Is Dr. the same as Doctor? Or how to distinguish these two? "Dr." is an abbreviation for "doctor", and either can be used in most situations. However, it is not idiomatic to say, eg, "Frank is a Dr. at Memorial Hospital", or "Joe is sick so I

Terms for name prefixes "Ms., Mr." vs "Prof., Dr." I'm searching for two words that adequately describe and differentiate between the following two categories/groups of words, given they exist in english: Ms, Mr, Mrs, Miss etc.

How to indicate possession when using abbreviation "Dr." I think when you use "Dr" or "Dr's" (with or without the period) as an abbreviation for Doctor, it's fine if used in an informal setting.

After all, you are abbreviating the word "Doctor" in a generic
