

edith stein on women

edith stein on women offers a profound and insightful perspective on the nature, identity, and vocation of women, deeply rooted in her philosophical and theological reflections. As a prominent 20th-century philosopher, mystic, and Catholic saint, Edith Stein explored the unique dignity and role of women in society, emphasizing the complementarity between men and women while highlighting the distinctive spiritual and personal qualities inherent in womanhood. Her writings and lectures address the essential questions surrounding femininity, motherhood, and the interplay between personal freedom and social responsibility. Understanding Edith Stein on women provides valuable context for contemporary discussions on gender, ethics, and faith. This article will delve into her core ideas, exploring her philosophical anthropology, views on women's vocation, and the implications for modern society. The following sections present a detailed overview of Edith Stein's contributions to the discourse on women.

- Philosophical Foundations of Edith Stein on Women
- Edith Stein's View on the Vocation of Women
- Complementarity and the Relationship Between Men and Women
- The Role of Motherhood and Family in Stein's Thought
- Spirituality and Feminine Identity According to Edith Stein

Philosophical Foundations of Edith Stein on Women

Edith Stein's philosophical approach to women is firmly grounded in her background as a phenomenologist, particularly influenced by the work of Edmund Husserl. Her focus on empathy and the lived experience enables a nuanced understanding of the female person as both an individual and a relational being. For Stein, the essence of womanhood is not reducible to biological or social categories but must be apprehended through a careful analysis of personal identity and existential realities.

The Phenomenology of Empathy and Female Identity

Stein's phenomenology emphasizes empathy as the foundation for understanding others, which plays a crucial role in her conception of women. Through empathy, the unique experiences and inner life of women can be appreciated, revealing their specific existential mode. This philosophical method allows her to argue that women possess an inherent capacity for relationality and receptivity, setting a basis for their

distinctive role in human society.

Personalism and the Human Person

Building on personalist philosophy, Edith Stein views the woman as a personal being whose identity is shaped through relationships and self-realization. She highlights the unity of body and soul in the female person, emphasizing that true womanhood transcends physical characteristics to include intellectual and spiritual dimensions. This holistic perspective challenges reductive views and affirms the dignity of women as persons.

Edith Stein's View on the Vocation of Women

Central to Edith Stein on women is her emphasis on the vocation, or calling, of women in life. Stein articulates that women have a specific and irreplaceable role that complements that of men, while also allowing for diverse expressions of female identity beyond traditional roles. Her reflections encourage an appreciation for the varied ways women can contribute to society and the Church.

Vocation as a Calling to Service and Love

Stein interprets vocation as a divine calling to serve others through love, a mission that women are particularly suited for due to their natural disposition towards empathy and nurturing. She underlines that this calling is not limited to motherhood but extends to all forms of service in social, educational, and religious contexts.

Diversity of Female Vocations

While acknowledging traditional roles such as motherhood, Edith Stein also recognizes the importance of women's participation in intellectual and professional fields. She advocates for respect towards women who choose paths outside of family life, asserting that their contributions enrich the broader human community.

Complementarity and the Relationship Between Men and Women

Edith Stein on women is incomplete without addressing her insights on the complementary relationship between men and women. She argues that this complementarity is fundamental to human nature and social harmony, reflecting both natural order and spiritual significance.

Complementarity as Mutual Enrichment

According to Stein, men and women are designed to complement and enrich each other through their differences. This complementarity is not a hierarchy but a mutual exchange that fosters growth, understanding, and balance within relationships and society.

Unity and Distinction in Gender Relations

Stein stresses that unity between men and women does not mean uniformity. Instead, she advocates for honoring the distinctiveness of each gender while fostering collaboration and respect. This vision promotes a healthy relational dynamic that benefits families, communities, and the Church.

The Role of Motherhood and Family in Stein's Thought

Motherhood holds a prominent place in Edith Stein's reflections on women, viewed as a natural and noble vocation that embodies self-giving love and formation of new life. She connects motherhood with broader themes of sacrifice, creativity, and spiritual growth.

