**dr irislevelup: The Only Purple House in Town** Ann Aguirre, 2023-07-11 From New York Times bestselling author Ann Aguirre comes the magical town of St. Claire, where anything is possible... Iris Collins is the messy one in her family. The chaos bunny. Her sisters are all wildly successful, while she can't balance her budget for a single month. It's no wonder she's in debt to her roommates. When she unexpectedly inherits a house from her great aunt, her plan to turn it into a B&B fails—as most of her plans do. She winds up renting rooms like a Victorian spinster, collecting other lost souls...and not all of them are human. Eli Reese grew up as the nerdy outcast in school, but he got rich designing apps. Now he's successful by any standards. But he's never had the same luck in finding a real community or people who understand him. Over the years, he's never forgotten his first crush, so when he spots her at a café, he takes it as a sign. Except then he gets sucked into the Iris-verse and somehow ends up renting one of her B&B rooms. As the days pass, Eli grows enchanted by the misfit boarders staying in the house...and even more so by Iris. Could Eli have finally found a person and a place to call home?

**dr irislevelup: The Dynamics of Managing Diversity and Inclusion** Gill Kirton, Anne-marie Greene, 2021-12-28 The Dynamics of Managing Diversity and Inclusion was one of the first books to

respond to growing academic coverage of the topic of diversity management at degree level. This fifth edition has been fully updated to reflect new working practices, labour market data, organisational policies, and developments in equality and diversity law, as well as including new case studies and analysis of current and emerging areas of debate in the United Kingdom and across Europe. Diversity management is a term that covers not only policy and practice on race, disability, and sex discrimination, but also broader issues including other identity and cultural differences. The Dynamics of Managing Diversity and Inclusion, fifth edition, provides future HR professionals and business/organisational managers of the future with the legal information and research findings needed to enable them to participate in the development and implementation of meaningful diversity and inclusion policies in their organisations. This new edition offers: Inclusion of topical issues such as female and minority representation on executive boards, religious diversity, gender identity, Black Lives Matter and #MeToo movements. Multiple analytical perspectives, such as socio-legal and feminist approaches, to provide rich insights into the subject matter. Practical case studies and exercises to illustrate the real-life issues in a local, international, and organisational context. The book deals with the subject of diversity management in a rigorous and structured manner, beginning each chapter with aims and objectives, providing key learning points and review and discussion questions at regular junctures, and ending with concluding thoughts and observations, making this book the perfect support resource for those teaching or studying in the field of equality, diversity, and inclusion.

**dr irislevelup: New Technologies, Artificial Intelligence and Shipping Law in the 21st Century**

Professor Barış Soyer, Andrew Tettenborn, 2019-08-05 New Technologies, Artificial Intelligence and Shipping Law in the 21st Century consists of edited versions of the papers delivered at the Institute of International Shipping and Trade Law's 14th International Colloquium at Swansea Law School in September 2018. Written by a combination of top academics and highly experienced legal practitioners, these papers have been carefully co-ordinated to give the reader a first-class insight into the issues surrounding new technology and shipping. The book is set out in three parts: Part I offers a detailed and critical analysis of issues that are emerging, and those that are likely to emerge, from the use of advanced computer technology, particularly at the contracting process and in the context of issuing trading documents. Part 2 focusses on artificial intelligence and discusses the contemporary issues that will emerge once autonomous ships and similar crafts are put to use in the world's oceans. As well as this, the legal impact of ports utilising artificial intelligence and

computer technology will also be considered. Part 3 analyses how the increasing use of legal technology is changing insurance underwriting and shipping litigation. An invaluable guide to the recent technological advances in shipping, this book is vital reading for both professional and academic readers.
