dianne brimble photos: Cruising for Trouble Mark Gaouette, 2010-03-19 This book offers an

alarming inside look at the security preparations of the cruise industry and the potential for cruise ships to be the target for pirates, terrorists, and criminal activity. Cruising for Trouble exposes the acute vulnerability of cruise ships to piracy, terrorism, and crime, both on the high seas and in domestic and foreign ports-of-call. While cruise ships have ramped up in size and passenger capacity to become floating skyscrapers housing as many as 7,000 passengers, and while piracy incidents have increased since 2008 as the world economy has deteriorated, there has been no corresponding increase or enhancement in onboard security personnel, external tactical units, preventive screening, or coordinated response planning to guard against the growing threat of acts of piracy and internal and external terrorist attacks. Commander Gaouette reveals to cruise passengers the very real security dangers they unwittingly face when they saunter up the gangway of a cruise ship for a carefree holiday. He sounds a clarion call to national and transnational security agencies, maritime regulators, legislators, and customers to compel the cruise industry to strengthen and reform its security programs before catastrophe strikes. The author, a longtime cruise industry insider who now serves as a top maritime security official in the Department of Homeland Security, details the many security defects and vulnerabilities of cruise ships, identifies the remedies, and makes the case for their urgent implementation. Extensively documented and illustrated, Cruising for Trouble is a vividly told cautionary for the ten million Americans who taken cruise-ship vacations each year and the millions more who would like to. As well as modeling the potential threats to cruise ships from pirates and maritime terrorists—who mimic each other's methods, overlap each other's territories, and might well find it mutually beneficial to combine their forces and resources—Commander Gaoutte recounts many actual examples of cruise-ship insecurity that have been swept under the carpet or spun by the cruise industry: pirate attacks, fires, onboard crime, mass food poisonings and infections, and the mysterious disappearances of cruise-ship passengers.

dianne brimble photos: Abandoned Geesche Jacobsen, 2011-03-04 On 24 September, 2002, Queensland mother Dianne Brimble was found dead on the floor of a cabin on the cruise ship Pacific Sky, less than 24 hours into what was to be the holiday of a lifetime. The cabin belonged to four men from Adelaide who were part of a group of eight colourful characters, whom the media would later describe as the most hated men in Australia. Within hours of Dianne Brimble's death it emerged that she had been showered and dressed before medical help was called. Soon there were rumours of drug use and group sex, which grew into allegations of rape and murder. P+O personnel failed to secure the cabin, allowing the men back in to collect their belongings thus making the truth even more difficult to determine. A police investigation, a high-profile inquest, a grieving family and a criminal trial probed what went on in those few crucial early morning hours ending in her death. This extraordinary case, which captivated Australia, highlights the lines between criminal and moral responsibility and how easily things can get out of hand when care is abandoned.

dianne brimble photos: Nice Work Jana Wendt, 2010-04-01 We spend forty hours, on average, each week in a place that is not our home, in the company of strangers. Odd then, that the details of what we do all that time often remain unknown, even to those closest to us. Jana Wendt, one of Australia's most experienced journalists, sets out to discover what drives us in the work we do. She follows a compelling group of people, from a boxer set for a comeback to a maverick priest, and a CEO whose company is mired in scandal to a forensic anthropologist investigating murder. Wendt witnesses the successes and frustrations, the body-blows and moments of joy experienced by people who consider what they do as the great passion of their lives. The result is a wonderfully observed and entertaining portrait of modern work.

dianne brimble photos: A Box of Ten Photographs John P. Jacob, 2018 In 1971, with an advertisement in the June issue of Artforum, Diane Arbus announced the offering of her

limited-edition portfolio, A box of ten photographs. At the time of her death, one month later, only four were sold. Two were purchased from Arbus by Richard Avedon; another by Jasper Johns. The last of the four was purchased by Bea Feitler, art director at Harper's Bazaar. Arbus signed the prints in all four sets, and each was accompanied by an overlying vellum sheet inscribed with an extended caption. For Feitler, Arbus added an eleventh photograph. This is the first publication to focus exclusively on A box of ten photographs, using the eleven-print set that Arbus assembled for Feitler. It was acquired by the Smithsonian American Art Museum, Washington, D.C., in 1986, and is the only one of the four portfolios completed and sold by Arbus that is publicly held. This publication examines this unique object as the sole body of images selected by Arbus herself, and considers its legacy as a key document of her enduring impact on contemporary photographic practice. An in-depth essay features new and compelling scholarship by John P. Jacob, the McEvoy Family Curator for Photography at the Smithsonian American Art Museum. The book is published in conjunction with the exhibition Diane Arbus: A box of ten photographs, on view at the museum from April through September of 2018.

