black british actresses: Companion to Contemporary Black British Culture Alison Donnell, 2002-09-11 The Companion to Contemporary Black British Culture is the first comprehensive reference book to provide multidisciplinary coverage of the field of black cultural production in Britain. The publication is of particular value because despite attracting growing academic interest in recent years, this field is still often subject to critical and institutional neglect. For the purpose of the Companion, the term 'black' is used to signify African, Caribbean and South Asian ethnicities, while at the same time addressing the debates concerning notions of black Britishness and cultural identity. This single volume Companion covers seven intersecting areas of black British cultural production since 1970: writing, music, visual and plastic arts, performance works, film and cinema, fashion and design, and intellectual life. With entries on distinguished practitioners, key intellectuals, seminal organizations and concepts, as well as popular cultural forms and local activities, the Companion is packed with information and suggestions for further reading, as well as offering a wide lens on the events and issues that have shaped the cultural interactions and productions of black Britain over the last thirty years. With a range of specialist advisors and contributors, this work promises to be an invaluable sourcebook for students, researchers and academics interested in exploring the diverse, complex and exciting field of black cultural forms in postcolonial Britain.

black british actresses: Trailblazers of Black British Theatre Stephen Bourne, 2021-10-07 In Trailblazers of Black British Theatre, Stephen Bourne celebrates the pioneers of Black British theatre, beginning in 1825, when Ira Aldridge made history as the first Black actor to play Shakespeare's Othello in the United Kingdom, and ending in 1975 with the success of Britain's first Black-led theatre company. In addition to providing a long-overdue critique of Laurence Olivier's Othello, too-often cited as the zenith of the role, Bourne has unearthed the forgotten story of Paul Molyneaux, a Shakespearean actor of the Victorian era. The twentieth-century trailblazers include Paul Robeson, Florence Mills, Elisabeth Welch, Buddy Bradley, Gordon Heath, Edric Connor and Pearl Connor-Mogotsi, all of them active in Great Britain, though some first found fame in the United States or the Caribbean. Then there are the groundbreaking works of playwrights Barry Reckord and Errol John at the Royal Court; the first Black drama school students; pioneering theatre companies; and three influential dramatists of the 1970s: Mustapha Matura, Michael Abbensetts and Alfred Fagon. Drawing on original research and interviews with leading lights, Trailblazers of Black British Theatre is a powerful study of theatre's Black trailblazers and their profound influence on British culture today.

black british actresses: Female Stars of British Cinema Melanie Williams, 2017-07-07 Although stardom and celebrity have sometimes been seen as antithetical to traditional British notions of restraint and modesty, female stars have nonetheless always been an important attraction for audiences of British cinema, offering specifically British takes on ideas of glamour, acting prowess and femininity. This book will explore in detail the history of British female stardom from the 1940's to the present day through an examination of careers and star personae, from Anna Neagle, who enjoyed record-breaking popularity in the immediate post-war years, to key contemporary figures such as Keira Knightley and Helen Mirren. This is a major new study of stardom in British cinema and the first to focus on female stars.

black british actresses: Where No Black Woman Has Gone Before Diana Adesola Mafe, 2018-03-01 A look at African American women in science fiction, fantasy, and horror: "A compelling contribution to the scholarship on speculative cinema and television." —Journal of American Culture When Lieutenant Uhura took her place on the bridge of the Starship Enterprise on Star Trek, the actress Nichelle Nichols went where no African American woman had ever gone before. Yet several decades passed before many other black women began playing significant roles in speculative (i.e., science fiction, fantasy, and horror) film and television—a troubling omission, given that these

genres offer significant opportunities for reinventing social constructs such as race, gender, and class. Challenging cinema's history of stereotyping or erasing black women onscreen, *Where No Black Woman Has Gone Before* showcases twenty-first-century examples that portray them as central figures of action and agency. Writing for fans as well as scholars, Diana Adesola Mafe looks at representations of black womanhood and girlhood in American and British speculative film and television, including *28 Days Later*, *AVP: Alien vs. Predator*, *Children of Men*, *Beasts of the Southern Wild*, *Firefly*, and *Doctor Who: Series 3*. Each of these has a subversive black female character in its main cast, and Mafe draws on critical race, postcolonial, and gender theories to explore each film and show, placing the black female characters at the center of the analysis and demonstrating their agency. The first full study of black female characters in speculative film and television, *Where No Black Woman Has Gone Before* shows why heroines such as Lex in *AVP* and Zoë in *Firefly* are inspiring a generation of fans, just as Uhura did.

black british actresses: *Ebony*, 1991-09 EBONY is the flagship magazine of Johnson Publishing. Founded in 1945 by John H. Johnson, it still maintains the highest global circulation of any African American-focused magazine.

