

forced child marriage

forced child marriage is a critical human rights issue affecting millions of children worldwide, predominantly girls. It involves the marriage of individuals below the age of 18 without their free and full consent, often under coercion or social pressure. This practice has severe consequences on the health, education, and overall well-being of affected children. Various cultural, economic, and social factors contribute to the persistence of forced child marriage in many communities. Governments, international organizations, and advocacy groups have been working to eradicate this harmful tradition through legal reforms, education, and community engagement. Understanding the complexities and impacts of forced child marriage is essential to developing effective interventions and protecting the rights of children globally. This article explores the causes, consequences, legal frameworks, and prevention strategies related to forced child marriage.

Causes of Forced Child Marriage

The causes of forced child marriage are multifaceted and deeply rooted in cultural, socioeconomic, and religious contexts. Understanding these causes is vital for addressing the issue effectively.

Cultural and Traditional Practices

In many societies, child marriage is considered a longstanding tradition that is difficult to challenge. Families may marry off children early to uphold social status, honor, or community expectations. Cultural norms often prioritize early marriage, especially for girls, as a way to ensure family honor and prevent premarital relationships.

Economic Factors

Poverty plays a significant role in perpetuating forced child marriage. Families facing economic hardship might see marriage as a way to reduce financial burden or receive a dowry. In some cases, marrying children early is perceived as a survival strategy to secure financial stability or protect daughters from economic vulnerabilities.

Gender Inequality and Social Pressure

Gender discrimination and unequal power dynamics contribute to forced child marriage. Girls are often viewed as less valuable than boys, limiting their access to education and opportunities. Social pressure to conform to traditional gender roles and expectations further exacerbates the problem, restricting girls' autonomy and decision-making power.

Conflict and Displacement

Forced child marriage rates tend to increase in areas affected by conflict, displacement, or humanitarian crises. Families may resort to early marriage as a protective measure against insecurity, violence, or economic instability during times of crisis.

Consequences of Forced Child Marriage

The repercussions of forced child marriage are profound and long-lasting, affecting the physical, mental, and social well-being of children involved.

Health Risks

Child brides face elevated risks of early pregnancy, childbirth complications, and maternal mortality. Their bodies are often not fully developed to handle pregnancy, leading to severe health problems. Additionally, lack of access to reproductive health services exacerbates these risks.

Educational Impact

Forced child marriage frequently disrupts or ends a child's education. Early marriage often leads to school dropout, limiting future employment opportunities and perpetuating cycles of poverty and dependence.

Psychological and Emotional Effects

Many child brides experience psychological trauma, including feelings of isolation, depression, and anxiety. The lack of consent and autonomy in marriage contributes to mental health challenges and diminished self-esteem.

Social and Economic Consequences

Forced child marriage limits social mobility and economic independence. Child brides often face restricted opportunities for personal development, leading to increased vulnerability to domestic violence, exploitation, and poverty.

Legal Frameworks and International Responses

Efforts to combat forced child marriage involve a combination of legal reforms, international conventions, and advocacy campaigns.

International Human Rights Instruments

Several international agreements address forced child marriage, including the Convention on the Rights of the Child (CRC) and the Convention on the Elimination of All Forms of Discrimination Against Women (CEDAW). These instruments call for the protection of children's rights and the elimination of harmful practices.

National Laws and Policies

Many countries have enacted laws setting the minimum age of marriage at 18 or higher. However, enforcement varies, and loopholes such as parental consent or judicial approval often undermine these protections. Strengthening legal frameworks and ensuring consistent application is crucial.

Challenges in Enforcement

Legal efforts face obstacles including lack of awareness, cultural resistance, and weak judicial systems. In some regions, traditional or religious laws supersede national legislation, complicating enforcement and protection efforts.

Prevention and Intervention Strategies

Addressing forced child marriage requires comprehensive approaches involving communities, governments, and international partners.

Education and Empowerment

Providing access to quality education and empowering girls with knowledge about their rights are key prevention strategies. Education delays marriage age and equips girls with the tools for independent decision-making.

Community Engagement and Advocacy

Engaging community leaders, parents, and youth in dialogue helps shift social norms and challenge harmful traditions. Advocacy campaigns raise awareness about the negative impacts of forced child marriage and promote alternative pathways.

