[Bolaño's] greatest work." —James Wood, The New York Times The book that catapulted Roberto Bolaño into international literary stardom, *By Night in Chile* is the final testimony of Sebastián Urrutia Lacroix—Chilean priest and member of Opus Dei, eminent literary critic and failed poet—as he is haunted by a shadowy figure from his past. In Urrutia's feverish last hours, a deluge of memories pours from him: of hobnobbing with Santiago's most unctuous literati; of undertaking a mission to save Europe's decaying cathedrals from existential threat by pigeon excrement; of retreating into Greco-Roman poetry during the darkest chapter of modern Chilean history; of tutoring Augusto Pinochet in Marxist theory, so that the General may better understand his enemies. Throughout he insists, with fracturing conviction, that he was always on the right side of history. A novel about high art and fascism, silence and complicity, and, ultimately, the weight of damnation, Roberto Bolaño's *By Night in Chile* is a deep-cutting satire and a work of devastating moral insight.

Castro, 2017-01-26 Roberto Bolaño as World Literature provides an introduction to the Chilean novelist that highlights his connections with classic and contemporary masters of world literature and his investigation of topics of international interest, such as the rise of rightwing and neofascist movements during the last decades of the 20th century. But this anthology also shows how Roberto Bolaño's participation in world literature is informed in his experiences, identity, and, more generally, cultural location as a Chilean, Latin American and, more generally, Hispanic writer and man. This book provides a corrective to readings of his novels as exclusively postmodern or as unproblematically representative of Chilean or Latin American reality. Roberto Bolaño as World Literature thus helps readers to better understand such complex works as his monumental global five-part masterpiece 2666, his Chilean novels (Distant Star, By Night in Chile), and his Mexican narratives (Amulet, The Savage Detectives), among other works.

Just, 2020-06-15 Climate - Chaos - Trump - Brexit - Terror: the apocalypse looms large in the Zeitgeist. Could and should this not provide the fulcrum for renewing the imaginative range of organization studies? In this volume, we bring together scholars who have taken Roberto Bolaño's visionary novel 2666 as a starting point for reflections, provocations, and challenges to established imaginaries. How can we cultivate and develop our attention to the violent organization of the world without reproducing more violence? Contributors to this edited volume take on this challenge as they seek to break through the various blind spots in the discipline of management and organization studies. Bolaño's work opens up hidden and fantastic dimensions in organization and provides alternative spaces and associations for new and bold organizational thinking. Various disturbing, self-destructive, and abyssal, these essays reflect "that something that terrifies us all" as Bolaño wrote, "that something that crows and spurs us on". by night in chile picador: Latin American Culture and the Limits of the Human Lucy Bollington, Paul Merchant, 2020-03-18 This volume explores works from Latin American literary and visual culture that question what it means to be human and examine the ways humans and nonhumans shape one another. In doing so, it provides new perspectives on how the region challenges and adds to global conversations about humanism and the posthuman. Contributors identify posthumanist themes across a range of different materials, including an anecdote about a plague of rabbits in *Historia de las Indias* by Spanish historian Bartolomé de las Casas, photography depicting desert landscapes at the site of Brazil's War of Canudos, and digital and installation art portraying victims of state-sponsored and drug violence in Colombia and Mexico. The essays illuminate how these cultural texts broach the limits between life and death, human and animal, technology and the body, and people and the environment. They also show that these works use the category of the human to address issues related to race, gender, inequality, necropolitics, human rights, and the role of the environment. *Latin American Culture and the Limits of the Human* demonstrates that by focusing on the boundary between the human and nonhuman, writers, artists, and scholars can open up new dimensions to debates about identity and difference, the local and the

global, and colonialism and power. Contributors: Natalia Aguilar Vásquez | Emily Baker | Lucy Bollington | Liliana Chávez Díaz | Carlos Fonseca | Niall H.D. Geraghty | Edward King | Rebecca Kosick | Nicole Delia Legnani | Paul Merchant | Joanna Page | Joey Whitfield

by night in chile picador: 38 Londres Street Philippe Sands, 2025-10-07 In this intimate legal and historical detective story, the world-renowned lawyer and acclaimed author of *East West Street* traces the footsteps of two of the twentieth century's most merciless criminals—accused of genocide and crimes against humanity—testing the limits of immunity and impunity after Nuremberg. "Though nearly a decade in the making, this book could not arrive at a better time, because its subject is one of the most pressing themes of our era: impunity. . . . Sands has created an indelible and enthralling work of moral witness." —Patrick Radden Keefe, author of *Say Nothing* On the evening of October 16, 1998, Chilean dictator Augusto Pinochet was arrested at a medical clinic in London. After a brutal, seventeen-year reign marked by assassinations, disappearances, and torture—frequently tied to the infamous detention center at the heart of Santiago, Londres 38—Pinochet was being indicted for international crimes and extradition to Spain, opening the door to criminal charges that would follow him to the grave, in 2006. Three decades earlier, on the evening of December 3, 1962, SS-Commander Walter Rauff was arrested in his home in Punta Arenas, at the southern tip of Chile. As the overseer of the development and use of gas vans in World War II, he was indicted for the mass murder of tens of thousands of Jews and faced extradition to West Germany. Would these uncommon criminals be held accountable? Were their stories connected? The Nuremberg Trials—where Rauff's crimes had first been read into the record, in 1945—opened the door to universal jurisdiction, and Pinochet's case would be the first effort to ensnare a former head of state. In this unique blend of memoir, courtroom drama, and travelogue, Philippe Sands gives us a front row seat to the Pinochet trial—where he acted as a barrister for Human Rights Watch—and teases out the dictator's unexpected connection to a leading Nazi who ended up managing a king crab cannery in Patagonia. A decade-long journey exposes the chilling truth behind the lives of two men and their intertwined destinies on 38 Londres Street.

