bobby joe long case: My Life Among the Serial Killers Helen Morrison, Harold Goldberg, 2009-10-13 In this memoir, a forensic psychiatrist chronicles her work with more than 80 serial killers and her thoughts on what compels them. Judging by appearances, Dr. Helen Morrison has an ordinary life in the suburbs of a major city. She has a physician husband, two children, and a thriving psychiatric clinic. But her life is more than that. She is one of the world's leading experts on serial killers, and has spent as many as four hundred hours alone in rooms with depraved murderers, digging deep into killers' psyches in ways no profiler ever has before. In *My Life among the Serial Killers*, Dr. Morrison relates how she profiled the Mad Biter, Richard Otto Macek, who chewed on his victims' body parts, stalked Dr. Morrison, then believed she was his wife. She did the last interview with Ed Gein, who was the inspiration for Alfred Hitchcock's *Psycho*. John Wayne Gacy, the clown-obsessed killer of young men, sent her crazed Christmas cards and gave her his paintings as presents. Then there was Atlanta child killer Wayne Williams; rapist turned murderer Bobby Joe Long; Fred and Rosemary West, who killed girls and women in their Gloucester "House of Horrors"; and Brazil's deadliest killer of children, Marcelo Costa de Andrade. Dr. Morrison has received hundreds of letters from killers, read their diaries and journals, evaluated crime scenes, testified at their trials, and studied photos of the gruesome carnage. She has interviewed the families of the victims—and the spouses and parents of the killers—to gain a deeper understanding of the killer's environment and the public persona they adopt. She has also studied serial killers throughout history and shows how this is not a recent phenomenon with psychological autopsies of the fifteenth-century French war hero Gilles de Rais, the sixteenth-century Hungarian Countess Bathory, H.H. Holmes of the late nineteenth-century, and Albert Fish of the Roaring Twenties. Through it all, Dr. Morrison's goal has been to discover the reasons serial killers are compelled to murder, how they choose their victims, and what we can do to prevent their crimes in the future. Her provocative conclusions will stun you. Praise for *My Life Among the Serial Killers* "A scary piece of work, with even scarier implications." —Kirkus Reviews "A profoundly enlightening book. Morrison provides startling insights into what factors breed serial killers, and she avoids the broad generalizations that make other books of the topic seem slick and superficial. . . . This is an absorbing, disturbing book that makes it clear just how much we have yet to learn." —Booklist

bobby joe long case: How to Catch a Killer Katherine Ramsland, 2021-07-13 There are two parts to every crime story: how they did it and why they got caught. This book is about the second part, and how it changes the way we catch serial killers. No two stories about the capture of a serial killer are the same. Sometimes, the killers make crucial mistakes; other times, investigators get lucky. And the process of profiling, hunting, and apprehending these predators has changed

radically over time, particularly in the field of criminal forensics, which has exploded in the last ten to 15 years. Laser ablation, video spectral analysis, cyber-sleuthing, and even DNA-based genetic genealogy are now crucial tools in solving murders, including the recent capture of the so-called Golden State Killer. This book in the new Profiles in Crime series tells the history of forensics through the “capture stories” of some of the most notorious serial killers, going back almost a century. The killers include: Rodney Alcala, a serial rapist and murderer sometimes called “Dating Game killer” for his appearance on that TV show. No one knows the exact number of his victims. Takahiro Shiraishi, the suicide killer from Zama, Japan, who dismembered nine victims and stored their bodies in his refrigerator. Aileen Wuornos, one of the rare female serial killers. She shot seven men in Florida and was turned in by an accomplice. Jeffrey Dahmer, the “Milwaukee Cannibal,” and Bobby Joe Long, both identified by survivors Ted Bundy and David Berkowitz (“Son of Sam”), who both made mistakes Ludwig Tesson, who killed several children in Germany, and was caught through new methods in forensic investigation that could distinguish human from animal blood