Legal Reform and Enforcement

Strengthening laws, closing legal loopholes, and improving enforcement mechanisms are essential. Training law enforcement and judicial officials enhances their capacity to protect children and hold perpetrators accountable.

Support Services for Survivors

Providing psychosocial support, health care, and economic opportunities to survivors helps mitigate the consequences of forced child marriage. Safe shelters and legal assistance are also vital components of intervention.

- Increase access to education for girls
- Raise community awareness and change attitudes
- Strengthen and enforce legal protections
- Provide comprehensive support to affected children

- Collaborate with local and international organizations

Frequently Asked Questions

What is forced child marriage?

Forced child marriage is a marriage in which one or both parties are under the age of 18 and are married without their full and free consent, often due to coercion, threats, or pressure.

Why is forced child marriage a human rights issue?

Forced child marriage violates basic human rights, including the right to education, freedom, and protection from abuse. It often results in physical, emotional, and psychological harm to the child, particularly girls.

Which regions have the highest rates of forced child marriage?

Forced child marriage is most prevalent in parts of South Asia, Sub-Saharan Africa, and some regions in the Middle East and Latin America, though it can occur globally.

What are the common causes of forced child marriage?

Common causes include poverty, cultural traditions, gender inequality, lack of education, and social pressure to protect family honor or secure financial stability.

How does forced child marriage affect the health and education of children?

Forced child marriage often leads to early pregnancy, which can cause serious health complications. It also usually results in girls dropping out of school, limiting their future opportunities and perpetuating cycles of poverty.

What measures are being taken globally to end forced child marriage?

Efforts include legal reforms to raise the minimum marriage age, education and empowerment programs for girls, community awareness campaigns, and international advocacy by organizations like UNICEF and UNFPA.

forced child marriage: *The Hidden Child Brides of the Syrian Civil War* Simona Strungaru, 2024-04-17 This book provides a comprehensive account of one significantly underreported aspect of violence affecting young refugee girls today, that of forced child marriage. It examines the ongoing, insidious practice via the lens of international human rights laws and contextualising human rights laws and discourses in relation to Middle Eastern, Islamic, and Jordanian understandings of international law and human rights, where the practice is directly impacting young Syrian refugee girls who are seeking refuge in Jordan with their displaced families. The book finds that in a juxtaposition of human rights definitions and obligations, between the traditional and modern, the religious and the secular, there are mixed implications for the realisation of universal human rights and that this has consequences for the most vulnerable—child refugees. As a result, Syrian children exist in a precarious situation. They are living in a foreign state with an unclear legal status, are largely unidentified, and, in effect, stateless. It is in this liminal space that Syrian children are vulnerable and voiceless and highly exposed to forced marriages and the resultant violence and possibly death. While allowed to continue, the practice of child marriage not only severely impedes upon progressive international human rights efforts to eliminate gender-based violence, slavery, and discrimination, but significantly impacts on children's physical, mental and emotional health, and their opportunities for growth and development in society. As a case study this book seeks to inform how vulnerable Syrian children have come to be increasingly confronted by child marriage and to consider why it occurred and continues to occur, even though the idea of children being forcibly married is considered ethically and legally objectionable within international human rights law.

forced child marriage: *New International Frontiers in Child Sexual Abuse* Ben Mathews, 2018-10-03 This book offers a timely and detailed exploration and analysis of key contemporary issues and challenges in child sexual abuse, which holds great relevance for scholarly, legal, policy, professional and clinical audiences worldwide. The book draws together the best current evidence about the nature, aetiology, contexts, and sequelae of child sexual abuse. It explores the optimal definition of child sexual abuse, considers sexual abuse in history, and explores new theoretical understandings of children's rights and other key theories including public health and the Capabilities Approach, and their relevance to child sexual abuse prevention and responses. It examines a selection of the most pressing legal, theoretical, policy and practical challenges in child sexual abuse in the modern world, in developed and developing economies, including institutional child sexual abuse, female genital cutting, child marriage, the use of technology for sexual abuse, and the ethical responsibility and legal liability of major state and religious organisations, and individuals. It examines recent landmark legal and policy developments in all of these areas, drawing in particular on extensive developments from Australia in the wake of its Royal Commission Into Institutional Responses to Child Sexual Abuse. It also considers the best evidence about promising

strategies and future promising directions in enhancing effective prevention, intervention and responses to child sexual abuse.

