dr leonard coldwell books: Coming Out of the Illusion Christopher Link, 2020-04-13 There comes a time when being terribly lost without a clue and having the proverbial black cloud over one's head must come to an end. It doesn't matter how screwed up your life has been with a rough childhood or now as an adult. I have learned that our life experiences, no matter how terrible, don't have to shape who we are or who we become. For instance, I personally was in and out of foster homes from about age four to eighteen. I had to overcome tremendous obstacles to bring this book to you! The number one lesson for everybody is: When you get knocked down, get up again and stand a little taller than you did before until your foundation is unbreakable!! "Something More"... where is it? I think everybody at one point or another has asked themselves this. Looking up at the stars in wonderment at a very young age is where it all begins. All beings are aware of their surroundings and figure out really quickly something is wrong here on this beautiful planet Earth. There are plenty of indicators, such as: Violence and war, domination and hate, racial profiling and human suppression, working for survival and fighting over resources and or the need for money/debt creation. These things are part of our collective third dimensional consciousness and are no longer necessary as we advance/mature together. . . . So, what are we looking for? What is the true reality?

How can we better ourselves? How do we awaken to and find our true self again? Where is the love, joy, grace, morals, compassion, unity we know are the truth behind this existence? The most important question for us all, to ask ourselves is: How do we break through the false reality that we have created for ourselves and the planet and keep our light shining, never to be hidden under veils of illusion again? We will explore this thing called life through our own self-realization, together, and find some answers to these questions!
