cassavetes on cassavetes quotes: *Play the Way You Feel* Kevin Whitehead, 2020-04-01 Jazz stories have been entwined with cinema since the inception of jazz film genre in the 1920s, giving us origin tales and biopics, spectacles and low-budget quickies, comedies, musicals, and dramas, and stories of improvisers and composers at work. And the jazz film has seen a resurgence in recent years--from biopics like *Miles Ahead* and HBO's *Bessie*, to dramas *Whiplash* and *La La Land*. In *Play the Way You Feel*, author and jazz critic Kevin Whitehead offers a comprehensive guide to these films and other media from the perspective of the music itself. Spanning 93 years of film history, the book looks closely at movies, cartoons, and a few TV shows that tell jazz stories, from early talkies to modern times, with an eye to narrative conventions and common story points. Examining the ways historical films have painted a clear picture of the past or overtly distorted history, *Play the Way You Feel* serves up capsule discussions of sundry topics including Duke Ellington's social life at the Cotton Club, avant-garde musical practices in 1930s vaudeville, and Martin Scorsese's improvisatory method on the set of *New York, New York*. Throughout the book, Whitehead brings the same analytical bent and concise, witty language listeners know from his jazz segments on NPR's *Fresh Air* with Terry Gross. He investigates well-known songs, traces the development of the stock jazz film ending, and offers fresh, often revisionist takes on works by such directors as Howard Hawks, John Cassavetes, Shirley Clarke, Francis Ford Coppola, Clint Eastwood, Spike Lee, Robert Altman, Woody Allen and Damien Chazelle. In all, *Play the Way You Feel* is a feast for film-genre fanatics and movie-watching jazz enthusiasts.

cassavetes on cassavetes quotes: **The Films of Lenny Abrahamson** Barry Monahan, 2018-08-23 *The Films of Lenny Abrahamson: A Filmmaking of Philosophys of* provides a comprehensive study of the films of contemporary, highly critically-appraised Irish director Lenny Abrahamson. As well as considering the aesthetics, cultural reflections and philosophical concerns in the better known work of this dynamic and profoundly original Irish filmmaker, it also looks at his short film - *3 Joes* - and his little-seen student film *Mendel*. As the first sustained study of Abrahamson's engaging and cinematically rich work, Barry Monahan's book sheds light on the

aesthetic wealth of the artist and connects his stylistic innovations to the context of his projects' socio-cultural background, to his own influences in modern cinema – going beyond Irish film, to reflect upon the works of auteurs such as Bergman, Tarkovsky, Kubrick, and Kaurismäki among others – and to a broader reflection on what his canon has to contribute to the philosophy of cinema, art, and questions about human existence in the 21st century.

The director's process is clearly defined and augmented with illustrations, photographs and graphics, and each chapter concludes with practical exercises to consolidate the new knowledge.

cassavetes on cassavetes quotes: Hollywood's New Yorker Marc Raymond, 2013-03-13 When Martin Scorsese finally won an Academy Award in 2007, for *The Departed*, it was widely viewed as the crowning achievement of a remarkable film career. But what it also represented was an acceptance by Hollywood of a man who became a prestigious auteur precisely because of his status as an outsider from New York. For someone with a high-culture reputation like Scorsese's, this middlebrow sign of respectability was not about cultural standing; rather, it was about using and even sacrificing his distinctive outsider status for a greater share of industry authority within the world of Hollywood. In *Hollywood's New Yorker*, Marc Raymond offers a fresh look at Scorsese's career in relation to the critical and social environment of the past fifty years. He traces Scorsese's career and films through his association with various cultural institutions, from his role as a student and instructor at New York University, to his move to Hollywood and his relationship with the studio system, to his relationship with prestigious institutions like the Museum of Modern Art. This sociological approach to film authorship provides analysis of previously overlooked Scorsese projects, particularly his documentary work, and gives importance to the role his extracurricular activities in the film preservation movement have played in the rise of his reputation. *Hollywood's New Yorker* places Scorsese and his films firmly within the various time periods of his career and compares the director with his peers, from fellow New Yorkers like Brian De Palma and Woody Allen to New Hollywood movie brats such as Francis Ford Coppola and Steven Spielberg. The result is a complete picture of Scorsese and the post-World War II American film culture he has both shaped and been shaped by.

cassavetes on cassavetes quotes: Hollywood Highbrow Shyon Baumann, 2018-06-05 Today's moviegoers and critics generally consider some Hollywood products--even some blockbusters--to be legitimate works of art. But during the first half century of motion pictures very few Americans would have thought to call an American movie art. Up through the 1950s, American movies were regarded as a form of popular, even lower-class, entertainment. By the 1960s and 1970s, however, viewers were regularly judging Hollywood films by artistic criteria previously applied only to high art forms. In *Hollywood Highbrow*, Shyon Baumann for the first time tells how social and cultural forces radically changed the public's perceptions of American movies just as those forces were radically changing the movies themselves. The development in the United States of an appreciation of film as an art was, Baumann shows, the product of large changes in Hollywood and American society as a whole. With the postwar rise of television, American movie audiences shrank dramatically and Hollywood responded by appealing to richer and more educated viewers. Around the same time, European ideas about the director as artist, an easing of censorship, and the development of art-house cinemas, film festivals, and the academic field of film studies encouraged the idea that some American movies--and not just European ones--deserved to be considered art.

