**frank sinatra cold:** *Frank Sinatra Has a Cold* Gay Talese, Phil Stern, 2015 Sinatra with a cold is Picasso without paint, Ferrari without fuel -- only worse. For the common cold robs Sinatra of that uninsurable jewel, his voice, cutting into the core of his confidence. --Gay Talese In the winter of 1965, writer Gay Talese set out for Los Angeles with an assignment from Esquire to write a major profile on Frank Sinatra. When he arrived, he found the singer and his vigilant entourage on the defensive: Sinatra was under the weather, not available, and not willing to be interviewed. Undeterred, Talese stayed on in L.A., believing Sinatra might recover and reconsider, and used the meantime to observe the star from a careful distance and to interview his friends, associates, family members, and hangers-on. Sinatra never did grant the one-on-one he had hoped for, but Talese's tenacity paid off: his profile *Frank Sinatra Has a Cold* went down in history as a tour de force of literary nonfiction and the advent of the New Journalism. Its incisive portrait of Sinatra in the recording studio, on location, out on the town, and with the eponymous cold, revealed as much about

a singular star persona as it did about the Hollywood machine. In this Collector's Edition, *Frank Sinatra Has a Cold* is published in traditional letterpress, with an introduction by Gay Talese and facsimile reproductions of manuscript pages, correspondence, and original storyboard, revealing the making of this New Journalism marvel. To complete the Sinatra picture, the text and archival material is interwoven with photographs of Sinatra from the legendary lens of Phil Stern, the only photographer granted access to Sinatra over four decades, as well as from top photojournalists of the '60s including John Bryson, John Dominis, and Terry O'Neill. Reproduced in rich duotone, the photographs compliment Talese's character study by documenting the many complex facets of Sinatra: the voice, the showman, the doting father, the Hollywood magnet, and the man with, in his own words, an over-acute capacity for sadness as well as elation.

**frank sinatra cold:** *Frank Sinatra Has a Cold* Gay Talese, 2011-03-03 Gay Talese is the father of American New Journalism, who transformed traditional reportage with his vivid scene-setting, sharp observation and rich storytelling. His 1966 piece for *Esquire*, one of the most celebrated magazine articles ever published, describes a morose Frank Sinatra silently nursing a glass of bourbon, struck down with a cold and unable to sing, like ♦Picasso without paint, Ferrari without fuel ♦ only worse♦. The other writings in this selection include a description of a meeting between two legends, Fidel Castro and Muhammad Ali; a brilliantly witty dissection of the offices of *Vogue* magazine; an account of travelling to Ireland with hellraiser Peter O'Toole; and a profile of fading baseball star Joe DiMaggio, which turns into a moving, immaculately-crafted meditation on celebrity.

**frank sinatra cold: Cold War Country** Joseph M. Thompson, 2024-03-22 Country music maintains a special, decades-long relationship to American military life, but these ties didn't just happen. This readable history reveals how country music's Nashville-based business leaders on Music Row created partnerships with the Pentagon to sell their audiences on military service while selling the music to servicemembers. Beginning in the 1950s, the military flooded armed forces airwaves with the music, hosted tour dates at bases around the world, and drew on artists from Johnny Cash to Lee Greenwood to support recruitment programs. Over the last half of the twentieth century, the close connections between the Defense Department and Music Row gave an economic boost to the white-dominated sounds of country while marginalizing Black artists and fueling divisions over the meaning of patriotism. This story is filled with familiar stars like Roy Acuff, Elvis Presley, and George Strait, as well as lesser-known figures: industry executives who worked the halls of Congress, country artists who dissented from the stereotypically patriotic trappings of the genre, and more. Joseph M. Thompson argues convincingly that the relationship between Music Row and the Pentagon helped shape not only the evolution of popular music but also race relations, partisanship, and images of the United States abroad.