black british actresses: *Black Neo-Victoriana*, 2021-11-22 Black Neo-Victoriana is the first book-length study on contemporary re-imaginings of Blackness in the long nineteenth century. Located at the intersections of postcolonial studies, Black studies, and neo-Victorian criticism, this interdisciplinary collection engages with the global trend to reimagine and rewrite Black Victorian subjectivities that have been continually marginalised in both historical and cultural discourses. Contributions cover a range of media, from novels and drama to film, television and material culture, and draw upon cultural formations such as Black fandom, Black dandyism, or steamfunk. The book evidences how neo-Victorian studies benefits from reading re-imaginings of the long nineteenth century vis-à-vis Black epistemologies, which unhinge neo-Victorianism's dominant spatial and temporal axes and reroute them to conceive of the (neo-)Victorian through Blackness.

black british actresses: *Radical Realisms in Contemporary British Theatre* Hannah Greenstreet, 2025-07-24 This book offers radical new insights into the relation between realism, feminism and gender identities in contemporary theatre. It maps the theatrical forms emerging from a 'new wave' of women's playwriting in Britain in the 2010s, unsettling the boundaries between what is conventionally considered realist and what is considered experimental. While realism has often been characterized as a politically conservative form in feminist criticism, the author argues that contemporary feminist plays demonstrate the potential of realism, both artistically and politically, to adapt and respond to our changing world. By re-encountering realism as an experimental form through close analysis of plays and productions, the author reveals the radicalism of realism anew. Reconsidering longstanding debates in feminist theatre scholarship in the light of contemporary theatre practice in the UK, this book also offers a new, 'feminist formalist' theoretical approach to analyzing plays. Playwrights and practitioners studied include RashDash, Katie Mitchell, Alice Birch, Ella Hickson, Jasmine Lee-Jones, Tanika Gupta, Young Jean Lee, Lucy Kirkwood, Travis Alabanza, Yaël Farber, Split Britches and Caryl Churchill. Case studies are enriched by original interviews with practitioners, as well as performance analysis, close reading and archival research. This book explores and celebrates the vitality and inventiveness of contemporary feminist playwriting.

black british actresses: *Dramatizing Theologies* Anthony G. Reddie, 2014-12-05 Black theology has flourished within the academy. Its theories, however, have not always translated into

practical use for Black people. 'Dramatizing Theologies' outlines the strong practical dimension of Black theology. Combining Black theology with dramatic, dialogical sketch material, the book produces an accessible approach to Black theological dialogue. The chasm between the academy, church and grassroots communities is overcome through the use of drama. 'Dramatizing Theologies' offers a unique methodology for Black theological conversation with the poor, marginalized and disenfranchised.

black british actresses: Shakespeare, Race and Performance Delia Jarrett-Macauley, 2016-08-05 What does it mean to study Shakespeare within a multicultural society? And who has the power to transform Shakespeare? The *Diverse Bard* explores how Shakespeare has been adapted by artists born on the margins of the Empire, and how actors of Asian and African-Caribbean origin are being cast by white mainstream directors. It examines how notions of 'race' define the contemporary British experience, including the demands of traditional theatre, and it looks at both the playtexts themselves and contemporary productions. Editor Delia Jarrett-Macauley assembles a stunning collection of classic texts and new scholarship by leading critics and practitioners, to provide the first comprehensive critical and practical analysis of this field.

black british actresses: Rise of the English Actress Sandra Richards, 1993-06-18 An account of the English actress's view of her own rise up to social and professional prominence from 1600 to the present. black british actresses: Restaging Feminisms Elaine Aston, 2020-05-18 *Restaging Feminisms* offers a re-encounter with the tripartite modelling of liberal, radical, and socialist feminisms foundational to establishing feminist approaches to theatre. This lucid account of past-present connections to the staging of feminism assesses the legacies and renewals of all three feminist dynamics as they intersect with austerity Britain, the Weinstein watershed, and the #MeToo movement. Feminist politics, concepts, and the role of affect in the making of political attachments inform an approach that values understanding feminism's past as critical to reanimating and restaging socially progressive, feminist futures. The volume includes case studies of productions staged between 2016 and 2019: Caryl Churchill's *Escaped Alone*; David Greig's version of *The Suppliant Women*; Morgan Lloyd Malcolm's *Emilia*; Nina Raine's *Consent*; Townsend Theatre's *We Are The Lions Mr Manager*; and Laura Wade's *Home, I'm Darling*. From an author with a pioneering and thirty-year-long commitment to the study of feminism and British theatre, *Restaging Feminisms* is for an intergenerational feminist-theatre readership: for those who are discovering relations between feminism and theatre for the first time and those re-encountering the feminist dynamics and their renewed resonance on the contemporary British stage.

