dr leonard coldwell natural healing: Cancer Free: Your Guide to Gentle, Non-toxic Healing (Fifth Edition) Bill Henderson, 2014-11-15
About the Book If you love your stricken one, this is your Bible. said Denzel Koh of Brisbane, Australia after he healed his daughter's cancer using the information in a previous edition of this book. A cancer diagnosis always causes fear. All of us have seen relatives and friends destroyed by conventional cancer treatment. Now, thanks to books like this one and the Internet, you can quickly learn what you need to know. You can heal the cancer using natural, non-toxic substances that work. What you need is a guide to cut through the overwhelming jungle of information. This book provides that guide. The information in it has been refined over twelve years using feedback from real cancer survivors about what worked for them. Bill Henderson, one of the authors, has counseled about 4,000 cancer patients by phone and video in 64 countries. At least 3,000 of them have recovered using his information. He is not a medical professional. He is a reporter furnishing you with information that consists of what he would do if he were you or your loved one. His coaching is available to you after you have read this book, if you need it. The co-author is Dr. Carlos Garcia, a formally trained M.D. who has broken out of that mold and trained himself to be a well-informed holistic physician. His Utopia Wellness clinic in Oldsmar, Florida regularly helps Stage IV cancer patients heal themselves. Bill Henderson has published 165 free newsletters on natural cancer treatment to 38,000 subscribers all over the world, starting in 1999. The information in these newsletters has now been incorporated into this, his third book. The book is up-to-date, specific and accurate. Bill and Dr. Garcia inform you of over 140 web sites and dozens of other books and newsletters you can use to expand your knowledge of natural cancer treatment. The self-treatments they recommend are harmless enough that you can start them immediately, without more research, if you like. They do not interfere with conventional cancer therapy, if that is your choice. In fact, they offset most of the side effects of that treatment. Cancer is not a disease, says Bill. It is a reaction to what your body has experienced. Reverse those causes and the cancer goes away. Continue what you did to reverse it and it stays away. Bill explains that there are four common characteristics of all cancers. These have been known since the 1920's: 1. Low oxygen uptake by the cells. 2. A weak immune system. 3. Toxins -- usually caused by diet and dental work. 4. Acidity -- again, usually caused by diet, as well as stress and dental work. Bill Henderson's and Dr. Garcia's recommended regimen tracks with the knowledge for which Otto Warburg, a famous German doctor and researcher, won a Nobel Prize in 1931. He described the cancer cell and stressed the need to reverse the above four characteristics of the cancer in order to heal it. None of these are addressed by conventional cancer treatment. Bill's mission to help cancer patients heal started with his experience with his former wife, Marjorie. Her ovarian cancer was treated with conventional cancer treatment from 1990 to 1994, when she died. Bill is convinced that the treatment killed her. He wants to help as many people as possible avoid her fate. Dr. Garcia's mission is to help cancer patients heal themselves starting in a controlled clinical environment and continuing at home. He has been doing this successfully for 15 years.

dr leonard coldwell natural healing: Coming Out of the Illusion Christopher Link, 2020-04-13 There comes a time when being terribly lost without a clue and having the proverbial black cloud over one's head must come to an end. It doesn't matter how screwed up your life has been with a rough childhood or now as an adult. I have learned that our life experiences, no matter how terrible, don't have to shape who we are or who we become. For instance, I personally was in and out of foster homes from about age four to eighteen. I had to overcome tremendous obstacles to bring this book to you! The number one lesson for everybody is: When you get knocked down, get up again and stand a little taller than you did before until your foundation is unbreakable!! "Something More"... where is it? I think everybody at one point or another has asked themselves this. Looking up at the stars in wonderment at a very young age is where it all begins. All beings are aware of their surroundings and figure out really quickly something is wrong here on this beautiful planet Earth. There are plenty of indicators, such as: Violence and war, domination and hate, racial profiling and human suppression, working for survival and fighting over resources and or the need for money/debt creation. These things are part of our collective third dimensional consciousness and are no longer necessary as we advance/mature together. . . . So, what are we looking for? What is the true reality? How can we better ourselves? How do we awaken to and find our true self again? Where is the love, joy, grace, morals, compassion, unity we know are the truth behind this existence? The most important question for us all, to ask ourselves is: How do we break through the false reality that we have created for ourselves and the planet and keep our light shining, never to be hidden under veils of illusion again? We will explore this thing called life through our own self-realization, together, and find some answers to these questions!