**frank sinatra cold: Run Cold** Ed Ifkovic, 2019-02-19 The Arctic trails have their secret tales That would make your blood run cold. —Robert W. Service, *The Cremation of Sam McGee* Jack Mabie claims to be the meanest man in Alaska, yet the old sourdough seems to be just one of the crusty geezers in every roadhouse bewildered by how his lawless frontier life has morphed into the pastel 1950s world of martini cocktail bars up and down Fairbanks' Second Avenue. Sonia Petrievich, an editor at *The Gold*, her father Hank's weekly pro-statehood paper, learns through the mukluk telegraph about Jack's gleeful account of murders and robberies and shell games during the gold rush days. Her breezy March 1957 profile lets Jack revel in newfound notoriety. Edna Ferber, not completely satisfied with her forthcoming novel *Ice Palace*, has just returned for further research and is fascinated by Jack and his wild tales. Plus the previous summer, young Athabascan lawyer Noah West, a war hero and Sonia's lover, bent on bettering the lives of Alaskan Natives, had sharpened Edna's sense of a corner of the territory she'd ignored: I felt I'd lost sight of the real Alaska, the heartless icebox in the North, the blank-eyed old-timers still haunted by gold... I'd forgotten Alaska is still frontier...a violent, mysterious world below the glossy skin I'd written about. When Jack is found beaten to death, Noah becomes a suspect. Two violent deaths follow. Edna, Noah's advocate, decides she needs to clear his name, believing the murders are connected. As debates over potential statehood rage, Edna begins unearthing scandals and sordid stories hidden in Fairbanks but also dating back to village life in Fort Yukon and down into the Lower 48. What horrible secrets carried from the Arctic Circle have led to so many murders? And what novelist could stand aside from this story?

**frank sinatra cold: Cinema in the Cold War** Cyril Buffet, 2017-10-02 The film industry was an important propaganda element during the Cold War. As with other conflicts, the Cold War was fought not just with weapons, but with words and images. Throughout the conflict, cinema was a reflection of the societies, the ideologies, and the political climates in which the films were produced. On both sides, great stars, major companies, famous scriptwriters, and filmmakers were enlisted to help the propaganda effort. It was not only propaganda that was created by the cinema of the Cold War – it also articulated criticism, and the movie industries were centres of the fabrication of modern myths. The cinema was undoubtedly a place of Cold War confrontation and rivalry, and yet there were aesthetic, technical, narrative exchanges between West and East. All genres of film contributed to the Cold War: thrillers, westerns, comedies, musicals, espionage films, documentaries, cartoons, science fiction, historical dramas, war films, and many more. These films shaped popular culture and national identities, creating vivid characters like James Bond, Alec Leamas, Harry Palmer, and Rambo. While the United States and the Soviet Union were the two main protagonists in this on-screen duel, other countries, such as Britain, Germany, Poland, Italy, and Czechoslovakia, also played crucially important parts, and their prominent cinematographic

contributions to the Cold War are all covered in this volume. This book was originally published as a special issue of Cold War History.

**frank sinatra cold: The Cold War on Film** Paul Frazier, 2021-07-12 The Cold War on Film illustrates how to use film as a teaching tool. It stands on its own as an account of both the war and the major films that have depicted it. Memories of the Cold War have often been shaped by the popular films that depict it—for example, *The Manchurian Candidate*, *The Hunt for Red October*, and *Charlie Wilson's War*, among others. The Cold War on Film examines how the Cold War has been portrayed through a selection of 10 iconic films that represent it through dramatization and storytelling, as opposed to through documentary footage. The book includes an introduction to the war's history and a timeline of events. Each of the 10 chapters that follow focuses on a specific Cold War film. Chapters offer a uniquely detailed level of historical context for the films, weighing their depiction of events against the historical record and evaluating how well or how poorly those films reflected the truth and shaped public memory and discourse over the war. A comprehensive annotated bibliography of print and electronic sources aids students and teachers in further research.

**frank sinatra cold: The Life and Times of a Cold War Serviceman** Maurice F. Mercure, 2012-11 This book may be dry in parts, but it is exactly how a serviceman's life unfolds. It may seem strange to some people that your day-to-day existence (daily life) is dictated by pieces of paper. It is not like a civilian that does not have a rigid routine with military precision. In one sense, it gives you a feeling of security, knowing what is laid out for you. On the other hand, it gives you the feeling that someone else is pulling the strings for you to act. As you retain copies of all these orders (paperwork) for your personal files, you have a running (chronological) history of your life. It covers all aspects the good, the bad, and the ugly. It may be hard for a civilian, nonmilitary person, who has not had any exposure to military life, to understand all the paperwork in this book. While reading this book, take a moment to see how different a serviceman's life is compared to a civilian's.