In a brilliant new universe where the intersectional values of fourth wave feminism are becoming more widespread, fantasy and science fiction are leading the charge. Shows from *Star Wars* to *Doctor Who* are rewriting their traditional storylines to include more well-rounded and racially diverse female characters. *Steven Universe*, DC's *Legends of Tomorrow*, *Orphan Black* and *Sense8* highlight queer characters and experiences. Dystopias like Marvel's *Jessica Jones* and *The Handmaid's Tale* show the female perspective entirely, guiding viewers from trauma to self-determination. In fantasy and horror, *Wynonna Earp*, *Game of Thrones*, *Supergirl*, *Vikings*, *American Horror Story*, *Black Mirror*, and *The Walking Dead* reveal how much the story changes with a spectrum of women reclaiming the text from white, straight, young, cisgender men. These new shows are intersectional, digital, global, critical, and political, with fan responses changing the content and cutting-edge platforms like Netflix and Hulu shaking up the format.

black british actresses: *The Palgrave Handbook of the History of Women on Stage* Jan Sewell, Clare Smout, 2020-04-29 This book brings together nearly 40 academics and theatre practitioners to chronicle and celebrate the courage, determination and achievements of women on stage across the ages and around the globe. The collection stretches from ancient Greece to present-day Australasia via the United States, Soviet Russia, Europe, India, South Africa and Japan, offering a series of analytical snapshots of women performers, their work and the conditions in which they produced it. Individual chapters provide in-depth consideration of specific moments in time and geography while the volume as a whole and its juxtapositions stimulate consideration of the bigger picture, underlining the challenges women have faced across cultures in establishing themselves as performers and the range of ways in which they gained access to the stage. Organised chronologically, the volume looks not just to the past but the future: it challenges the very notions of 'history', 'stage' and even the definition of 'women' itself.

black british actresses: *Harry Potter and the Other* Sarah Park Dahlen, Ebony Elizabeth Thomas, 2022-06-27 Named a 2023 Honour Book by the International Research Society for Children's Literature Contributions by Christina M. Chica, Kathryn Coto, Sarah Park Dahlen, Preethi Gorecki, Tolonda Henderson, Marcia Hernandez, Jackie C. Horne, Susan E. Howard, Peter C. Kunze, Florence Maätita, Sridevi Rao, Kallie Schell, Jennifer Patrice Sims, Paul Spickard, Lily Anne Welty Tamai, Ebony Elizabeth Thomas, Jasmine Wade, Karin E. Westman, and Charles D. Wilson Race matters in the fictional Wizarding World of the Harry Potter series as much as it does in the real world. As J. K. Rowling continues to reveal details about the world she created, a growing number of fans, scholars, readers, and publics are conflicted and concerned about how the original Wizarding World—quintessentially white and British—depicts diverse and multicultural identities, social subjectivities, and communities. *Harry Potter and the Other: Race, Justice, and Difference in the Wizarding World* is a timely anthology that examines, interrogates, and critiques representations of race and difference across various Harry Potter media, including books, films, and official websites, as well as online forums and the classroom. As the contributors to this volume demonstrate, a deeper reading of the series reveals multiple ruptures in popular understandings of the liberatory potential of the Potter series. Young people who are progressive, liberal, and empowered to question authority may have believed they were reading something radical as children and young teens, but increasingly they have raised alarms about the series' depiction of peoples of color, cultural appropriation in worldbuilding, and the author's antitrans statements in the media. Included essays examine the failed wizarding justice system, the counterproductive portrayal of Nagini as an Asian woman, the liberation of Dobby the elf, and more, adding meaningful contributions to existing scholarship on the Harry Potter series. As we approach the twenty-fifth anniversary of the publication of *Harry Potter and the Philosopher's Stone*, *Harry Potter and the Other* provides a smorgasbord of insights into the way that race and difference have shaped this story, its world, its author, and the generations who have come of age during the era of the Wizarding World.

black british actresses: *Jet*, 2005-02-21 The weekly source of African American political and entertainment news.

black british actresses: *Exploring Television Acting* Tom Cantrell, Christopher Hogg, 2018-05-31 The first collection of its kind to bring together scholarly and practitioner perspectives, this book analyses the experiences, skills and techniques of actors when working on television. Featuring eleven chapters by internationally distinguished researchers and actor trainers, this collection examines the acting processes and resulting performances of some of the most acclaimed television actors. Topics include: studio and location realism; actor training for television; actor well-being in the television industry; performance in reality television and British and Irish actors in contemporary US television and film. The book also contains case studies examining the work of Emmy-award-winning actor Viola Davis and the iconic character of Gene Hunt in *Life on Mars* (BBC, 2006-2007).
