connecticut river valley killer suspect: The Shadow of Death Philip E. Ginsburg, 2018-07-31 A riveting account of the search for a “latter-day Jack the Ripper” in New England: “Rich with characterization and insight, and a real page-turner” (Jonathan Kellerman). In the mid-1980s, someone stabbed six women to death in the Connecticut River Valley on the border between New Hampshire and Vermont. The murderer remains at large and the total number of his victims is unknown. In this brilliant work of true crime reportage, New York Times–bestselling author Philip E. Ginsburg provides fascinating insights into the groundbreaking forensic methods used to track the killer and paints indelible portraits of the lives he cut so tragically short. The Shadow of Death re-creates the fear that consumed the idyllic region when young women began to disappear with horrifying regularity. Neighbors used to leaving their doors unlocked suddenly wondered who among them was a sadistic serial killer. Friends and family of the victims were left to endure the bottomless pain of imagining their loved ones’ terrifying last moments. Desperate to stop the slayings, local police and FBI investigators used exotic new techniques to try to unmask the murderer. In some of the book’s most harrowing sections, Ginsburg documents the extraordinary efforts of psychologist John Philpin as he risks his own emotional stability to get inside the mind of a madman. Law enforcement officials identified several suspects and came tantalizingly close to putting all the pieces of the puzzle together, but it was only after a pregnant woman survived a brutal attack that the killings appeared to stop. The question remains: Could they start again? The Shadow of Death is a “riveting” profile of one of America’s greatest unsolved mysteries (Kirkus Reviews).

connecticut river valley killer suspect: The Mammoth Book of Killers at Large Nigel Cawthorne, 2011-09-01 Reason to be afraid - over 50 unsolved cases of serial murder Fact: murderers and serial killers do not always get caught. Behind every headline of a newsworthy conviction lie other cases of vicious murderers who got away, and who remain somewhere among us. Here in one giant volume are more than 50 of the most serious serial killings and other murder cases that continue to remain unsolved. The cases covered in this alarming book include: Argentina's crazed highway killer, responsible for mutilating and killing at least five people since 1997, and dumping their bodies along remote highways The Green River Killer, believed to be a middle-aged white man, who has claimed at least 49 lives to date in the Seattle-Tacoma area South Africa's 'Phoenix Strangler', suspected of killing 20 women in the province of KwaZulu Natal. The Twin Cities Killer - either one or several people responsible for a series of over 30 murders on the streets of Minneapolis and St. Paul, where the victims were mostly prostitutes Costa Rica's elusive 'El Psicópata' (The Psychopath), thought to have murdered at least 19 people in this small quiet Central American country 'The Monster of Florence', responsible for a series of 15 sexual slayings just

outside Florence In each case it is not just the crimes that are horrifying and fascinating, but the response of local police and authorities to the lack of a conviction. Local authorities may fear to admit the continued existence of a serial killer at large; whilst police bodies face the temptation to 'tidy up' loose unsolved murders under the aegis of other admitted crimes.