forced child marriage: Redefining The Early And Child Marriage And Reconsidering Its Elimination In Nepal Through Absolute Criminalization Laxmi Aryal, Child marriage is prevalent in South Asia, as it is estimated there are 285 million child brides. At present 59% of women aged 20-24 in Bangladesh were married under the age of 18, 40% in Nepal and 27 % in India. Child marriage is regarded as one of the harmful traditional practice existing in Nepal since time immemorial. Nepal aims to end child marriage by 2030 as part of its commitment to the UN Sustainable Development Goals. Moreover, the government of Nepal has already sanctioned a national strategy that provides an overarching framework to end child marriage. At the meantime, the criminal law of Nepal considers child marriage as a crime and punishes the person who perform or cause to perform child marriage. This research is a part of this consortium project which was commissioned by Women Rehabilitation Center along with International Women's Rights Action Watch - Asia Pacific (IWRAP-AP) and other South Asian organizations for South Asian Initiative on FIRE from July 2019 to October 2020. Also, the data collection and the law review for the research report has been conducted from March 2020 to October 2020. This report aims to find out the changing trend of child marriage like either forced or self-initiated or other forms. Further, it also endeavors to understand the deep-rooted causes of the child marriage and its interconnectedness with the impacts it create to the girls and boys at different levels of their livelihood, family relations, reproductive health and legal consequences from adolescent perspectives. Finally, this report focuses on to revisit the laws on absolute criminalization of the child marriage and its effectiveness on controlling the agencies, decision making and choice of adolescents regarding marriage.

forced child marriage: I'M Only A Child Wanda Montanelli, 2020-08-17 Child brides sold as objects, with a rite of marriage or a simple exchange of money, to people of adult age, suffer real abuse, an act which aids paedophilia. The stories told in this book are true, they took place in Africa, India, Yemen, Niger, Pakistan, Syria, Mexico; places where, due to poverty, war, famine, it becomes customary for parents to sell their daughters to adult suitors in exchange for money. The social denouncement aims of the #maipiùposebambine [no more child brides] inquiry are empowered by the author's collaboration, through the Osservatorio Onerpo [National and European monitoring centre for the safeguarding of equal opportunities] of which she is vice president, with the Girls Not Brides organisation, which, with a significant global partnership programme, plans to totally abolish forced marriage by 2030. Child brides sold as objects, with a rite of marriage or a simple exchange of money, to people of adult age, suffer real abuse, an act which aids paedophilia. The parties responsible are the families, which oblige their daughters to enter into forced marriages, and the men, who "buy" a child: as a wife-slave-sexual object. The stories told in this book are true, they took place in Africa, India, Yemen, Niger, Pakistan, Syria, Mexico; places where, due to poverty, war, famine, it becomes customary for parents to sell their daughters to adult suitors in exchange for money. The psychological and physical effects are devastating for girls torn from childhood and forced into marriage: from serious diseases like HIV, medical conditions caused by teenage pregnancies, psychiatric disorders, through to a high incidence of childbirth related deaths of both mother and baby. The social denouncement aims of the #maipiùposebambine [no more child brides] inquiry uphold the belief that joint efforts to combat the phenomenon of child marriage will further the development of an awareness by all the stakeholders: family, schools, governmental institutions. To actively contribute towards solving this serious problem the author collaborates, through the Osservatorio Onerpo [National and European monitoring centre for the safeguarding of equal opportunities] of which she is vice president, with the Girls Not Brides organisation, which, with a significant global partnership programme, plans to totally abolish forced marriage by 2030.