Motherhood as a Vocation of Love and Responsibility

Stein portrays motherhood as a unique expression of womanly love, involving both physical and spiritual dimensions. It requires patience, dedication, and a profound sense of responsibility, shaping not only children but society's future.

Family as the Foundation of Society

Edith Stein emphasizes the family as the primary social unit where the complementary roles of men and women manifest most fully. She argues that the stability and health of the family are essential for the flourishing of individuals and communities alike.

Spirituality and Feminine Identity According to Edith Stein

Spirituality is integral to Edith Stein on women, reflecting her own journey from philosophy to mysticism and sainthood. She highlights the spiritual destiny of women and their capacity for contemplative insight and union with God.

The Feminine Soul and Spiritual Maturity

Stein describes the feminine soul as uniquely attuned to receptivity and openness, qualities that facilitate spiritual growth and deeper understanding of divine mysteries. This spiritual maturity enriches both personal sanctity and communal life.

Women's Role in the Church and Spiritual Community

Edith Stein advocates for the active participation of women in the spiritual life of the Church, recognizing their potential as teachers, mystics, and leaders in faith. She calls for honoring their contributions while maintaining respect for their distinct identity within the ecclesial context.

- Philosophical foundations emphasize empathy and personalism
- Vocation includes diverse paths beyond traditional roles
- Complementarity highlights mutual enrichment and respect
- Motherhood is a central, sacred vocation
- Spirituality underscores women's unique soul and role in the Church

Frequently Asked Questions

Who was Edith Stein and what is her significance in discussions about women?

Edith Stein was a German Jewish philosopher who converted to Catholicism and became a Discalced Carmelite nun. She is significant in discussions about women due to her philosophical writings on the nature and role of women, emphasizing their dignity, vocation, and contribution to society from a Christian perspective.

What is Edith Stein's view on the nature of womanhood?

Edith Stein viewed womanhood as a unique and essential aspect of human existence, characterized by empathy, relationality, and a natural orientation towards nurturing and care. She believed that these qualities contribute fundamentally to the fabric of society and human community.

How did Edith Stein describe the vocation of women?

Edith Stein described the vocation of women as multifaceted, including roles as mothers, educators, and contributors to social and spiritual life. She emphasized that women's vocation should be respected and valued in both family and society, and that it transcends mere biological functions to include intellectual and spiritual dimensions.

Did Edith Stein address the issue of equality between men and women?

Yes, Edith Stein advocated for the dignity and equal worth of women, arguing that men and women are equal in humanity but have different roles and characteristics. She stressed that equality does not mean uniformity but mutual respect and recognition of differences.

What influence did Edith Stein's philosophical background have on her views about women?

Edith Stein's philosophical background in phenomenology helped her analyze the essence of womanhood by focusing on lived experience, empathy, and consciousness. This allowed her to articulate a nuanced understanding of women's identity beyond stereotypes and social roles.

How did Edith Stein integrate her religious beliefs with her views on women?

Edith Stein integrated her Catholic faith with her views on women by interpreting womanhood through the lens of Christian anthropology, seeing women as created in the image of God with a special calling to love, sacrifice, and spiritual motherhood, which complements the broader mission of human salvation.

What impact did Edith Stein have on feminist thought or women's studies?

While Edith Stein is not typically classified as a feminist in the modern sense, her work has influenced feminist thought by providing a philosophical and theological foundation that affirms the dignity and vocation of women, challenging both secular and religious stereotypes.

Are there any specific works by Edith Stein that focus on women?

Yes, Edith Stein's essay "On the Problem of Empathy" and her writings collected in "Edith Stein: The Philosophy of Woman" specifically address issues related to women's nature, identity, and role, offering valuable insights into gender relations and female experience.

How is Edith Stein's legacy relevant to contemporary discussions about women?

Edith Stein's legacy remains relevant as it provides a perspective that values both the equality and distinctiveness of women, encouraging a balanced view that honors women's contributions in family, society, and the Church, which is important in ongoing debates about gender roles and women's rights.

