## Medical Treatments and Surgical Procedures

Dr. Nowzaradan's expertise lies primarily in bariatric surgery, a range of procedures designed to help patients lose significant weight by altering the digestive system. These surgeries are often the last resort for patients living a 600 lb life, where other weight loss methods have failed.

His surgical interventions include gastric bypass, sleeve gastrectomy, and adjustable gastric banding. Each procedure has specific indications based on the patient's health status, weight, and ability to comply with dietary restrictions. Dr. Nowzaradan carefully evaluates candidates to ensure they are suitable for surgery and can benefit most from the treatment.

## Types of Bariatric Surgeries

I do not have the strength or willpower to live up to the expectations of others, and so I have had to face my ugliest and weakest parts. #2 I went to a Cleveland Clinic to have my weight measured. I was 26 at the time and weighed 577 pounds. I had to hear the benefits of the gastric bypass surgery, which was the only effective therapy for obesity. It was supposed to solve all my problems, at least according to the doctors. #3 I was weighed and measured, and a consultation with the doctor followed. I left with a letter confirming that I'd completed the orientation session. I was not unique. I was not special. I was a body, and there were many of us in this world living bodies like mine. #4 This book is about living in the world when you are not obese or morbidly obese, but super morbidly obese according to your body mass index. The BMI is a term that sounds technical and inhumane, but it is a measure that allows the medical establishment to try and bring some discipline to undisciplined bodies.

Vai esat kādreiz mēģinājis sagriezt konfektes un nav izdevies? Vai esat apsolījis, ka mainīsities, bet piespiešana vienmēr atgriežas? Vai jūtat ārkārtīgu nogurumu, trauksmi, grūtības koncentrēties un uzskatāt, ka tas ir normāli? Tad šī grāmata ir domāta jums. Patiesība ir skarba, taču jāsaka: cukurs ir viena no visvairāk atkarību izraisošām vielām uz planētas, un vairums cilvēku uz to aizķeras, paši to nemanot. Pārtikas rūpniecība nevēlas, lai jūs to zinātu. Viņi gūst labumu no jūsu atkarības, manipulē ar jūsu smadzenēm un iznīcina jūsu veselību, kamēr jūs vainojat sevi, domājot, ka problēma ir gribasspēka trūkums. Šajā grāmatā jūs atklāsiet: □ Kā cukurs iedarbojas uz ķermeni un prātu kā zāles □ Slēptais kaitējums, ko tas nodara aknām, smadzenēm un hormonālajai sistēmai □ Kāpēc diētas nelīdz un kā sevi patiesi atbrīvot □ Cukura ietekme uz trauksmi, depresiju, bezmiegu un pat priekšlaicīgu novecošanos □ Praktiskas stratēģijas patērīna samazināšanai bez ciešanām vai recidīviem Es neesmu šeit, lai sniegtu jums diētas rokasgrāmatu vai virkni neiespējamu noteikumu. Es esmu šeit, lai parādītu jums patiesību un sniegtu jums īstu ceļu uz atbrīvošanos. Šī grāmata ir domāta ikvienam, kam ir apnicis censties un neveiksmes. Tiem, kas vēlas izklūt no piespiešanas cikla. Tiem, kuri vēlas atkal justies paši savā dzīvē. Ja esat gatavs šīm pārvērtībām, atveriet šo grāmatu un speriet pirmo soli. Jūsu atbrīvošanās sākas tagad.

Pernahkah Anda mencoba memotong permen dan

gagal? Pernahkah Anda berjanji akan berubah, namun dorongan itu selalu muncul kembali? Apakah Anda merasa sangat lelah, cemas, sulit berkonsentrasi, dan yakin bahwa hal ini normal? Maka buku ini cocok untuk Anda. Kenyataannya memang pahit, namun perlu ditegaskan: gula adalah salah satu zat yang paling membuat ketagihan di planet ini, dan kebanyakan orang terpicu pada gula tanpa menyadarinya. Industri makanan tidak ingin Anda mengetahui hal ini. Mereka mengambil keuntungan dari kecanduan Anda, memanipulasi otak Anda dan merusak kesehatan Anda, sementara Anda menyalahkan diri sendiri, berpikir bahwa masalahnya adalah kurangnya kemauan. Dalam buku ini, Anda akan menemukan: □ Bagaimana gula bertindak seperti obat pada tubuh dan pikiran Anda □ Kerusakan tersembunyi yang ditimbulkannya pada hati, otak, dan sistem hormonal Anda □ Mengapa diet tidak berhasil dan bagaimana cara benar-benar membebaskan diri □ Dampak gula terhadap kecemasan, depresi, insomnia bahkan penuaan dini □ Strategi praktis untuk mengurangi konsumsi tanpa menderita atau kambuh Saya di sini bukan untuk memberi Anda “panduan diet” atau sekumpulan aturan yang mustahil. Saya di sini untuk menunjukkan kebenaran dan memberi Anda jalan nyata menuju pembebasan. Buku ini diperuntukkan bagi siapa saja yang lelah mencoba dan gagal. Bagi mereka yang ingin keluar dari siklus keterpaksaan. Bagi mereka yang ingin merasa bisa mengendalikan hidup mereka sendiri lagi. Jika Anda siap untuk transformasi ini, bukalah buku ini dan ambil langkah pertama. Pembebasan Anda dimulai sekarang.

Próbáltál már édességet vágni, de nem sikerült? Megígérted, hogy megváltozol, de a kényszer mindig visszatér? Rendkívüli fáradtságot, szorongást, koncentrációs nehézséget érez, és úgy gondolja, hogy ez normális? Akkor ez a könyv neked szól. Az igazság kemény, de ki kell mondanunk: a cukor az egyik leginkább függőséget okozó anyag a bolygón, és a legtöbb ember úgy ragad rá, hogy észre sem veszi. Az élelmiszeripar nem akarja, hogy ezt tudd. Hasznosak a függőségedből, manipulálják az agyadat és tönkreteszik az egészségedet, miközben te magadat hibáztatod, azt gondolva, hogy a probléma az akaraterő hiánya. Ebben a könyvben felfedezheti: □ Hogyan hat a cukor gyógyszerként a testedre és a lelkedre □ A rejtett károkat, amelyeket a májban, az agyban és a hormonrendszerben okoz □ Miért nem működnek a diéták, és hogyan szabadulhatsz meg igazán □ A cukor hatása a szorongásra, depresszióra, álmatlanságra és még a korai öregedésre is □ Gyakorlati stratégiák a fogyasztás csökkentésére szenvedés vagy visszaesés nélkül Nem azért vagyok itt, hogy egy „diétás kézikönyvet” adjak, vagy egy csomó lehetetlen szabályt. Azért vagyok itt, hogy megmutassam az igazságot, és valódi utat adjak a megszabaduláshoz. Ez a könyv mindenkinek szól, aki belefáradt a próbálkozásba és a kudarcha. Azoknak, akik szeretnének kitörni a kényszerszorongásból. Azoknak, akik szeretnék újra érezni, hogy irányítják életüket. Ha készen áll erre az átalakulásra, akkor nyissa ki ezt a könyvet, és tegye meg az első lépést. A felszabadulásod most kezdődik.