forced child marriage: Child Marriage, Rights and Choice Hoko Horii, 2021-11-18 This

book addresses the issue of agency in relation to child marriage. In international campaigns against child marriage, there is a puzzle of agency: While international human rights institutions celebrate girls' exercise of their agency not to marry, they do not recognize their agency to marry. Child marriage, usually defined as 'any formal marriage or informal union where one or both of the parties are under 18 years of age', is normally considered as forced – which is to say that it is assumed that are not capable of consenting to marriage. This book, however, re-examines this assumption, through a detailed socio-legal examination of child marriage in Indonesia. Eliciting the multiple competing frameworks according to which child marriage takes place, the book considers the complex reasons why children marry. Structural explanations such as lack of opportunities and oppressive social structures are important, but not exhaustive, explanations. Exploring the subjective reasons by listening to children's perspectives, their stories show that many of them decide to marry for love, desire, to belong to the community, and for new opportunities and hopes. The book, then, demonstrates how the child marriage framework – and, indeed, the human rights framework in general – is constructed on too narrow a vision of human agency: One that cannot but fail to respect and promote the agency of all, regardless of gender, race, religion, and age. This book will be of interest to scholars, students, and practitioners in the areas of children's rights, legal anthropology, and socio-legal studies.

forced child marriage: Child Marriage in an International Frame Mary E. John, 2021-04-12
Child marriage has been given a pre-eminent place in agendas addressing “harmful practices” as defined by the United Nations Sustainable Development Goals. India leads the world in the number of women who marry below the age of 18 and is therefore of unique interest to international and national forums. Refusing simplistic labels like “harmful practice”, this book explores the complex history of child marriage as a social and feminist issue in India across different domains. It critically reviews a wide range of historical, demographic, and legal scholarship on the subject. Major concepts relevant to child marriage – such as childhood, adolescence, the girl, and marriage – are analysed in a comparative framework that uncovers the unnoticed presence of the practice in the USA and China. The volume questions existing approaches, analyses the latest data sources, and develops a new concept of compulsory marriage. A definitive study of child marriage in India in a changing global context, this book will interest scholars and students in the fields of women's, gender and sexuality studies, childhood studies, development studies and the social sciences. It will also be of great appeal to all those working with civil society organisations, NGOs, states and international agencies in India, and globally.

forced child marriage: Social, Political, and Health Implications of Early Marriage
Uddin, Emaj, 2024-12-23 Early marriage has significant social, political, and health implications that impact individuals, families, and communities. Socially, early marriage often hinders opportunities for education, personal development, and economic independence, and can perpetuate cycles of poverty and gender inequality. Politically, it raises concerns about human rights, legal frameworks, and access to justice, as many countries struggle to address the legal and cultural norms that enable child marriage. In terms of health, early marriage is linked to increased risks of maternal and child health complications, as young brides are more likely to experience early pregnancies, unsafe childbirth, and long-term physical and psychological effects. Addressing the implications of early marriage requires efforts from governments, communities, and international organizations to promote legal reforms, education, and healthcare access, while challenging the cultural practices that sustain this practice. *Social, Political, and Health Implications of Early Marriage* explores early marriage and its multiple consequences on teenage girls. It offers solutions for early marriage prevention and explores efforts to improve the life of teenagers worldwide. This book covers topics such as mental health, policymaking, and psychology, and is a useful resource for sociologists, psychologists, policymakers, government officials, academicians, scientists, and researchers.

forced child marriage: Human Trafficking: A Global Health Emergency Mary de Chesnay, Donna Sabella, 2023-08-30 This book presents various forms of human trafficking, a growing trend in the exploitation of large numbers of people with concurrent public health, socio-cultural, and

economic costs to countries burdened with the consequences of the COVID-19 pandemic. Edited by psychiatric-mental health nurses and an applied anthropologist, this volume covers all forms of human trafficking: sex trafficking, forced labor, forced marriage, baby trafficking, organ trafficking, child marriage, and child soldiers with a global public health and policy focus. As such, it fills a gap in human trafficking knowledge and is built on courses springing up around the United States in multiple disciplines. Medical, mental health, and social work interventions are included as well as information about programs with documented outcomes. Each chapter includes state of the art of knowledge with case studies illustrating specific focal ideas, discussion, questions and exercises in order to help readers retain and reinforce chapter material. This textbook will be useful in the disciplines of nursing, medicine, public health, social work, and policy making, as well as in disciplines in which human trafficking is a current interest, such as law, criminal justice, and education.