Additional Resources

1. *Edith Stein: Woman and Philosopher*

This book explores the life of Edith Stein as both a pioneering philosopher and a woman who navigated the complex social and religious landscapes of the early 20th century. It delves into her intellectual contributions and her reflections on womanhood, emphasizing her unique perspective shaped by her experiences as a Jewish convert to Catholicism. The text also highlights her role as a role model for women seeking to reconcile faith, intellect, and identity.

2. *Edith Stein on Womanhood and Spirituality*

Focusing on Stein's writings about the nature of women, this book examines her philosophical and theological insights into femininity and the spiritual vocation of women. It discusses how Stein integrates her phenomenological background with Catholic thought to articulate a vision of womanhood that is both dignified and transcendent. The work is ideal for readers interested in the intersection of gender, philosophy, and spirituality.

3. *The Feminine in Edith Stein's Philosophy*

This volume provides a detailed analysis of how Edith Stein's phenomenological approach informs her understanding of the feminine identity. It explores themes such as empathy, relationality, and the unique ways women experience and contribute to the world. The book also addresses Stein's impact on contemporary feminist philosophy and theology.

4. *Edith Stein and the Vocation of Women*

This book investigates Edith Stein's perspective on the specific callings and vocations of women within the church and society. Drawing from her essays and lectures, it outlines Stein's belief in the complementarity of men and women and the special role women play in nurturing life and culture. The text also reflects on Stein's legacy in discussions about women's roles in modern religious contexts.

5. *Edith Stein: A Woman's Journey to Holiness*

Tracing the spiritual journey of Edith Stein, this biography emphasizes her development as a woman of faith and intellect. It highlights her struggles with identity, her conversion, and her eventual martyrdom, presenting her as a model of holiness especially relevant to women seeking to live authentically in faith. The narrative is both inspiring and informative, offering insights into her personal and spiritual growth.

6. *Women in the Thought of Edith Stein*

This scholarly work compiles essays that analyze Edith Stein's contributions to the understanding of women from multiple academic perspectives. Topics include her phenomenology of empathy, her theological reflections on the female nature, and her influence on feminist theology. The book serves as a comprehensive resource for those studying Stein's complex views on gender.

7. Edith Stein and the Feminine Genius

Exploring the concept of the "feminine genius," this book relates Edith Stein's philosophy to the broader Catholic understanding of women's unique gifts and roles. It discusses how Stein's thought supports the dignity and value of women's contributions in family, church, and society. The text also engages with contemporary debates about feminism and tradition through the lens of Stein's writings.

8. Edith Stein's Reflections on Woman and Society

This work examines how Edith Stein perceived the social roles and responsibilities of women in a rapidly changing world. It highlights her insights into education, work, and family life, advocating for a balanced approach that honors women's individuality and social commitments. The book is particularly useful for readers interested in the social philosophy of gender.

9. Edith Stein: Philosophy, Faith, and Womanhood

This comprehensive study intertwines Edith Stein's philosophical achievements with her deep Catholic faith and her reflections on womanhood. It illustrates how her intellectual rigor and spiritual depth provide a rich framework for understanding the dignity and vocation of women. The book appeals to those interested in philosophy, theology, and gender studies alike.

edith stein on women: Edith Stein Essays on Woman Edith Stein, 2012-10-30 To help celebrate the fourth centenary of the birth of St. John of the Cross in 1542, Edith Stein received the task of preparing a study of his writings. She uses her skill as a philosopher to enter into an illuminating reflection on the difference between the two symbols of cross and night. Pointing out how entering the night is synonymous with carrying the cross, she provides a condensed presentation of John's thought on the active and passive nights, as discussed in *The Ascent of Mount Carmel* and *The Dark Night*. All of this leads Edith to speak of the glory of resurrection that the soul shares, through a unitive contemplation described chiefly in *The Living Flame of Love*. In the summer of 1942, the Nazis without warrant took Edith away. The nuns found the manuscript of this profound study lying open in her room. Because of the Nazis' merciless persecution of Jews in Germany, Edith Stein traveled discreetly across the border into Holland to find safe harbor in the Carmel of Echt. But the Nazi invasion of Holland in 1940 again put Edith in danger. The cross weighed down heavily as those of Jewish birth were harassed. Sr. Teresa Benedicta of the Cross's superiors then assigned her a task