dr leonard coldwell natural healing: Thought I'd be the Example Desiree Vivir, 2024-07-22 I have always believed that ultimate health is not only possible but waiting on the sidelines to happen. It's in the human genome. The DNA contains all the health, wealth, loving relationships, joy, laughter, longevity, peace, creativity, and more. Question everything--from the accepted notions of Western meal indulgences, the ways in which communities are structured, our notions about child rearing, to our communication patterns. Our bodies are self-healing and self-rejuvenating, and are not designed for deterioration after puberty. Youth is not meant to be wasted on the young. I am an avid believer that life's profound treasures begin with the wisdom years. By marrying the innocence of past years with the wisdom obtained through life experience, creates the perfect combination for 'Youthing'. Human beings are designed to live long healthy, vibrant creative, enthusiastic lives, filled with buoyancy and spontaneity. This is representative of the Creator within.

dr leonard coldwell natural healing: The Art of Selling the Art of Healing Alex Lubarsky, 2015-03-04 The most important ingredient in the art of healing is the art of selling. I say that with all the respect in the world for every other part of this vast system of care that has grown into a sprawling and complex three-trillion-dollar metropolis. For the last sixty or so years, the providers of care have depended on third-party entities to handle the part of selling for them. From insurance companies who sold millions of people on the importance of paying monthly premiums for health-care insurance to the government that did the same thing under the more intimidating, compulsory taxation. Today, we have come to a fork in the road where (as the system implodes) those who control the flow of monetary resources are filling their own bank accounts, leaving the people who are busy providing care on that field of battle with all supply lines cut off. Many healers are, therefore, forced to shed all the entities that have forced themselves between the doctor and her patient. Exploring their original entrepreneurial roots, allowing the patient to bypass all middlemen and pay the doctor for care directly. The trouble comes in when the healing professional steps out of a world where all the marketing was handled for them and the only thing they needed to know was how to submit a bill to a third-party payer for reimbursement. So when embarking on this new journey of building a concierge, pay-for-service practice, many are derailed by the Flat Earth Fallacy that is a perception of things as they seem but are, in reality, very different. This book then is to share some field-tested experiences that will, in all probability, save the health-care entrepreneur some pain and expense, while providing a perspective on the driving elements of success in the art of selling the art of healing.

dr leonard coldwell natural healing: Overcoming Autism Lori Sullivan, 2009-11 According to a recent study, as many as 1 in 91 school age children are somewhere on the Autism Spectrum. It's reached epidemic proportions! Everyone seems to know someone who's affected by autism. It's no coincidence that so many of our kids on the spectrum also have various immune problems like allergies, asthma, and eczema to name a few. Many of them have bowel problems that cause toxins to accumulate in their bodies. When the toxins accumulate, the liver has to work harder to get rid of those toxins. Chronic ear infections and antibiotics seem to be another common problem. The use of antibiotics causes an overgrowth of yeast (candida) which causes all kinds of problems and symptoms. And it just snowballs from there. Our autistic kids are just more sensitive to the toxins in our environment - they're like environmental barometers of how truly toxic our environment has become. It is possible to overcome Environmental Autism. There are parents who have done it or are doing it. *Overcoming Autism: A Parent's Guide* is informative, compassionate, empathetic, and at times provides some much needed humor. It's written by a parent for parents and offers direction to parents of autistic children who are baffled by the lack of information and help mainstream medicine has to offer them to deal with autism. It provides helpful information based on hands-on experience with; early intervention, various therapeutic interventions, integrative medicine, the environmental connection, how autism affects the family, and how the author's son ultimately overcame many of his autistic disabilities. It also offers hope!
