Dickerson-Cousin tells the little-known story of the AME Church's work in Indian Territory, where African Methodists engaged with people from the Five Civilized Tribes (Cherokees, Creeks, Choctaws, Chickasaws, and Seminoles) and Black Indians from various ethnic backgrounds. These converts proved receptive to the historically Black church due to its traditions of self-government and resistance to white hegemony, and its strong support of their interests. The ministers, guided by the vision of a racially and ethnically inclusive Methodist institution, believed their denomination the best option for the marginalized people. Dickerson-Cousin also argues that the religious opportunities opened up by the AME Church throughout the West provided another impetus for Black migration. Insightful and richly detailed, *Black Indians and Freedmen* illuminates how faith and empathy encouraged the unique interactions between two peoples.

ame zion church discipline 2021: *Digital Literary Redlining* Amy E. Earhart, 2025-06-24 Though canon concerns seem to be a relic of 1990s academia, we are, once again, at a historical moment when there is resistance to teaching texts by writers of color and texts that deal with race, ethnicity and gender. At the same time, algorithmic bias scholars are locating systemic bias encoded into systems from policing software to housing software. Bringing these divergent areas together, Amy E. Earhart examines how technological and institutional infrastructures construct and

deconstruct race, ethnicity and gender identities. Focusing on two central infrastructures, the database, a commonly used technological infrastructure in the digital humanities, and the anthology, a scholarly and pedagogical infrastructure, Earhart considers how such seemingly naturalized infrastructures impact the representation and modeling of identity. The book draws upon the building and use of DALA, a collection of almost 100 years of generalist American and African American literature anthologies, constructed to investigate questions of identity and representation in literary anthologies and, by extension, the larger literary canon. The resulting examination, and its rigorous discussion of how identities are created and recreated within Black literary histories, has important implications for contemporary cultural and political debates about canon formation, literary scholarship, and the bias embedded in technological infrastructures.

Pitt, 2021-10-05 Millions are leaving churches, half of all churches do not add any new members, and thousands of churches shutter their doors each year. These numbers suggest that American religion is not a growth industry. Yet, more than 1000 new churches are started in any given year. In *Church Planters*, sociologist Richard Pitt uses a series of in-depth interviews with church planters to understand what moves people who might otherwise be satisfied working for churches to the riskier role of starting one.

ame zion church discipline 2021: Divided We Stand Bruce Nelson, 2021-03-09 *Divided We Stand* is a study of how class and race have intersected in American society--above all, in the making and remaking of the American working class in the nineteenth and twentieth centuries. Focusing mainly on longshoremen in the ports of New York, New Orleans, and Los Angeles, and on steelworkers in many of the nation's steel towns, it examines how European immigrants became American and white in the crucible of the industrial workplace and the ethnic and working-class neighborhood. As workers organized on the job, especially during the overlapping CIO and civil rights eras in the middle third of the twentieth century, trade unions became a vital arena in which old and new immigrants and black migrants forged new alliances and identities and tested the limits not only of class solidarity but of American democracy. The most volatile force in this regard was the civil rights movement. As it crested in the 1950s and '60s, the Movement confronted unions anew with the question, Which side are you on? This book demonstrates the complex ways in which labor organizations answered that question and the complex relationships between union leaders and diverse rank-and-file constituencies in addressing it. *Divided We Stand* includes vivid examples of white working-class agency in the construction of racially discriminatory employment structures. But Nelson is less concerned with racism as such than with the concrete historical circumstances in which racialized class identities emerged and developed. This leads him to a detailed and often fascinating consideration of white, working-class ethnicity but also to a careful analysis of black workers--their conditions of work, their aspirations and identities, their struggles for equality. Making its case with passion and clarity, *Divided We Stand* will be a compelling and controversial book.

Washington, an esteemed African American educator and leader, was profoundly influenced by his experiences as an enslaved person in the antebellum South. ame zion church discipline 2021: Theology, Music, and Modernity Jeremy Begbie, Daniel K L Chua, Markus Rathey, 2021-02-02 Theology, Music, and Modernity addresses the question: how can the study of music contribute to a theological reading of modernity? It has grown out of the conviction that music has often been ignored in narrations of modernity's theological struggles. Featuring contributions from an international team of distinguished theologians, musicologists, and music theorists, the volume shows how music--and discourse about music--has remarkable powers to bring to light the theological currents that have shaped modern culture. It focuses on the concept of freedom, concentrating on the years 1740-1850, a period when freedom--especially religious and political freedom--became a burning matter of concern in virtually every stratum of Western society. The collection is divided into four sections, each section focusing on a key phenomenon of this period--the rise of the concept of 'revolutionary' freedom; the move of music from church to concert hall; the cry for eschatological justice in the work of black hymn-writer and church leader Richard Allen; and the often fierce tensions between music and language. There is a particular concern to draw on a distinctively 'Scriptural imagination' (especially the theme of New Creation) in order to elicit the key issues at stake, and to suggest constructive ways forward for a contemporary Christian theological engagement with the legacies of modernity today.