they thought would take her mind off the threatening situation. The fourth centenary of the birth, of St. John of the Cross (1542) was approaching, and Edith could surely contribute a valuable study for the celebration. It is no surprise that in view of her circumstances she discovered in the subject of the cross a central viewpoint for her study. A subject like this enabled her to grasp John's unity of being as expressed in his life and works. Using her training in phenomenology, she helps the reader apprehend the difference in the symbolic character of cross and night and why the night-symbol prevails in John. She clarifies that detachment is designated by him as a night through which the soul must pass to reach union with God and points out how entering the night is equivalent to carrying the cross. Finally, in a fascinating way Edith speaks of how the heart or fountainhead of personal life, an inmost region, is present in both God and the soul and that in the spiritual marriage this inmost region is surrendered by each to the other. She observes that in the soul seized by God in contemplation all that is mortal is consumed in the fire of eternal love. The spirit as spirit is destined for immortal being, to move through fire along a path from the cross of Christ to the glory of his resurrection. Book includes two photos and fully linked index.

edith stein on women: Unlocking the Feminine Genius with Edith Stein Alexandra Cathey, MTh, 2017-06-22 Women have a great mission in the world. They are called to maternally embrace and heal humanity through spiritual motherhood. This book looks at why and how women need to prepare their hearts for this great mission through emotional formation. John Paul II's Letter to Women and Edith Stein's Essays on Women teach us about the need for the feminine genius to transform family and society into a civilization of love and a culture of life. Immerse yourself in the wisdom of these two great Saints and learn how to unlock the beauty and power of your feminine genius. For more info go to alexandrarcathey.com

edith stein on women: Embracing Edith Stein Anne Costa, 2014 Join author Anne Costa as she shares the wisdom of Edith Stein. While the author never knew Edith Stein personally, her writings had a profound affect on her, and she came to view Edith Stein as a spiritual friend. Embracing Edith Stein shows how the different aspects of the life and teachings of St. Teresa Benedicta of the Cross can serve as a guide for women and their unique vocation today. Written in a friendly, conversational style, this is one woman sharing the story of her friendship with this saint with her readers.

edith stein on women: *Edith Stein: Women, Social-Political Philosophy, Theology, Metaphysics and Public History* Antonio Calcagno, 2015-11-11 This volume explores the work and thought of Edith Stein (1891-1942). It discusses in detail, and from new perspectives, the traditional areas of her thinking, including her ideas about women/feminism, theology, and metaphysics. In addition, it introduces readers to new and/or understudied areas of her thought, including her views on history, and her social and political philosophy. The guiding thread that connects all the essays in this book is the emphasis on new approaches and novel applications of her philosophy. The contributions both extend the interdisciplinary implications of Stein's thinking for our contemporary world and apply her insights to questions of theatre, public history and biographical representation, education, politics, autism, theological debates, feminism, sexuality studies and literature. The volume brings together for the first time leading scholars in five language-groups, including English, German, Italian, French and Spanish-speaking authors, thereby reflecting an international and cosmopolitan approach to Stein studies.

