frank sinatra famous songs cold: Cold War Country Joseph M. Thompson, 2024-04-02 Country music maintains a special, decades-long relationship to American military life, but these ties

didn't just happen. This readable history reveals how country music's Nashville-based business leaders on Music Row created partnerships with the Pentagon to sell their audiences on military service while selling the music to servicemembers. Beginning in the 1950s, the military flooded armed forces airwaves with the music, hosted tour dates at bases around the world, and drew on artists from Johnny Cash to Lee Greenwood to support recruitment programs. Over the last half of the twentieth century, the close connections between the Defense Department and Music Row gave an economic boost to the white-dominated sounds of country while marginalizing Black artists and fueling divisions over the meaning of patriotism. This story is filled with familiar stars like Roy Acuff, Elvis Presley, and George Strait, as well as lesser-known figures: industry executives who worked the halls of Congress, country artists who dissented from the stereotypically patriotic trappings of the genre, and more. Joseph M. Thompson argues convincingly that the relationship between Music Row and the Pentagon helped shape not only the evolution of popular music but also race relations, partisanship, and images of the United States abroad.

That six months stretched to nearly thirty years and as Rock evolved and changed, so did Don's career. "Don Perry Produced The Music" traces his journey as a singer/songwriter, recording engineer, record producer, manager, concert promoter and finally, music supervisor for film and TV. It also traces the golden years of Rock and Roll and how they shaped every step of the way.

frank sinatra famous songs cold: *A Biographical Guide to the Great Jazz and Pop Singers* Will Friedwald, 2010-11-02 Will Friedwald's illuminating, opinionated essays—provocative, funny, and personal—on the lives and careers of more than three hundred singers anatomize the work of the most important jazz and popular performers of the twentieth century. From giants like Ella Fitzgerald, Louis Armstrong, Frank Sinatra, and Judy Garland to lesser-known artists like Jeri Southern and Joe Mooney, they have created a body of work that continues to please and inspire. Here is the most extensive biographical and critical survey of these singers ever written, as well as an essential guide to the Great American Songbook and those who shaped the way it has been sung. The music crosses from jazz to pop and back again, from the songs of Irving Berlin and W. C. Handy through Stephen Sondheim and beyond, bringing together straightforward jazz and pop singers (Billie Holiday, Perry Como); hybrid artists who moved among genres and combined them (Peggy Lee, Mel Tormé); the leading men and women of Broadway and Hollywood (Ethel Merman, Al Jolson); yesterday's vaudeville and radio stars (Sophie Tucker, Eddie Cantor); and today's cabaret artists and hit-makers (Diana Krall, Michael Bublé). Friedwald has also written extended pieces on the most representative artists of five significant genres that lie outside the songbook: Bessie Smith (blues), Mahalia Jackson (gospel), Hank Williams (country and western), Elvis Presley (rock 'n' roll), and Bob Dylan (folk-rock). Friedwald reconsiders the personal stories and professional successes and failures of all these artists, their songs, and their performances, appraising both the singers and their music by balancing his opinions with those of fellow musicians, listeners, and critics. This magisterial reference book—ten years in the making—will delight and inform anyone with a passion for the iconic music of America, which continues to resonate throughout our popular culture.

frank sinatra famous songs cold: *The Great Jazz and Pop Vocal Albums* Will Friedwald, 2017-11-07 The author of the magisterial *A Biographical Guide to the Great Jazz and Pop Singers* now approaches the great singers and their greatest work in an innovative and revelatory way: through considering their finest albums, which is the format in which this music was most resonantly organized and presented to its public from the 1940s until the very recent decline of the CD. It is through their albums that Ella Fitzgerald, Frank Sinatra, Peggy Lee, Sarah Vaughan, Nat King Cole, Judy Garland, and the rest of the glorious honor roll of jazz and pop singers have been most tellingly and lastingly appreciated, and the history of the album itself, as Will Friedwald sketches it, can now be seen as a crucial part of musical history. We come to understand that, at their finest, albums have not been mere collections of individual songs strung together arbitrarily but organic phenomena in their own right. A Sinatra album, a Fitzgerald album, was planned and structured to show these artists at their best, at a specific moment in their artistic careers. Yet the albums Friedwald has chosen to anatomize go about their work in a variety of ways. There are studio and solo albums: Lee's *Black Coffee*, June Christy's *Something Cool*, Cassandra Wilson's *Belly of the Sun*. There are brilliant collaborations: famous ones—Tony Bennett and Bill Evans, Louis Armstrong and Oscar Peterson—and wonderful surprises like Doris Day and Robert Goulet singing *Annie Get Your Gun*. There are theme albums—Dinah Washington singing Fats Waller, Maxine Sullivan singing Andy Razaf, Margaret Whiting singing Jerome Kern, Barb Jungr singing Bob Dylan, and the sublime Jo Stafford singing American and Scottish folk songs. There are also stunning concert albums like *Ella in Berlin*, *Sarah in Japan*, *Lena at the Waldorf*, and, of course, *Judy at Carnegie Hall*. All the greats are on hand, from Kay Starr and Carmen McRae to Jimmy Scott and Della Reese (*Della Della Cha Cha Cha*). And, from out of left field, the astounding *God Bless Tiny Tim*. Each of the fifty-seven albums discussed here captures the artist at a high point, if not at the expected moment, of her or his career. The individual cuts are evaluated, the sequencing explicated, the songs and songwriters heralded; anecdotes abound of how songs were born and how artists and producers collaborated. And in appraising each album, Friedwald balances his own opinions with those of musicians, listeners, and critics. A monumental achievement, *The Great Jazz and Pop Vocal Albums* is an essential book for lovers of American jazz and popular music.

frank sinatra famous songs cold: **Hank: The Short Life and Long Country Road of Hank Williams** Mark Ribowsky, 2016-11-22 A compassionate yet clear-eyed (*Washington Post*) portrait of country music's founding father and Hillbilly King. Mark Ribowsky's *Hank* has been hailed as the greatest biography yet (*Library Journal*, starred review) of the beloved icon. Hank Williams, a frail, flawed man who had become country music's first real star, instantly morphed into its first tragic martyr when he died in the backseat of a Cadillac at the age of twenty-nine. Six decades later, Ribowsky traces the miraculous rise of this music legend—from the dirt roads of rural Alabama to the now-immortal stage of the Grand Ole Opry, and, finally, to a lonely end on New Year's Day in 1953. Examining Williams's chart-topping hits while also re-creating days and nights choked in booze and desperation, *Hank* uncovers the real man beneath the myths, reintroducing us to an American original whose legacy, like a good night at the honkytonk, promises to carry on and on.
