Background of Bobby Joe Long

Bobby Joe Long was an American serial killer and rapist whose criminal activities in the early 1980s shocked the nation. Born in 1954, Long's troubled upbringing and early criminal behavior laid the groundwork for his later offenses. His background is critical to understanding the psychological and social factors that contributed to his violent behavior. Long's criminal record escalated from minor offenses to serious felonies, culminating in a series of brutal murders that would define his legacy.

Early Life and Criminal History

Born and raised in Florida, Bobby Joe Long faced numerous challenges during his formative years. Reports indicate a history of abuse and neglect, which often correlate with later criminality. Before his arrest for murder, Long had a record of sexual offenses and other crimes, signaling a pattern of escalating violence. These early signs were unfortunately overlooked by authorities, which allowed his behavior to intensify unchecked.

Psychological Profile

Psychologists who evaluated Long described him as a sociopath with a profound lack of empathy. His manipulative tendencies and ability to evade suspicion contributed to his prolonged criminal activity. The psychological profile highlighted traits common to violent offenders, including impulsivity, aggression, and a need for control. Understanding this profile is essential when examining the judicial decisions that led to

bobby joe long execution: Serial Killers of the '80s Jane Fritsch, 2022-08-02 The 1980s were a time of notorious serial killers—Jeffrey Dahmer, Aileen Wuornos, Samuel Little—but also of advances in forensics that helped lead to their capture. The serial killer became part of our common cultural consciousness in the 1970s and, in the decade that followed, the FBI confronted even more incomprehensible crimes and their perpetrators. This engrossing collection of illustrated true-crime profiles details the unthinkable exploits of a rogue's gallery that includes—in addition to Jeffrey Dahmer, Aileen Wuornos, and Gary Ridgway—Samuel Little and Joseph James DeAngelo, serial murderers whose criminal legacies are still making headlines today.

bobby joe long execution: Public Executions Christopher S. Kudlac, 2007-08-30 The death penalty is one of the country's most controversial issues. The fairness of its application is debated in coffeehouses, classrooms, political arenas, and the media. However, despite its representation in the media, most death cases receive surprisingly little national media attention. In fact, of the 1000 people executed in the United States since 1977, and the 3,500 inmates currently awaiting execution, only a handful of cases can be recalled by the public. Those that are memorable are so because only a few are dramatically represented in the media. Why is it that those that receive the most serious penalty are virtually nameless, while the death penalty in general is one of the most discussed aspects of the criminal justice system? What makes some executions more newsworthy

than others? What are the implications of this coverage for the public's understanding of this significant issue? This book looks at those death row cases that received the most intensive media coverage from the 1970s through the present, and why. At the same time, it focuses on changes in public opinion about the death penalty and how newspaper coverage and evolving mass sentiment relate to one another. Kudlac covers such celebrated cases as Karla Faye Tucker, Timothy McVeigh, Aileen Wuornos, John Wayne Gacy, and others that captured the attention of the American public and affected public opinion about the death penalty through the help of the media. He considers issues such as religion, politics, race, gender, and class as he reveals the reasons for our attention to certain cases above others. The book concludes with a consideration of where we go from here. With new investigative techniques that have helped to exonerate some death row inmates, and various other considerations that have come into play in recent cases, the future of the death penalty will continue to be shaped by the media and the public.

bobby joe long execution: Cold Blooded Frank Stanfield, 2021-05-25 The disturbing Central Florida cult murder case is revealed in full shocking detail in this true crime by the reporter who covered the case for decades. Central Florida residents were horrified when sixteen-year-old vampire cult leader Rod Ferrell was arrested for bludgeoning a cult member's parents to death. When investigators realized the couple's fifteen-year-old daughter was missing, they feared she was another victim. Detectives and journalists across three states soon uncovered a web of blood-drinking occult rituals, illicit sex, dysfunctional families, and spiritual warfare. And when police officers captured the teens, they discovered that the murdered couple's daughter was among them. But was she a victim or a participant? Ferrell faced the death penalty, sparking Constitutional battles over capital punishment and juveniles in the court system. Psychologists working to save him were locked in opposition with prosecutors who wanted him dead. Decades later, the court battles continue. Is Ferrell a changed man deserving freedom? Or is he still gaming the system?

bobby joe long execution: 'The Son of Sam' and Me Carl Denaro, Brian Whitney, 2021-03-02