edith stein on women: *Essays on Woman* Edith Stein (sainte).), 1987

edith stein on women: *Women and Gender in Central and Eastern Europe, Russia, and Eurasia* Mary Zirin, Irina Livezeanu, Christine D. Worobec, June Pachuta Farris, 2015-03-26 This is the first comprehensive, multidisciplinary, and multilingual bibliography on Women and Gender in East Central Europe and the Balkans (Vol. 1) and The Lands of the Former Soviet Union (Vol. 2) over the past millennium. The coverage encompasses the relevant territories of the Russian, Hapsburg, and Ottoman empires, Germany and Greece, and the Jewish and Roma diasporas. Topics range from legal status and marital customs to economic participation and gender roles, plus unparalleled documentation of women writers and artists, and autobiographical works of all kinds. The volumes

include approximately 30,000 bibliographic entries on works published through the end of 2000, as well as web sites and unpublished dissertations. Many of the individual entries are annotated with brief descriptions of major works and the tables of contents for collections and anthologies. The entries are cross-referenced and each volume includes indexes.

edith stein on women: The Oxford Handbook of Nineteenth-Century Women

Philosophers in the German Tradition Kristin Gjesdal, Dalia Nassar, 2024 This Oxford Handbook celebrates the work of trailblazing women in the history of modern philosophy. Through thirty-one original chapters, it engages with the work of women philosophers spanning the long nineteenth century in the German tradition, and covers women's contribution to major philosophical movements, including romanticism and idealism, socialism, and Marxism, Nietzscheanism, feminism, phenomenology, and neo-Kantianism. It opens with a section on figures, offering essays focused on fifteen thinkers in this tradition, before moving on to sections of essays on movement and topics. Across the volume's chapters, essays examine women's contributions to key philosophical areas such as epistemology and metaphysics, aesthetics, ethics, social and political philosophy, ecology, education, and the philosophy of nature.

edith stein on women: A History of Women and Ordination Ida Raming, 2002 The Priestly Office of Women: God's gift to a Renewed Church is the English translation of the second edition of Dr. Ida Raming's classic study of the exclusion of women from ordination in the Western Christian Church, *The Exclusion of Women from the Priesthood: Divine Law or Sex Discrimination?* (SCP, 1976). This new edition includes a bibliography on women's ordination from 1973 to the present plus three recent essays by Dr. Raming and a complete translation of the Latin sources cited by Dr. Raming.

edith stein on women: Women in Christ Michele M. Schumacher, 2004 The challenge of promoting the new feminism has barely been addressed since it was first launched by Pope John Paul II in his 1995 encyclical *Evangelium vitae*. The thirteen contributors in this book, all outstanding international scholars, take up this task, together laying the necessary theoretical foundation for the new feminism. These chapters articulate an integral philosophical and theological understanding of persons that moves beyond patriarchy on the one hand and traditional feminism on the other. Central to the new perspective offered here is the biblical revelation of the human person -- man and woman -- in Christ, a vision that directs women beyond the male standard against which they have too often been measured. Far from constraining women to an eternal essence, the dynamic view presented here encourages each woman to realize herself in perfect Christian freedom.

edith stein on women: Women Phenomenologists on Social Ontology Sebastian Luft, Ruth Hagengruber, 2018-10-24 This edited volume examines women's voices in phenomenology, many of which had a formative impact on the movement but have been kept relatively silent for many years. It features papers that truly extend the canonical scope of phenomenological research. Readers will discover the rich philosophical output of such scholars as Edith Stein, Hedwig Conrad-Martius, and Gerda Walther. They will also come to see how the phenomenological movement allowed its female proponents to achieve a position in the academic world few women could enjoy at the time. The book explores the intersection of social ontology, phenomenology, and women scholars in phenomenology. The papers offer a fresh look at such topics as the nature of communities, shared values, feelings, and other mental content. In addition, coverage examines the contributions of Jewish women to the science, who were present at the beginning of the phenomenological movement. This remarkable anthology also features a paper on Gerda Walther written by Linda Lopez McAlister, former editor of the feminist journal *Hypatia*, who had met Walther in 1976. This book features work from the conference "Women Phenomenologists on Social Ontology," held at the University of Paderborn. Overall, it collects profiles and analysis that unveil a hidden history of phenomenology.

