freak the mighty author: Eleanor Cameron Paul V. Allen, 2018-02-20 Eleanor Cameron (1912-1996) was an innovative and genre-defying author of children's fiction and children's literature criticism. From her beginnings as a librarian, Cameron went on to become a prominent and respected voice in children's literature, writing one of the most beloved children's science fiction novels of all time, The Wonderful Flight to the Mushroom Planet, and later winning the National Book Award for her time fantasy The Court of the Stone Children. In addition, Eleanor Cameron played an often vocal role in critical debates about children's literature. She was one of the first authors to take up literary criticism of children's novels and published two influential books of criticism, including The Green and Burning Tree. One of Cameron's most notable acts of criticism came in 1973, when she wrote a scathing critique of Roald Dahl's Charlie and the Chocolate Factory. Dahl responded in kind, and the result was a fiery imbroglio within the pages of the Horn Book Magazine. Yet despite her many accomplishments, most of Cameron's books went out of print by the end of her life, and her star faded. This biography aims to reinsert Cameron into the conversation by taking an in-depth look at her tumultuous early life in Ohio and California, her unforgettably forceful personality and criticism, and her graceful, heartfelt novels. The biography includes detailed analysis of the creative process behind each of her published works and how Cameron's feminism, environmentalism, and strong sense of ethics are reflected in and represented by her writings. Drawn from over twenty interviews, thousands of letters, and several unpublished manuscripts in her personal papers, Eleanor Cameron is a tour of the most exciting and creative periods of American children's literature through the experience of one of its valiant purveyors and champions.

freak the mighty author: From Wallflowers to Bulletproof Families Abbye E. Meyer, 2022-02-04 Uses of disability in literature are often problematic and harmful to disabled people. This

is also true, of course, in children's and young adult literature, but interestingly, when disability is paired and confused with adolescence in narratives, compelling, complex arcs often arise. In *From Wallflowers to Bulletproof Families: The Power of Disability in Young Adult Narratives*, author Abbye E. Meyer examines different ways authors use and portray disability in literature. She demonstrates how narratives about and for young adults differ from the norm. With a distinctive young adult voice based in disability, these narratives allow for readings that conflate and complicate both adolescence and disability. Throughout, Meyer examines common representations of disability and more importantly, the ways that young adult narratives expose these tropes and explicitly challenge harmful messages they might otherwise reinforce. She illustrates how two-dimensional characters allow literary metaphors to work, while forcing texts to ignore reality and reinforce the assumption that disability is a problem to be fixed. She sifts the freak characters, often marked as disabled, and she reclaims the derided genre of problem novels arguing they empower disabled characters and introduce the goals of disability-rights movements. The analysis offered expands to include narratives in other media: nonfiction essays and memoirs, songs, television series, films, and digital narratives. These contemporary works, affected by digital media, combine elements of literary criticism, narrative expression, disability theory, and political activism to create and represent the solidarity of family-like communities.

And then, when that is gone, what shall we eat? Shall we eat the snow? Shall we eat the ice? Shall we eat the bark on the frozen trees? What shall we eat? Spring, 1846: Douglas Allen Deeds dreams of starting a new life out West. When the opportunity to join the Donner Party Expedition arises, he leaves the life he's known behind to set out on the nearly 2,000-mile trek from Independence, Missouri to sunny California. But progress is slow. Brutal heat, poisoned water, and rough terrain slows the expedition down. Soon they have a choice: continue on the known but grueling trail, or take a shortcut that would cut 350 miles from their journey-but take them through unknown territory. Is it worth the risk? Winter comes quickly in the mountains, and the wrong choice could leave them stranded in the Sierra Mountains when the snow comes, with no shelter, supplies, or even food. Newbery Honor-winning author Rodman Philbrick brings to life the excitement, danger, and horrors of the Donner Party's journey west.