An alleged victim of the Son of Sam shares his search for the truth about who really tried to kill him in this true crime story. In 1976, a killer who called himself "The Son of Sam" shot and killed a half dozen people and wounded as many more in New York City. During his crime spree, the madman left bizarre letters mocking the police and promising more deaths. After months of terrorizing the city while garnering front-page headlines and international attention, a man named David Berkowitz was arrested. He confessed to the shootings, claiming to be obeying a demon that resided in a dog belonging to his neighbor "Sam." Among the alleged victims was Carl Denaro. On the night he was shot, Denaro was hanging out with some friends at a bar when he met up with a woman named Rosemary Keenan. The couple left the bar and went to Keenan's car for some privacy. However, a few minutes later, the windows of the car exploded as Denaro was shot in the head by an unseen assailant. Miraculously, Denaro survived the attack. When Berkowitz was arrested, he was charged with trying to kill Denaro. However, there was a twist. Although he confessed to the other shootings, after his conviction Berkowitz denied attacking Denaro. Now, after years of research, Denaro is convinced that Berkowitz was telling the truth, and that someone else tried to kill him . . . In "The Son of Sam" and Me, author Carl Denaro with co-author Brian Whitney (The "Supreme Gentleman" Killer) reveals his search for the truth and his shocking conclusion regarding the real shooter's identity. Denaro also discusses his friendship and investigative partnership with Maury Terry, the author of *The Ultimate Evil*, which is considered the definitive case study on the theory that Berkowitz did not act alone. Includes never-revealed correspondence between Denaro and Berkowitz.

bobby joe long execution: Satin Pumps Steve Kosareff, 2021-02-02

The true crime memoir about a 1950s doctor, his girlfriend, the murder of his wife, and the 3 trials that followed, written by one of his former patients. Did the handsome, wealthy doctor and his beautiful young paramour plan to kill his glamorous socialite wife? Or did the gun accidentally discharge as he claimed? Early in the evening on July 18, 1959, Dr. Bernard Finch and his girlfriend, Carole Ann Tregoff, drove from their Las Vegas love-nest to the Finch home in the Los Angeles suburb of West Covina to speak to his wife Barbara about obtaining a speedy divorce in Nevada. But the plan went awry, and the conversation turned deadly with Barbara's lifeless body ending up in her in-laws' backyard next door. After a high-speed chase with police, Finch was arrested the next morning in Las Vegas and charged with Barbara's murder. Then, during his court hearing in West Covina, Carole was arrested on the witness stand and charged as his accomplice. Soon others were named as part of a larger conspiracy. But who were they and what parts did they play in these deadly events?

bobby joe long execution: How to Catch a Killer Katherine Ramsland, 2021-07-13 There are two parts to every crime story: how they did it and why they got caught. This book is about the second part, and how it changes the way we catch serial killers. No two stories about the capture of a serial killer are the same. Sometimes, the killers make crucial mistakes; other times, investigators get lucky. And the process of profiling, hunting, and apprehending these predators has changed radically over time, particularly in the field of criminal forensics, which has exploded in the last ten to 15 years. Laser ablation, video spectral analysis, cyber-sleuthing, and even DNA-based genetic genealogy are now crucial tools in solving murders, including the recent capture of the so-called Golden State Killer. This book in the new Profiles in Crime series tells the history of forensics through the "capture stories" of some of the most notorious serial killers, going back almost a century. The killers include: Rodney Alcala, a serial rapist and murderer sometimes called "Dating Game killer" for his appearance on that TV show. No one knows the exact number of his victims. Takahiro Shiraishi, the suicide killer from Zama, Japan, who dismembered nine victims and stored their bodies in his refrigerator. Aileen Wuornos, one of the rare female serial killers. She shot seven men in Florida and was turned in by an accomplice. Jeffrey Dahmer, the "Milwaukee Cannibal," and Bobby Joe Long, both identified by survivors Ted Bundy and David Berkowitz ("Son of Sam"), who both made mistakes Ludwig Tesson, who killed several children in Germany, and was caught through new methods in forensic investigation that could distinguish human from animal blood

bobby joe long execution: My Life Among the Serial Killers Helen Morrison, Harold Goldberg, 2009-10-13 In this memoir, a forensic psychiatrist chronicles her work with more than 80 serial killers and her thoughts on what compels them. Judging by appearances, Dr. Helen Morrison has an ordinary life in the suburbs of a major city. She has a physician husband, two children, and a thriving psychiatric clinic. But her life is more than that. She is one of the world's leading experts on serial killers, and has spent as many as four hundred hours alone in rooms with depraved murderers, digging deep into killers' psyches in ways no profiler ever has before. In My Life among the Serial Killers, Dr. Morrison relates how she profiled the Mad Biter, Richard Otto Macek, who chewed on his victims' body parts, stalked Dr. Morrison, then believed she was his wife. She did the last interview with Ed Gein, who was the inspiration for Alfred Hitchcock's Psycho. John Wayne Gacy, the clown-obsessed killer of young men, sent her crazed Christmas cards and gave her his paintings as presents. Then there was Atlanta child killer Wayne Williams; rapist turned murderer Bobby Joe Long; Fred and Rosemary West, who killed girls and women in their Gloucester "House of Horrors"; and Brazil's deadliest killer of children, Marcelo Costa de Andrade. Dr. Morrison has received hundreds of letters from killers, read their diaries and journals, evaluated crime scenes, testified at their trials, and studied photos of the gruesome carnage. She has interviewed the families of the victims—and the spouses and parents of the killers—to gain a deeper understanding of the killer's environment and the public persona they adopt. She has also studied serial killers throughout history and shows how this is not a recent phenomenon with psychological autopsies of the fifteenth-century French war hero Gilles de Rais, the sixteenth-century Hungarian Countess Bathory, H.H. Holmes of the late nineteenth-century, and Albert Fish of the Roaring Twenties. Through it all, Dr. Morrison's goal has been to discover the reasons serial killers are compelled to murder, how they choose their victims, and what we can do to prevent their crimes in the future. Her provocative