by night in chile picador: *Latin America and the Origins of Its Twenty-First Century* Michael Monteón, 2009-12-30 Latin American societies were created as pre-industrial colonies, that is, peoples whose cultures and racial makeup were largely determined by having been conquered by Spain or Portugal. In all these societies, a colonial heritage created political and social attitudes that were not conducive to the construction of democratic civil societies. And yet, Latin America has a public life—not merely governments, but citizens who are actively involved in trying to improve the lives and welfare of their populations. Monteón focuses on the relation of people's lifestyles to the evolving pattern of power relations in the region. Much more than a basic description of how people lived, this book melds social history, politics, and economics into one, creating a full picture of Latin

American life. There are two poles or markers in the narrative about people's lives: the cities and the countryside. Cities have usually been the political and cultural centers of life, from the conquest to the present. Monteon concentrates on cities in each chronological period, allowing the narrative to explain the change from a religiously-centered life to the secular customs of today, from an urban form organized about a central plaza and based on walking, to one dominated by the automobile and its traffic. Each chapter relates the connections between the city and its countryside, and explains the realities of rural life. Also discussed are customs, diets, games and sports, courting and marriage, and how people work.

by night in chile picador: Things with a History Héctor Hoyos, 2019-10-29 Can rubber trees, silicone dolls, corpses, soil, subatomic particles, designer shoes, and discarded computers become the protagonists of contemporary literature—and what does this tell us about the relationship between humans and objects? In *Things with a History*, Héctor Hoyos argues that the roles of objects in recent Latin American fiction offer a way to integrate materialisms old and new, transforming our understanding of how things shape social and political relations. Discussing contemporary authors including Roberto Bolaño, Ariel Magnus, César Aira, and Blanca Wiethüchter as well as classic writers such as Fernando Ortiz and José Eustasio Rivera, Hoyos considers how Latin American literature has cast things as repositories of history, with an emphasis on the radically transformed circulation of artifacts under globalization. He traces a tradition of thought, transcultural materialism, that draws from the capacity of literary language to defamiliarize our place within the tangible world. Hoyos contrasts new materialisms with historical-materialist approaches, exposing how recent tendencies sometimes sidestep concepts such as primitive accumulation, commodity fetishism, and conspicuous consumption, which have been central to Latin American history and literature. He contends that an integrative approach informed by both historical and new materialisms can balance seeing things as a means to reveal the true nature of social relations with appraisals of things in their autonomy. *Things with a History* simultaneously offers a sweeping account of the material turn in recent Latin American culture and reinvigorates social theory and cultural critique.

by night in chile picador: Hyperbolic Realism Samir Sellami, 2024-01-11 What comes after postmodernism in literature? Hyperbolic Realism engages the contradiction that while it remains impossible to present a full picture of the world, assessing reality from a planetary perspective is now more than ever an ethical obligation for contemporary literature. The book thus examines the hyperbolic forms and features of Thomas Pynchon's *Against the Day* and Roberto Bolaño's *2666* – their discursive and material abundance, excessive fictionality, close intertwining of fantastic and historical genres, narrative doubt and spiraling uncertainty – which are deployed not as an escape from, but a plunge into reality. Faced with a reality in a permanent state of exception, Pynchon and Bolaño react to the excesses and distortions of the modern age with a new poetic and aesthetic paradigm that rejects both the naive illusion of a return to the real and the self-enclosed artificiality of classical postmodern writing: hyperbolic realism.

by night in chile picador: Ezra Pound and the Spanish World Viorica Patea, John Gery, Walter Baumann, 2024-04-26 This collection offers for the first time criticism, biographical essays, analysis, translation studies, and reminiscences of Ezra Pound's extensive interaction with Spain and Spanish culture, from his earliest visits to Spain in 1902 and 1906 and his study of significant Spanish writers to the dedication of the first monument erected anywhere to Pound in the small Spanish village of Medinaceli in 1973. Divided into two sections, Part One: "ON EZRA POUND AND THE SPANISH WORLD" includes a general introduction on Pound's lifelong involvement with Spain, together with chapters on Pound's study of classical Spanish literature, the Spanish dimension in *The Cantos*, Pound's contemporary Spanish connections, and his legacy in contemporary Spanish letters. Part Two: "EZRA POUND AND THE SPANISH WORLD: A READER," then gathers for the first time Pound's own writings (postcards, letters, and essays) concerning Spain and Spanish writers, as well as his correspondence with Spanish poets Miguel de Unamuno and Juan Ramón Jiménez and with José Vázquez Amaral, the first Spanish translator of *The Cantos* in its entirety. The

volume includes reminiscences by Spanish Novísimos poets, Antonio Colinas and Jaime Siles, written explicitly for this collection. Besides providing a thorough exploration into Pound's engagement with Spain, this volume pays homage to Pound's considerable influence on Spanish culture.