dianne brimble photos: Diane Arbus Diane Arbus, Doon Arbus, Museum of Modern Art (New York, N.Y.), 1972 When Diane Arbus died in 1971 at the age of forty-eight, she was already a significant influence—even something of a legend—among serious photographers, although only a relatively small number of her most important pictures were widely known at the time. The publication of Diane Arbus: An Aperture Monograph in 1972 along with the posthumous retrospective at The Museum of Modern Art offered the general public its first encounter with the breadth and power of her achievements. The response was unprecedented. The monograph of eighty photographs was edited and designed by the painter Marvin Israel, Diane Arbus's friend and colleague, and by her daughter Doon Arbus. Their goal in making the book was to remain as faithful as possible to the standards by which Diane Arbus judged her own work and to the ways in which she hoped it would be seen. Universally acknowledged as a classic, Diane Arbus: An Aperture Monograph is a timeless masterpiece with editions in five languages and remains the foundation of her international reputation. Nearly half of a century has done nothing to diminish the riveting impact of these pictures or the controversy they inspire. Arbus's photographs penetrate the psyche with all the force of a personal encounter and, in doing so, transform the way we see the world and the people in it. This is the first edition in which the image separations were created digitally; the files have been specially prepared by Robert J. Hennessey using prints by Neil Selkirk.

dianne brimble photos: Diane Arbus: Untitled, 2011-08-30 Untitled is the third volume of Diane Arbus's work and the only one devoted exclusively to a single project. The photographs were taken at residences for the mentally retarded between 1969 and 1971, in the last years of Arbus's life. Although she considered doing a book on the subject, the vast majority of these pictures remained unpublished prior to this volume. These photographs achieve a lyricism, an emotional purity that sets them apart from all her other accomplishments. Finally what I've been searching for, she wrote at the time. The product of her consistently unflinching regard for reality as she found it, the images in this book have less in common with the documentary than with the mythic. Untitled may well be Arbus's most transcendent, most romantic vision. It is a celebration of the singularity and connectedness of each and every one of us. For Diane Arbus, this is what making pictures was all about. This is the first edition in which the image separations were created digitally; the files have been specially prepared by Robert J. Hennessey using prints by Neil Selkirk.

dianne brimble photos: Diane Arbus Diane Arbus, 2003 A retrospective spanning Diane Arbus's entire career features two hundred full-page duotones, many never before seen, accompanied by an essay on the artist's work, a discussion of her printing techniques, a definitive chronology, more than three hundred color illustrations, and previously unpublished.

dianne brimble photos: Diane Arbus Doon Arbus, Marvin Israel, 1972 Published just after her untimely death in 1971, this book—whether or not aided by the artist's notoriety—has achieved massive sales for a volume of such uncompromising photographs. Edited by Doon Arbus and Marvin Israel, its title implies a mere trawl through her best-known images. It is that, but it also a brilliant

exposé of American life. ... While it is true that she often photographed those outside society's norms, a more pertinent observation is that if she made 'normals' look like 'freaks', she also made 'freaks' look like 'normals'. Furthermore, her exploration of normalcy was complicated by gender issues. In her aggressive, full frontal 'exploitation' of her subjects, Arbus appropriated an essentially male convention: that of staring. Indeed, it may well be her assumption of this prerogative of masculine domination that has attracted much of the negative comment, compounded by her undercutting of gender stereotypes. She was a great feminist photographer. Her women and girls are invariably strong--like the confident twins [on the cover of the book]--and her men are frequently damaged or uncomfortable in their surroundings.--The Photobook : A History Volume I / Martin Parr and Gerry Badger. London : Phaidon, 2004.

dianne brimble photos: Diane Arbus Jeff L. Rosenheim, 2016 An unprecedented overview of the early work of a preeminent 20th-century artist Diane Arbus (1923-1971) is one of the most distinctive and provocative artists of the twentieth century. Her photographs of children and eccentrics, couples and circus performers, female impersonators and nudists, are among the most recognizable images of our time. This book is the definitive study of the artist's first seven years of work, from 1956 to 1962. Drawn primarily from the rich holdings of the Metropolitan Museum's Diane Arbus Archive--a remarkable treasury of photographs, negatives, appointment books, notebooks, and correspondence--it is an essential contribution to our understanding of Arbus and her oeuvre. diane arbus: in the beginning showcases over 100 of the artist's early photographs, more than half of which are published here for the first time. The book provides a crucial, in-depth presentation of the artist's genesis, showing Arbus as she developed her evocative and often haunting imagery. The photographs featured in this handsome volume reveal an artist defining her style, honing her subject matter, and in full possession of the many gifts for which she is now recognized the world over.
