Just before his death, however, Cassavetes confessed to Ray Carney something he had never before revealed - that much of his so-called 'masterpiece of improvisation' was actually written by him and Robert Alan Aurthur, a professional Hollywood screenwriter. In the ten years that followed Carney tracked down all of the surviving members of the cast and crew in order to piece together the true story of the making of *Shadows*. cassavetes on cassavetes ray carney: *Rewriting Indie Cinema* J. J. Murphy, 2019-04-16 Most films rely on a script developed in pre-production. Yet beginning in the 1950s and continuing through the recent mumblecore movement, key independent filmmakers have broken with the traditional screenplay. Instead, they have turned to new approaches to scripting that allow for more complex characterization and shift the emphasis from the page to performance. In *Rewriting Indie Cinema*, J. J. Murphy explores these alternative forms of scripting and how they have shaped American film from the 1950s to the present. He traces a strain of indie cinema that used improvisation and psychodrama, a therapeutic form of improvised acting based on a performer's own life experiences. Murphy begins in the 1950s and 1960s with John Cassavetes, Shirley Clarke,

Barbara Loden, Andy Warhol, Norman Mailer, William Greaves, and other independent directors who sought to create a new type of narrative cinema. In the twenty-first century, filmmakers such as Gus Van Sant, the Safdie brothers, Joe Swanberg, and Sean Baker developed similar strategies, sometimes benefitting from the freedom of digital technology. In reading key films and analyzing their techniques, *Rewriting Indie Cinema* demonstrates how divergence from the script has blurred the divide between fiction and nonfiction. Showing the ways in which filmmakers have striven to capture the subtleties of everyday behavior, Murphy provides a new history of American indie filmmaking and how it challenges Hollywood industrial practices.

Essays link Emerson to Walt Whitman, Allen Ginsberg, John Holt, Randolph Bourne, Frank Lloyd Wright, and John Cassavetes. Emerson is also linked to modern dance, used as a counterargument to political dualism and rampant technological progression, and interrogated for the social deficiencies of his philosophy. All in all, the work is an attempt to revitalize a great American thinker, and to show how those who have followed his example and his words continue to make this country great today.

color line. In a broader sense, however, this also concerns viewing conditions and knowledge configurations. The fact that American film engages itself so extensively with the unbalanced relation between black and white is neither coincidental nor trivial to state — it has much more to do with disputing boundaries that pertain to the medium itself. Lisa Gotto examines this constellation along the early history of American film, the cinematic modernism of the late 1950s, and the post-classical cinema of the turn of the millennium.
