catching teller crow plot: [Abolition Geography](#) Ruth Wilson Gilmore, 2022-05-10 The first collection of writings from one of the foremost contemporary critical thinkers on racism, geography and incarceration Gathering together Ruth Wilson Gilmore's work from over three decades, Abolition Geography presents her singular contribution to the politics of abolition as theorist, researcher, and organizer, offering scholars and activists ways of seeing and doing to help navigate our turbulent present. Abolition Geography moves us away from explanations of mass incarceration and racist violence focused on uninterrupted histories of prejudice or the dull compulsion of neoliberal economics. Instead, Gilmore offers a geographical grasp of how contemporary racial capitalism operates through an "anti-state state" that answers crises with the organized abandonment of people and environments deemed surplus to requirement. Gilmore escapes one-dimensional conceptions of what liberation demands, who demands liberation, or what indeed is to be abolished. Drawing on the lessons of grassroots organizing and internationalist imaginaries, Abolition Geography undoes the identification of abolition with mere decarceration, and reminds us that freedom is not a mere principle but a place. Edited with an introduction by Brenna Bhandar and Alberto Toscano.

catching teller crow plot: [Victorian Women and the Theatre of Trance](#) Amy Lehman, 2014-01-10 Spiritualists in the nineteenth century spoke of the Borderland, a shadowy threshold where the living communed with the dead, and where those in the material realm could receive comfort or advice from another world. The skilled performances of mostly female actors and performers made the Borderland a theatre, of sorts, in which dramas of revelation and recognition were produced in the forms of seances, trances, and spiritualist lectures. This book examines some of the most fascinating American and British actresses of the Victorian era, whose performances fairly mesmerized their audiences of amused skeptics and ardent believers. It also focuses on the transformative possibilities of the spiritualist theatre, revealing how the performances allowed Victorian women to speak, act, and create outside the boundaries of their restricted social and psychological roles.
