ashok kumar internal affairs: *The Right to Information Act 2005* Sudhir Naib, 2011-01-24 The Indian state till recently denied information about its functioning and decision-making to its citizens, ironically, using laws made during the colonial period. Apart from being an anomaly in a democratic set-up, it created an adverse impact on the quality of governance, accountability, and transparency. It was only in 2005, after a prolonged freedom of information movement, that this situation was finally rectified. The government enacted the landmark Right to Information Act 2005, and gave to all its citizens the right to access information held by or under the control of public authorities. This Handbook is meant to serve as a practical guide to the implementation of the Act. The book begins by locating the Act in the context of a global movement for freedom of information (FOI), and discusses the efforts made by international bodies for adoption of FOI. It also presents a detailed comparative study of FOI in five countries—the US, the UK, Canada, South Africa, and India. In subsequent chapters, the book adopting a step-by-step approach, discusses the provisions of the Right to Information Act, how citizens should make use of the right to information, the comprehensive guidelines for public authorities and their obligations under the Act, which includes relevant central information commission decisions, the role of the public information officers (PIO), who are to be appointed as per the provisions in the Act by all public authorities, the exemptions allowed under the Act, and, finally, the appellate authorities to whom a citizen can appeal in case of

unsatisfactory response by the PIO.

Liability insurance has become a much talked about subject and is receiving well deserved attention of the people both on the supply and demand side in India and also worldwide. Yet, in Asia the phenomenon has never been studied systematically. Life Imprisonment in Asia fills this major gap. It brings together thirteen new essays on life imprisonment in key jurisdictions in the region. Each chapter

consolidates what is known about the law and practice of life imprisonment in the jurisdiction and then explores aspects of the imposition or implementation of life sentences that the authors regard as particularly problematic. In some instances, the main issue is the imposition of life sentences by the courts and their relationship to the death penalty. In others, the focus is on the treatment of life sentenced prisoners. In many instances, the most prominent question is whether life sentenced prisoners should be released and, if so, according to what processes. In the overview chapter, the editors place the complex picture that emerges of life imprisonment in Asia in a global context and point to reforms urgently required to ensure that Asian life sentences meet international human rights standards. Life Imprisonment in Asia should be read by everyone who has an interest in just punishments for serious offences, not only in Asia, but throughout the world. It will be an invaluable tool for lawyers, criminologists, policy makers and penal reform advocates in the region and beyond.