edith stein on women: Women in Christianity in the Modern Age Lisa Isherwood, Megan Clay, 2021-12-30 *Women in Christianity in the Modern Age* examines the role of women in Christianity in the 20th and early 21st Centuries. This edited volume includes eight important

contributions from academics in the field. The modern era has been an age of social and religious upheaval, and the ravages of global warfare and changes to women's role in society have made the examination of the place of women in religion a key question in theology. From theological concerns - engagements with the biblical texts by feminist and anti-feminist theologians, the modern role of Mary and women saints - to political and social debates on women's ministry and place in society, and cultural shifts as expressed through theologically inspired artwork by women, *Women in Christianity in the Modern Age* provides an overview and in-depth studies of a tumultuous and changing era. This insightful text will be of key interest to students and scholars in Religion and Cultural Studies.

edith stein on women: The Complementarity of Women and Men Paul C. Vitz, 2021-04-30 Contributors explore the complementarity of women and men--that women and men are equal and different--as underpinned by Catholic theology and expressed in philosophy, theology, psychology, and art--

edith stein on women: Edith Stein's Finite and Eternal Being Sarah Borden Sharkey, 2023-02-13 There are few topics more central to philosophical discussions than the meaning of being, and few thinkers offer a more compelling and original vision of that meaning than Edith Stein (1891-1942). Stein's magnum opus, drawing from her decades working with the early phenomenologists and intense years as a student and translator of medieval texts, lays out a grand vision, bringing together phenomenological and scholastic insights into an integrated whole. The sheer scope of Stein's project in *Finite and Eternal Being* is daunting, and the text can be challenging to navigate. In this book, Sarah Borden Sharkey provides a guide to Stein's great final philosophical work and intellectual vision. The opening essays give an overview of Stein's method and argument, and they place *Finite and Eternal Being* both within its historical context and in relation to contemporary discussions. The author also provides clear, detailed summaries of each section of Stein's opus, drawing from the latest scholarship on Stein's manuscript. *Edith Stein's Finite and Eternal Being: A Companion* offers a unique guide, opening up Stein's grand cathedral-like vision of the meaning of being as the unfolding of meaning.

edith stein on women: Women Philosophers in the Long Nineteenth Century Dalia Nassar, Kristin Gjesdal, 2021 The long nineteenth-century--the period beginning with the French Revolution and ending with World War I--was a transformative period for women philosophers in German-speaking countries and contexts. The period spans romanticism and idealism, socialism, Nietzscheanism, and phenomenology, philosophical movements we most often associate with Hegel, Schopenhauer, Kierkegaard, Nietzsche, and Marx--but rarely with women. Yet women philosophers not only contributed to these movements, but also spearheaded debates about their social and political implications. While today their works are less well-known than those of their male contemporaries, many of these women philosophers were widely-read and influential in their own time. Their contributions shed important new light on nineteenth-century philosophy and philosophy more generally: revealing the extent to which various movements which we consider distinct were joined, and demonstrating the degree to which philosophy can transform lives and be transformed by lived experiences and practices. In the nineteenth-century, women philosophers explored a wide range of philosophical topics and styles. Working within and in dialogue with popular philosophical movements, women philosophers helped shape philosophy's agenda and provided unique approaches to existential, political, aesthetic, and epistemological questions. Though largely deprived formal education and academic positions, women thinkers developed a way of philosophizing that was accessible, intuitive, and activist in spirit. The present volume makes available to English-language readers--in many cases for the first time--the works of nine women philosophers, with the hope of stimulating further interest in and scholarship on their works. The volume includes a comprehensive introduction to women philosophers in the Nineteenth Century and introduces each philosopher and her position. The translations are furnished with explanatory footnotes. The volume is designed to be accessible to students as well as scholars.

edith stein on women: Theæ Women of Perfection Hilda Graef, 1957

edith stein on women: Personalism and Mathematics as Women's Personifestoes Dr. Patrick ODougherty, 2018-03-05 Personalism is the philosophy of the integrity of the person in all dimension. Dignity is part of the identity of the person. Skin color relates to integrity. Economic stability relates to a stable relationship. The integrity of the person also has a descriptive mathematical matrix dimension. The 4 principles of algebra the commutative, The associative and distributive and the inverse laws of mathematics chart the person in mapping and relationship. The pershoohood of Personalism counters the personhood of the corpuration, The body and person have a mystical solidarity dimension that is also incomensurable. Enter the web and bridge of the person with your narrative.