cassavetes on cassavetes quotes: Ida Lupino, Forgotten Auteur Alexandra Seros, 2024 The

acting career of legendary star Ida Lupino is well known, but there has been little analysis of her directorial career. She was one of the few female directors in Classical Hollywood and the only one with membership in the Directors Guild of America between 1948 and 1971. Like Orson Welles, her career was notable in transitioning from acting to directing first in film and then in television, in addition to helping to create and run the production company The Filmakers [sic]. Her films were notably about women navigating difficult positions in society, dealing with controversial issues such as rape and bigamy. Nevertheless, she was the first female director of a noir film, *The Hitch-Hiker*, which is a suspenseful tale of two motorists taken hostage by a serial killer in the Southwest. Alexandra Seros, a filmmaker herself, examines Lupino's career with a focus on her directorial roles and how she navigated this as a woman, as well as a wife and mother, in male-dominated Hollywood. She explains how Lupino began directing and formed The Filmakers before providing a close analysis of three of her films (*Not Wanted*, *Never Fear*, and the aforementioned *The Hitch-Hiker*) and examining how she navigated the shooting and negotiated with the censors to be able to tell the stories she wanted to tell. Seros then details Lupino's transition to television and her taking the director's reins in that medium as well. Lupino directed episodes in a wide variety of genres, but specialized in Westerns and thrillers. Even as the press and the studios tried to focus on her femininity as a dutiful wife and loving mother, she often refused to play along and be coded as feminine in this way. Seros analyzes three of Lupino's directed episodes, comparing them with similar work done by noted male directors Nicholas Ray, Robert Aldrich, and Alfred Hitchcock, stressing Lupino's efficient, effective work in finishing the shows on time and within budget. She finishes by arguing that Lupino was a new kind of auteur, whose collaborative family approach to filmmaking was far ahead of its time--

cassavetes on cassavetes quotes: **American Exposures** Louis Kaplan, 2005 *American Exposures* sheds light on photographs, from Arthur Mole's propagandistic 'living photographs' of American icons and symbols to the exploration of contemporary subcultural communities by the Korean-born photographer and performance artist Nikki Lee, and asserts that the depiction of community is a central component to photography. Louis Kaplan deploys a number of critical concepts and theories developed by Jean-Luc Nancy in *The Inoperative Community*, as well as other philosophers, and applies them to the field of photography studies. With an original approach to photography from Edward Steichen's *Family of Man* exhibition to Pedro Meyer and the rise of the digital image, Kaplan points to a new way to think about the intimate relationship among photography, American life, and the artistic imagination. -- Back cover.

cassavetes on cassavetes quotes: **The Six Day Horror Movie** Michael P. DiPaolo, 2003-12-31 When someone offered Michael DiPaolo \$5,000 to help make a Digital Video horror film, he jumped at the chance to test a theory: an ultra-low budget feature, shot in less than a week, with a paid cast and crew, could be successful if meticulously planned. Using one computer and one camcorder, he produced and edited *Daddy*, which had its theatrical premier in New York City in 2004. This book breaks down the production through a detailed daily diary, emphasizing that the most important aspects of successful producing are careful planning and camaraderie in the group. The work covers many points important for the low-budget filmmaker, including selecting a story; budgeting; scheduling; picking cast and crew; scouting locations; finding wardrobe, food, and transportation; and what to do if you run out of time or money. Postproduction is also covered (editing, computer work, and sound design), as is the result of all this hard work: screenings, festivals, and distributors. One chapter covers the primacy of cinematic point-of-view, and another profiles some role models for the aspiring low-budget filmmaker: Edgar Ulmer, Val Lewton, Roger Corman, John Cassavetes, Ed Wood, Jr., and Jean-Luc Godard. Later chapters explain strategy and tactics of guerrilla filmmaking and show the budding filmmaker how to recognize both his limitations and his strengths.

cassavetes on cassavetes quotes: *Moment of Action* Murray Pomerance, 2016-05-09 There are hundreds of biographies of filmstars and dozens of scholarly works on acting in general. But what about the ephemeral yet indelible moments when, for a brief scene or even just a single shot, an actor's performance triggers a visceral response in the viewer? *Moment of Action* delves into the mysteries of screen performance, revealing both the acting techniques and the technical apparatuses that coalesce in an instant of cinematic alchemy to create movie gold. Considering a range of acting styles while examining films as varied as *Bringing Up Baby*, *Psycho*, *The Red Shoes*, *Godzilla*, and *The Bourne Identity*, Murray Pomerance traces the common dynamics that work to structure the complex relationship between the act of cinematic performance and its eventual perception. Mining the spaces where subjective and objective analyses merge, Pomerance offers both a deeply personal account of film viewership and a detailed examination of the intuitive gestures, orchestrated movements, and backstage maneuvers that go into creating those phenomenal moments onscreen. *Moment of Action* takes us on an innovative exploration of the nexus at which the actor's keen skills spark and kindle the audience's receptive energies.

