chronicles of a death foretold: Crónica de una muerte anunciada Gabriel García Márquez, 2015-02-05 «El día en que lo iban a matar, Santiago Nasar se levantó a las 5.30 de la mañana para esperar el buque en que llegaba el obispo». Acaso sea *Crónica de una muerte anunciada* la obra más «realista» de Gabriel García Márquez, pues se basa en un hecho histórico acontecido en la tierra natal del escritor. Cuando empieza la novela, ya se sabe que los hermanos Vicario van a matar a Santiago Nasar -de hecho, ya le han matado- para vengar el honor ultrajado de su hermana Ángela, pero el relato termina precisamente en el momento en que Santiago Nasar muere. El tiempo cíclico, tan utilizado por García Márquez en sus obras, reaparece aquí minuciosamente descompuesto en cada uno de sus momentos, reconstruido prolija y exactamente por el narrador, que va dando cuenta de lo que sucedió mucho tiempo atrás, que avanza y retrocede en su relato y hasta llega mucho tiempo después para contar el destino de los supervivientes. La acción es, a un tiempo, colectiva y personal, clara y ambigua, y atrapa al lector desde un principio, aunque este conozca el desenlace de la trama. La dialéctica entre mito y realidad se ve potenciada aquí, una vez más, por una prosa tan cargada de fascinación que la eleva hasta las fronteras de la leyenda. Otros autores opinan... «Un genio». Julio Cortázar «La suya es una devoción sin límites por las letras, desorbitada, febril, insistente, insomne entrega a las secretas maravillas de la palabra escrita». Álvaro Mutis «Su mundo era el mío, traducido al español. No es extraño que me enamorara de él, no por su magia, sino por su realismo». Salman Rushdie «La voz garciamarquiana alcanza aquí un nivel en el que resulta a la vez clásica y coloquial, opalescente y pura, capaz de alabar y maldecir, de reír y llorar, de fabular y cantar, de despegar y volar cuando es necesario». Thomas Pynchon

chronicles of a death foretold: Love and Politics in the Contemporary Spanish American Novel Aníbal González, 2010-02-01 The Latin American Literary Boom was marked by complex novels steeped in magical realism and questions of nationalism, often with themes of surreal violence. In recent years, however, those revolutionary projects of the sixties and seventies have given way to quite a different narrative vision and ideology. Dubbed the new sentimentalism, this trend is now keenly elucidated in *Love and Politics in the Contemporary Spanish American Novel*. Offering a rich account of the rise of this new mode, as well as its political and cultural implications, Aníbal González delivers a close reading of novels by Miguel Barnet, Elena Poniatowska, Isabel Allende, Alfredo Bryce Echenique, Gabriel García Márquez, Antonio Skármeta, Luis Rafael Sánchez, and others. González proposes that new sentimental novels are inspired principally by a desire to heal the division, rancor, and fear produced by decades of social and political upheaval. Valuing pop culture above the avant-garde, such works also tend to celebrate agape—the love of one's neighbor—while denouncing the negative effects of passion (eros). Illuminating these and other aspects of post-Boom prose, *Love and Politics in the Contemporary Spanish American Novel* takes a fresh look at contemporary works.

chronicles of a death foretold: Gabriel Garcia Marquez and the Powers of Fiction Julio Ortega, 2014-05-23 Together with the late Jorge Luis Borges, Gabriel García Márquez, the 1982 Nobel laureate, stands at the pinnacle of Latin American literature. His work, in the words of Julio Ortega, contains its own 'deconstructive' force—a literary power capable of reshaping natural order and rhetorical tradition in order to 'carnivalize' the Borges' library and allow us to hear the voices—and the laughter—of a culture, that of Latin America. This reshaping force invites us to read the works of García Márquez in a new way, one that bypasses the traditional, inadequate approaches through Latin American politics, history, and magical realism. In *Gabriel García Márquez and the Powers of Fiction*, noted scholars Julio Ortega, Ricardo Gutiérrez Mouat, Michael Palencia-Roth, Aníbal González, and Gonzalo Díaz-Migoyo offer English-speaking readers a new approach to García Márquez's work. Their poststructuralist readings focus on the peculiar sign-system, formal configuration, intradiscursivity, and unfolding representation in the novels *One Hundred Years of Solitude*, *No One Writes to the Colonel*, *In Evil Hour*, *The Autumn of the Patriarch*, and *Chronicle of a Death Foretold* and in several of the author's short stories. Also included as an appendix is a translation of García Márquez's Nobel Prize acceptance speech, *The Solitude of Latin America*.

A kid from Queens who spent his youth at the epicenter of this new art form, music critic William Jelani Cobb takes readers inside the beats, the lyrics, and the flow of hip-hop, separating mere corporate rappers from the creative MCs that forged the art in the crucible of the street jam. The four pillars of hip hop—break dancing, graffiti art, deejaying, and rapping—find their

origins in traditions as diverse as the Afro-Brazilian martial art Capoeira and Caribbean immigrants' turnstile artistry. Tracing hip-hop's relationship to ancestral forms of expression, Cobb explores the cultural and literary elements that are at its core. From KRS-One and Notorious B.I.G. to Tupac Shakur and Lauryn Hill, he profiles MCs who were pivotal to the rise of the genre, verbal artists whose lineage runs back to the black preacher and the bluesman. Unlike books that focus on hip-hop as a social movement or a commercial phenomenon, *To the Break of Dawn* tracks the music's aesthetic, stylistic, and thematic evolution from its inception to today's distinctly regional sub-divisions and styles. Written with an insider's ear, the book illuminates hip-hop's innovations in a freestyle form that speaks to both aficionados and newcomers to the art.

chronicles of a death foretold: The First Vietnam War Mark Atwood Lawrence, Fredrik Logevall, 2007-02-28 How did the conflict between Vietnamese nationalists and French colonial rulers erupt into a major Cold War struggle between communism and Western liberalism? To understand the course of the Vietnam wars, it is essential to explore the connections between events within Vietnam and global geopolitical currents in the decade after the Second World War. In this illuminating work, leading scholars examine various dimensions of the struggle between France and Vietnamese revolutionaries that began in 1945 and reached its climax at Dien Bien Phu. Several essays break new ground in the study of the Vietnamese revolution and the establishment of the political and military apparatus that successfully challenged both France and the United States. Other essays explore the roles of China, France, Great Britain, and the United States, all of which contributed to the transformation of the conflict from a colonial skirmish to a Cold War crisis. Taken together, the essays enable us to understand the origins of the later American war in Indochina by positioning Vietnam at the center of the grand clash between East and West and North and South in the middle years of the twentieth century.