bobby joe long case: Sexual Murder Louis B. Schlesinger, 2021-03-22 Sexual Murder: Catathymic and Compulsive Homicides is the culmination of the author's 45 years of experience with, and studying, sexually motivated homicide. Sexual murders are generally of two types — catathymic and compulsive. Catathymic homicides are caused by a breakthrough of underlying sexual conflicts. They can be unplanned, explosive (acute) attacks or planned murders stemming from a chronic obsession with, or disturbed attachment to, the victim. In compulsive homicides, a fusion of sex and aggression results in a powerful internal drive which pushes the offender to seek out victims to kill — and the killing itself is sexually gratifying. These murders also may be planned or unplanned. In compulsive homicides that are unplanned, the urge breaks through and disrupts the offender's controls when a victim of opportunity crosses his path. The compulsive offender who plans his crimes often eludes law enforcement, and as a result he can have multiple (serial) victims over extended periods of time. Both forms of sexual murder — the catathymic and the compulsive — are presented in this volume from a clinical-descriptive perspective encompassing case studies with analysis. Recent advances in empirical research in sexual murder—including findings from the joint research project between John Jay College of Criminal Justice and the FBI Behavioral Analysis Unit in Quantico—has published many important studies. These include such topics as necrophilia, foreign object insertions in sexual homicide, ritual and signature and temporal patterns in serial sexual homicide, mass murder, crime scene staging in homicide, and undoing (symbolic reversal) at homicide scenes. All such research will be included and incorporate into this fully updated Second Edition, including approximately fifty new clinical case studies.

bobby joe long case: Jack the Ripper Trevor Marriott, 2007-04-30 There have been countless attempts to solve the brutal murders committed more than 100 years ago by Jack the Ripper, but this most famous of British criminal cases finally benefits from a clear, professional eye to analyze the evidence with all the benefits of modern investigative techniques. Casting aside the rumors, fantasies, and urban legends which have haunted this case for so long, Trevor Marriott produces some startling results—while it has long been accepted that Jack the Ripper killed only five women, Marriott believes there were up to nine victims. Most astonishingly of all, a previously unconsidered suspect who also committed murders in America and Germany has been firmly put in the frame. All previous theories are refuted in what may possibly be the final word on the Ripper murders.

bobby joe long case: Jack the Ripper - Unmasked: The Real Identity of the World's Most Infamous Killer is Revealed at Last William Beadle, 2010-06-07 Had the Jack the Ripper murders taken place in 1988 not 1888 then our response to them would have been markedly different. Since those dark days in Victorian London we have learnt much about this type of killer: their damaged childhoods, misfit adulthoods and psychopathic alienation from the human race. But can this new knowledge help to solve a mystery that has been eluding generations of policemen and historians? By comparing the crimes of the Ripper with those of other serial killers, Ripper expert William Beadle creates a more extensive psychological profile of the man behind Jack the Ripper than ever

before. One suspect who embodied all the dire characteristics was William Henry Bury. Bury moved to the East End of London in 1887. He had a terrible childhood, he was a horsemeat butcher, and he had a violent relationship with his wife. But was Bury the Ripper? Beadle uses his Ripper psychological profile in conjunction with newly unearthed evidence: Bury was out all night on the dates of the murders, and when his wife 'committed suicide' she had been strangled and her body ripped up in the same way as the Ripper's victims. When Bury was executed for the murder of his wife, the killings in the East End stopped. A Scotland Yard detective even conceded to the hangman that he was 'quite satisfied you have hanged Jack the Ripper'.

bobby joe long case: *Criminal Law* Henry F. Fradella, Professor in and Associate Director of the School of Criminology and Criminal Justice Henry F Fradella, 2022-06-24 *Criminal Law* offers a unique hybrid approach to learning criminal law. Most textbooks oversimplify the law by presenting the black letter law for major and defenses, but they rarely present any corresponding exploration of the gray areas that exist beyond the basic rules of law. Conversely, casebooks present numerous edited judicial opinions, often with context. *Criminal Law* takes the best from each of these approaches by merging textual pedagogy and case analyses into a coherent framework that includes legal history, social context, and public policy. Taking a historical approach, legal expert Henry F. Fradella presents the law as it evolved from English common law and compares it with the modern statutory approach to crimes set forth in the American Law Institute's highly influential Model Penal Code. After providing such comparative pedagogy for each crime or defense, *Criminal Law* presents 1-2 edited cases that allow the reader to contrast how the black letter law plays out in the real world. After each case, a series of questions challenge students to engage in critical thinking about the case and its implications as precedent. Finally, chapters contain a number of additional pedagogical features that focus on public policy concerns and statutory interpretation skills using penal laws from a variety of U.S. states.
