church mothers day speech: Graceful Speech Lucy Lind Hogan, 2006-01-01 In this introductory text, Lucy Lind Hogan helps the reader understand the theological task of becoming a preacher, the craft of writing the sermon, and the importance of communicating the gospel in the present world. In doing so, she creates a book that is more holistic than any other homiletics text currently on the market. Hogan begins with a theological rationale for preaching, which serves as a basis for understanding the identity of the preacher. She then explores the context for preaching, showing how to interpret a scriptural text, design a sermon, and use illustrations and examples. She also discusses preaching for special occasions, the use of different technologies in preaching, and the importance of delivery. This book includes questions for reflection.

church mothers day speech: Black Texas Women: 150 Years of Trial and Triumph Ruthe Winegarten, 2010-07-22 "Enriches and complicates African American and women's history by connecting threads of race, gender, class, and region." —Darlene Clark Hine, John A. Hannah Professor of History, Michigan State University Winner of the Liz Carpenter Award from the Texas State Historical Association Women of all colors have shaped families, communities, institutions, and societies throughout history, but only in recent decades have their contributions been widely recognized, described, and celebrated. This book presents the first comprehensive history of Black Texas women, a previously neglected group whose 150 years of continued struggle and some successes against the oppression of racism and sexism deserve to be better known and understood. Beginning with slave and free women of color during the Texas colonial period and concluding with contemporary women who serve in the Texas legislature and the United States Congress, Ruthe Winegarten organizes her history both chronologically and topically. Her narrative sparkles with the life stories of individual women and their contributions to the work force, education, religion, the club movement, community building, politics, civil rights, and culture. The product of extensive archival and oral research and illustrated with over 200 photographs, this groundbreaking work will be equally appealing to general readers and to scholars of women's history, black history, American

studies, and Texas history. "Occasionally a book comes along that is monumental in scope, overwhelming in amount of research, and so powerful in its impact as to be categorized at once as a lasting contribution to our knowledge of humankind. *Black Texas Women* is one of those rare books." —The Journal of American History

church mothers day speech: *Landmark Speeches of National Socialism* Randall L. Bytwerk, 2008-05-27 The power which has always started the greatest religious and political avalanches in history rolling has from time immemorial been the magic power of the spoken word, and that alone.—Adolf Hitler, *Mein Kampf* As historians have long noted, public oratory has seldom been as pivotal in generating and sustaining the vitality of a movement as it was during the rise and rule of the National Socialist Party, from 1919 to 1945. Led by the charismatic and indefatigable Hitler, National Socialists conducted one of the most powerful rhetorical campaigns ever recorded. Indeed, the mass addresses, which were broadcast live on radio, taped for re-broadcast, and in many cases filmed for play on theater newsreels throughout the Third Reich, constituted one of the most thorough exploitations of media in history. Because such evil lay at the heart of the National Socialist movement, its overwhelming rhetoric has often been negatively characterized as propaganda. As Randall Bytwerk points out, however, the propaganda label was anything but negative in the minds of the leaders of the National Socialist movement. In their view, the clear, simplistic, and even one-sided presentation of information was necessary to mobilize effectively all elements of the German population into the National Socialist program. Gathered here are thirteen key speeches of this historically significant movement, including Hitler's announcement of the party's reestablishment in 1925 following the unsuccessful Beer Hall Putsch, four addresses by Joseph Goebbels, the 1938 Kristallnacht speech by Julius Streicher, and four speeches drafted as models for party leaders' use on various public occasions. The volume concludes with Adolf Hitler's final public address on January 30, 1945, three months before his suicide. Several of these works are presented for the first time in English translation. Bytwerk provides a brief introduction to each speech and allows the reader to trace the development and downfall of the Nazi party. *Landmark Speeches of National Socialism* is an important volume for students of rhetoric, World War II, Nazi Germany, and the Holocaust.

church mothers day speech: *In the Lion's Mouth* Omar H. Ali, 2011-02-03 Following the collapse of Reconstruction in 1877, African Americans organized a movement—distinct from the

white Populist movement—in the South and parts of the Midwest for economic and political reform: Black Populism. Between 1886 and 1898, tens of thousands of black farmers, sharecroppers, and agrarian workers created their own organizations and tactics primarily under black leadership. As Black Populism grew as a regional force, it met fierce resistance from the Southern Democrats and constituent white planters and local merchants. African Americans carried out a wide range of activities in this hostile environment. They established farming exchanges and cooperatives; raised money for schools; published newspapers; lobbied for better agrarian legislation; mounted boycotts against agricultural trusts and business monopolies; carried out strikes for better wages; protested the convict lease system, segregated coach boxes, and lynching; demanded black jurors in cases involving black defendants; promoted local political reforms and federal supervision of elections; and ran independent and fusion campaigns. Growing out of the networks established by black churches and fraternal organizations, Black Populism found further expression in the Colored Agricultural Wheels, the southern branch of the Knights of Labor, the Cooperative Workers of America, the Farmers Union, and the Colored Farmers Alliance. In the early 1890s African Americans, together with their white counterparts, launched the People's Party and ran fusion campaigns with the Republican Party. By the turn of the century, Black Populism had been crushed by relentless attack, hostile propaganda, and targeted assassinations of leaders and foot soldiers of the movement. The movement's legacy remains, though, as the largest independent black political movement until the rise of the modern civil rights movement.

church mothers day speech: Poetry and the Realm of the Public Intellectual Karen Patricia Peña, 2007 In this study, we see how Gabriela Mistral travels to Mexico and finds the countryside a way to declare her own queer identity; many years later we find her re-imagining a frightening feminine space where she contests the terrible fate of Greek heroines. In Cecilia Meireles, we discover a writer at odds with her femininity, who declares herself androgynous. Like Mistral, she too travelled extensively, and we see her arguing against the wealth of capitalism and industrialization when she travels to the United States in 1940. Rosario Castellanos straightforwardly argues for women's procreative rights in almost all of her poetry. And in an illuminating re-reading of Mistral, Castellanos allows the shadow of her predecessor to vocalize the tragedies of the inability to control woman's reproductive choices. Book jacket.
