educated by tara westwood download: *Summary of Educated* Learnify-me, 2018-07-25 Tara Westover was seventeen the first time she set foot in a classroom. Born to survivalists in the mountains of Idaho, she prepared for the end of the world by stockpiling home-canned peaches and sleeping with her head-for-the-hills bag. In the summer she stewed herbs for her mother, a midwife and healer, and in the winter she salvaged in her father's junkyard. Her father distrusted the medical establishment, so Tara never saw a doctor or nurse. Gashes and concussions, even burns from explosions, were all treated at home with herbalism. The family was so isolated from mainstream society that there was no one to ensure the children received an education, and no one to intervene when an older brother became violent. When another brother got himself into college and came back with news of the world beyond the mountain, Tara decided to try a new kind of life. She taught herself enough mathematics, grammar, and science to take the ACT and was admitted to Brigham Young University. There, she studied psychology, politics, philosophy, and history, learning for the first time about pivotal world events like the Holocaust and the Civil Rights Movement. Her quest for knowledge transformed her, taking her over oceans and across continents, to Harvard and to Cambridge University. Only then would she wonder if she'd traveled too far, if there was still a way home.

educated by tara westwood download: Summary of Educated By Tara Westover QuickRead, Lea Schullery, The captivating memoir of a woman who grew up isolated from society, abused by her family, and despite zero childhood education, she broke the restraints of her father's twisted worldly views and earned her Ph.D. at Cambridge and Harvard University. Born on a rural farm in Idaho to strict Mormon parents, Tara Westover spent her childhood and teen years working in her father's junkyard and helping her mother create herbal medicine while attending a small, devout church. Tara's parents were skeptical of public education, medical institutions, and the government's role in the lives of its citizens. This skepticism led to their self-sufficient lifestyle, homeschooling their children and even tending to serious burns and injuries with herbal remedies. Plagued with physical and emotional violence, Tara's household became a space filled with turmoil and brutality. As Tara grew older, she gained a curiosity about the world beyond her family and set out to receive higher education. Going against her father's wishes, Tara attended Brigham Young University, a Mormon college in Utah, and eventually went on to study at Cambridge University and complete a fellowship at Harvard. As Tara continued her education, her home life became more abusive and violent, eventually forcing her to make the difficult decision to choose between her family and education. ExecutiveGrowth Summaries, 2019-07-10 Notice: This is a SUMMARY of Tara Westover's bestseller, *Educated: A Memoir*. *Educated: A Memoir* became a #1 New York Times bestseller for simple reasons... In *Educated: A Memoir*, Dr. Tara Westover recounts her experiences growing up in rural Idaho under the authority of fundamentalist Mormon parents and an abusive older brother. Her father believed public education to be a danger to their way of life and, therefore, Tara did not attend school. Her mother, a self-taught midwife, and herbalist served as the family's source of medical assistance during sickness and even severe injuries. Tara eventually left her mountain home and received a formal education, graduating magna cum laude from Brigham Young University and then earning her Ph.D. from Cambridge University while also winning a Gates Cambridge Scholarship. The process of becoming educated set her on a path that proved unacceptable to her parents and some of her other family members. It was also a path that gave Tara the ability to perceive her entire childhood in a much different light. In that light, she found a truer way of existing. Her story reveals nine principles that are present in many journeys walked by those who seek growth, maturity, truth, and authenticity. This summary and analysis shares those nine principles and the specific instances of Tara's story that revealed them. This book is not intended to replace the original book. Instead, we highly encourage you to buy the full version. Tara Westover was seventeen when she started her formal education. Being born into a survivalist family in the mountainous Idaho, she spent her childhood helping out scrapping metal in her father's junkyard and assisting her mother who was a midwife and an herbalist. She never saw a doctor or a teacher because her family never believed in modern medicine and in the school system. Despite her family being a magnet for accidents from gashes to burns to explosions and crashes, all of these were treated at home with her mother's herbs. Their family had become isolated from the constraints of society but had been controlled by their father's extreme worldviews. This had propelled Tara's brother to pursue education so that he could leave their home and, because of this, Tara herself was inspired to teach herself to do the same. She studied enough to be able to pass the ACT and get into Brigham Young University and, while there, she was able to learn about psychology, history, politics, philosophy, and the pivotal events around the world that she never knew before. Because of this endless curiosity and thirst for learning, she was able to get into Harvard and into Cambridge-and this had all transformed her into who she is today. *Educated* is the story of a girl's struggle for balance between learnings about life and her family's worldviews.