forced child marriage: Forensic Psychological Assessment in Immigration Court Barton Evans, III, Giselle A. Hass, 2018-04-09 Forensic Psychological Assessment in Immigration Court is an essential specialized guide for psychologists and clinicians who work with immigrants. Immigration evaluations differ in many ways from other types of forensic assessments because of the psycholegal issues that extend beyond the individual, including family dynamics, social context, and cross-cultural concerns. Immigrants are often victims of trauma and require specialized expertise to elicit the information needed for assessment. Having spent much of their professional careers as practicing forensic psychologists, authors Evans and Hass have compiled a comprehensive text that draws on forensic psychology, psychological assessment, traumatology, family processes, and national and international political forces to present an approach for the effective and ethical practice of forensic psychological assessment in Immigration Court.

forced child marriage: Children Forsaken Steven Walker, 2025-02-28 A shocking reminder of the cruel history of childhood that has been largely hidden and forgotten. Children Forsaken provides a long, historical, overarching examination of the phenomenon of child abuse. In the UK battered child syndrome was 'discovered' in the 1960s, whilst child sexual abuse gained attention in the early 1980s. Subsequent enquiries, legislation and practice developments have focused narrowly on reacting to events giving the impression that child abuse is a recent problem. Yet the historical record provides a multitude of examples of the ritual slaughter, sexual and physical abuse of children continuing since Ancient times. This book place child abuse in the context of the way children and childhood have been understood throughout the ages, but also show that despite legal definitions, and children's rights laws, children and young people continue to suffer. This book enables practitioners and those training in the helping professions to gain a deeper understanding of how embedded in human society child abuse has been and still is. Practitioners need to perceive child abuse as a long-standing problem about children's status in the World, their legal and human rights, and that much work is still needed to ensure children's needs and safety are paramount. This ambitious book paints an important and erudite picture of child abuse and social responses to it, bringing us up-to-date with a call for continued vigilance, compassion, and action. Professor Jonathan Parker, Bournemouth University.

forced child marriage: The Indian Yearbook of Comparative Law 2020 Mathew John, Vishwas H. Devaiah, Pritam Baruah, Moiz Tundawala, Niraj Kumar, 2023-12-02 This yearbook is a compilation of thematically arranged essays that critically analyse emerging developments, issues, and perspectives in the field of comparative law. It comprises three parts wherein the first part focuses on public law and its related issues, the second part engages with issues in the field of private law, and the third part discusses general themes in comparative law. The yearbook includes papers on comparative study between universalism and Asian exceptionalism under human rights perspective, reclaiming the German concept of the rule of law "Rechtsstaat", the Guarantee Clause in global constitutionalism, administrative justice, constitution and culture, and the category of the 'stranger' in modern legal and political thought. The Yearbook touches upon various issues, e.g., forest protection and the idea of Justice, the application of defamation law on politicians, the intersection of customary law relating to child marriage in different countries, hybrid statehood and Buddhist nationalism. Further, scholarly work on the themes of comparative law, customary law, environmental law, and constitutional law is also highlighted. The yearbook intends to seamlessly tie together discussions on both public and private law aspects of comparative law. It encourages readers to gain a nuanced understanding of the working of the law, legal systems and legal cultures while aiding deliberations on the constituents of an ideal system of law.

forced child marriage: Handbook of Sex Trafficking Lenore Walker, Giselle Gaviria, Kalyani Gopal, 2018-12-24 This definitive reference assembles the current knowledge base on the scope and phenomena of sex trafficking as well as best practices for treatment of its survivors. A global feminist framework reflects a profound understanding of the entrenched social inequities and ongoing world events that fuel trafficking, including in its lesser-known forms. Empirically sound insights shed salient light on who buyers and traffickers are, why some survivors become

victimizers, and the experiences of victim subpopulations (men, boys, refugees, sexual minorities), as well as emerging trends in prevention and protection, resilience and rehabilitation. These powerful dispatches also challenge readers to consider complex questions found at the intersections of gender, race, socioeconomic status, and politics. A sampling of topics in the Handbook: · An organizational systems view of sex trafficking. · Vulnerability factors when women and girls are trafficked. · Men, boys, and LGBTQ: invisible victims of human trafficking. · Organized crime, gangs, and trafficking. · Human trafficking prevention efforts for kids (NEST). · Treating victims of human trafficking: core therapeutic tasks. · From Trafficked to Safe House (C-SAFE). The Handbook of Sex Trafficking will interest a wide professional audience, particularly mental health workers, legal professionals, and researchers in these and related fields. Public health and law enforcement professionals will also find it an important resource.