edith stein on women: Voices of the Women's Health Movement, Volume 1 Barbara Seaman, Laura Eldridge, 2012-02-14 An unprecedented and definitive collection of rabble-rousing writings on women's health, *Voices of the Women's Health Movement* explores a range of provocative topics from reproductive rights to sexuality to motherhood. Trail-blazing advocate Barbara Seaman and health activist Laura Eldridge bring the revolutionary ideas of several generations together in this powerful new book celebrating women's bodies, and women's voices. The more than two hundred contributors include Jennifer Baumgardner, Susan Brownmiller, Phyllis Chesler, Angela Y. Davis, Barbara Ehrenreich, Germaine Greer, Shulamith Firestone, Charlotte Perkins Gilman, Erica Jong, Molly Haskell, Shere Hite, Susie Orbach, Judith Rossner, Alix Kates Shulman, Gloria Steinem, Sojourner Truth, Rebecca Walker, Naomi Wolf, and many others. With *Voices of the Women's Health Movement*, for the first time, every woman and girl can experience in one place the powerful history of stirring words and strong female perspectives that have inspired countless women to take control of their health and their lives. Volume One highlights include influential writings on birth control; menstruation; pregnancy and birthing; motherhood; menopause; abortion; and lesbian, bisexual, and transgender health.

edith stein on women: Women, Sainthood, and Power Oliva M. Espín, 2019-10-23 *Women, Sainthood, and Power* explores the life stories of an international gallery of female saints from the wide-angle lens of several intellectual disciplines and the close-up view afforded by keenly observed fine points of character. Oliva M. Espín combines multidisciplinary scholarly research with a novelist's eye for detail to create vivid portraits of saints in their times and places. Using her own memories, Espín argues that there are lessons to learn today from the lives of these exceptional women. This book is recommended for scholars and students of psychology, religious studies, gender and women's studies, history, cultural studies, and ethnic studies.

edith stein on women: Three Women in Dark Times Sylvie Courtine-Denamy, 2000 Three women, all philosophers, all of Jewish descent, provide a human face for a decade of crisis in this powerful and moving book. The dark years when the Nazis rose to power are here seen through the lives of Edith Stein, a disciple of Husserl and author of *La science et la croix*, who died in Auschwitz in 1942; Hannah Arendt, pupil of Heidegger and Jaspers and author of *Eichmann in Jerusalem*, who unhesitatingly responded to Hitler by making a personal commitment to Zionism; and Simone Weil, a student of Alain and author of *La pesanteur et la grâce*. Following her subjects from 1933 to 1943, Sylvie Courtine-Denamy recounts how these three great philosophers of the twentieth century endeavored with profound moral commitment to address the issues confronting them. Condemned to exile, they not only sought to understand a horrible reality, but also attempted to make peace with it. To do so, Edith Stein and Simone Weil encouraged a stoic acceptance of necessity while Hannah Arendt argued for the capacity for renewal and the need to fight against the banality of evil. Courtine-Denamy also describes how as a student each woman caught the eye of her famous male teacher, yet dared to criticize and go beyond him. She explores each one's sense of her femininity, her position on the woman question, and her relation to her Jewishness. All three, the author writes, are compelling figures who move us with their fierce desire to understand a world out of joint, reconcile it with itself, and, despite everything, love it.

edith stein on women: Women and the Christian Story Jennifer Hornyak Wojciechowski, 2022 For most of its history, Christianity has told its stories from the perspective of men. Jennifer Hornyak

Wojciechowski foregrounds the story of Christian women for a new era. Be they powerful or nameless, saintly or flawed, women across two millennia and six continents are allowed to speak fully to their part in the spread of a global faith.