cassavetes on cassavetes quotes: *Here's Looking at You* Ernest D. Giglio, 2005 *Here's Looking at You: Hollywood, Film & Politics* examines the tangled relationship between politics and Hollywood, which manifests itself in celebrity involvement in political campaigns and elections, and in the overt and covert political messages conveyed by Hollywood films. The book's findings contradict the film industry's assertion that it is simply in the entertainment business, and examines how, while the majority of Hollywood films are strictly commercial ventures, hundreds of movies - ranging from *Birth of a Nation* to *Fahrenheit 9/11* - do indeed contain political messages. *Here's Looking at You* serves as a basic text for political film courses and as a supplement in American government and film studies courses, and will also appeal to film buffs and people in the film industry.

cassavetes on cassavetes quotes: *Songs of Innocence and Experience* Magdalena Grabias-Zurek, 2013-07-26 *Songs of Innocence and Experience: Romance in the Cinema of Frank Capra* is a study of the director's chosen movies from the perspective of three types of comedies: paradisa, purgatorial and infernal, as assigned by Dante in his *Divine Comedy*. Magdalena Grabias views Capra's films in two broader categories of "innocence" and "experience," where "innocence" represents Dantean paradisa level, and "experience" combines the levels of purgatory and inferno. Such a division constitutes the means to interpret Capra's filmic universe and to describe the ever-evolving directorial vision of Frank Capra. The main purpose of the book is to demonstrate how, in the light of the theory of literary romance as presented by Northrop Frye in his seminal works concerning the subject, the films of Frank Capra fit into the genre of romance. Romantic elements in Frank Capra's movies can be found in both "innocence" and "experience" categories and, hence, consequently in his paradisa, purgatorial and infernal comedies. However, in both categories, and all three comedy types, the romantic reality of each examined film is structured and developed in a different manner. The book offers an insight into Frank Capra's films and the complex process of

creating his multidimensional romantic universe within them.

cassavetes on cassavetes quotes: Sick in the Head Judd Apatow, 2015-06-16 NEW YORK TIMES BESTSELLER • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE A.V. CLUB • Includes new interviews! From the writer and director of Knocked Up and the producer of Freaky and Geeks comes a collection of intimate, hilarious conversations with the biggest names in comedy from the past thirty years—including Mel Brooks, Jerry Seinfeld, Jon Stewart, Sarah Silverman, Harold Ramis, Seth Rogen, Chris Rock, and Lena Dunham. Before becoming one of the most successful filmmakers in Hollywood, Judd Apatow was the original comedy nerd. At fifteen, he took a job washing dishes in a local comedy club—just so he could watch endless stand-up for free. At sixteen, he was hosting a show for his local high school radio station in Syosset, Long Island—a show that consisted of Q&As with his comedy heroes, from Garry Shandling to Jerry Seinfeld. They talked about their careers, the science of a good joke, and their dreams of future glory (turns out, Shandling was interested in having his own TV show one day and Steve Allen had already invented everything). Thirty years later, Apatow is still that same comedy nerd—and he's still interviewing funny people about why they do what they do. Sick in the Head gathers Apatow's most memorable and revealing conversations into one hilarious, wide-ranging, and incredibly candid collection that spans not only his career but his entire adult life. Here are the comedy legends who inspired and shaped him, from Mel Brooks to Steve Martin. Here are the contemporaries he grew up with in Hollywood, from Spike Jonze to Sarah Silverman. And here, finally, are the brightest stars in comedy today, many of whom Apatow has been fortunate to work with, from Seth Rogen to Amy Schumer. And along the way, something kind of magical happens: What started as a lifetime's worth of conversations about comedy becomes something else entirely. It becomes an exploration of creativity, ambition, neediness, generosity, spirituality, and the joy that comes from making people laugh. Loaded with the kind of back-of-the-club stories that comics tell one another when no one else is watching, this fascinating, personal (and borderline-obsessive) book is Judd Apatow's gift to comedy nerds everywhere. Praise for Sick in the Head "I can't stop reading it. . . . I don't want this book to end."—Jimmy Fallon "An essential for any comedy geek."—Entertainment Weekly "Fascinating . . . a collection of interviews with many of the great figures of comedy in the latter half of the twentieth century."—The Washington Post "Open this book anywhere, and you're bound to find some interesting nugget from someone who has had you in stitches many, many times."—Janet Maslin, The New York Times "An amazing read, full of insights and connections both creative and interpersonal."—The New Yorker "Fascinating and revelatory."—Chicago Tribune "Anyone even remotely interested in comedy or humanity should own this book."—Will Ferrell