conclusions will stun you. Praise for *My Life Among the Serial Killers* "A scary piece of work, with even scarier implications." —Kirkus Reviews "A profoundly enlightening book. Morrison provides startling insights into what factors breed serial killers, and she avoids the broad generalizations that make other books of the topic seem slick and superficial. . . . This is an absorbing, disturbing book that makes it clear just how much we have yet to learn." —Booklist

Some have been incarcerated for decades and their outlook on life, their crimes and what purpose they might have was discussed in detail with interesting and sometimes unusual results. "Care is just a word until someone like Briar comes along and gives it true life." - Monk Steppenwolf, serving a life sentence in Michigan for killing five people in 1964 "You have extraordinary heart to what you've done. You've gone, along, into prisons and interviewed what most people would consider to be the most dangerous class of criminals and that not to trash them, but to give them a voice. You are, of course, awesome..." - Bernard Eugene Giles, incarcerated for life in Florida for murdering five women in the 1970s "Briar Lee Mitchell strips away the sad labels that our society clings to by speaking directly to those who live next door, and walk side by side with us on city streets. She provides absolute proof what when pushed to the edge anybody can become the 'Breaking News' and shows that empathy and compassion is the only way to prevent the next tragedy. We can all benefit from learning what sets a person off and possibly preventing the next bloodbath. Briar, I hope you accept my truth and thank you for allowing me to share my growth as a human being with you." - Respectfully, Scott E. bobby joe long execution: The Brain Defense Kevin Davis, 2017-02-28 Called "the best kind of nonfiction" by Michael Connelly, this riveting new book combines true crime, brain science, and courtroom drama. In 1991, the police were called to East 72nd St. in Manhattan, where a woman's body had fallen from a twelfth-story window. The woman's husband, Herbert Weinstein, soon confessed to having hit and strangled his wife after an argument, then dropping her body out of their apartment window to make it look like a suicide. The 65-year-old Weinstein, a quiet, unassuming retired advertising executive, had no criminal record, no history of violent behavior—not even a short temper. How, then, to explain this horrific act? Journalist Kevin Davis uses the perplexing story of the Weinstein murder to present a riveting, deeply researched exploration of the intersection of neuroscience and criminal justice. Shortly after Weinstein was arrested, an MRI revealed a cyst the size of an orange on his brain's frontal lobe, the part of the brain that governs judgment and impulse control. Weinstein's lawyer seized on that discovery, arguing that the cyst had impaired Weinstein's judgment and that he should not be held criminally responsible for the murder. It was the first case in the United States in which a judge allowed a scan showing a defendant's brain activity to be admitted as evidence to support a claim of innocence. The Weinstein case marked the dawn of a new era in America's courtrooms, raising complex and often troubling questions about how we define responsibility and free will, how we view the purpose of punishment, and how strongly we are willing to bring scientific evidence to bear on moral questions. Davis brings to light not only the intricacies of the Weinstein case but also the broader history linking brain injuries and aberrant behavior, from the bizarre stories of Phineas Gage and Charles Whitman, perpetrator of the 1966 Texas Tower massacre, to the role that brain damage may play in violence

carried out by football players and troubled veterans of America's twenty-first century wars. The Weinstein case opened the door for a novel defense that continues to transform the legal system: Criminal lawyers are increasingly turning to neuroscience and introducing the effects of brain injuries—whether caused by trauma or by tumors, cancer, or drug or alcohol abuse—and arguing that such damage should be considered in determining guilt or innocence, the death penalty or years behind bars. As he takes stock of the past, present and future of neuroscience in the courts, Davis offers a powerful account of its potential and its hazards. Thought-provoking and brilliantly crafted, *The Brain Defense* marries a murder mystery complete with colorful characters and courtroom drama with a sophisticated discussion of how our legal system has changed—and must continue to change—as we broaden our understanding of the human mind.
