farewell to manzanar significance: *Farewell to Manzanar* Jeanne Wakatsuki Houston, James D. Houston, 2013-06-18 The powerful true story of life in a Japanese American internment camp. During World War II the community called Manzanar was hastily created in the high mountain desert country of California, east of the Sierras. Its purpose was to house thousands of Japanese American internees. One of the first families to arrive was the Wakatsukis, who were ordered to leave their fishing business in Long Beach and take with them only the belongings they could carry. For Jeanne Wakatsuki, a seven-year-old child, Manzanar became a way of life in which she struggled and adapted, observed and grew. For her father it was essentially the end of his life. In *Farewell to Manzanar*, Jeanne Wakatsuki Houston recalls life at Manzanar through the eyes of the child she was. She tells of her fear, confusion, and bewilderment as well as the dignity and great resourcefulness of people in oppressive and demeaning circumstances. Jeanne delivers a powerful first-person account that reveals her search for the meaning of Manzanar. *Farewell to Manzanar* has become a staple of curriculum in schools and on campuses across the country. Named one of the twentieth century's 100 best nonfiction books from west of the Rockies by the San Francisco Chronicle.

farewell to manzanar significance: *Betrayal and Other Acts of Subversion* Leslie Bow, 2011-10-16 Asian American women have long dealt with charges of betrayal within and beyond their communities. Images of their disloyalty pervade American culture, from the daughter who is branded a traitor to family for adopting American ways, to the war bride who immigrates in defiance of her countrymen, to a figure such as Yoko Ono, accused of breaking up the Beatles with her

seduction of John Lennon. Leslie Bow here explores how representations of females transgressing the social order play out in literature by Asian American women. Questions of ethnic belonging, sexuality, identification, and political allegiance are among the issues raised by such writers as Jeanne Wakatsuki Houston, Bharati Mukherjee, Jade Snow Wong, Amy Tan, Sky Lee, Le Ly Hayslip, Wendy Law-Yone, Fiona Cheong, and Nellie Wong. Beginning with the notion that feminist and Asian American identity are mutually exclusive, Bow analyzes how women serve as boundary markers between ethnic or national collectives in order to reveal the male-based nature of social cohesion. In exploring the relationship between femininity and citizenship, liberal feminism and American racial discourse, and women's domestic abuse and human rights, the author suggests that Asian American women not only mediate sexuality's construction as a determiner of loyalty but also manipulate that construction as a tool of political persuasion in their writing. The language of betrayal, she argues, offers a potent rhetorical means of signaling how belonging is policed by individuals and by the state. Bow's bold analysis exposes the stakes behind maintaining ethnic, feminist, and national alliances, particularly for women who claim multiple loyalties.

Hebel, Christoph Wagner, 2011-06-30 The pictorial turn in the humanities and social sciences has foregrounded the political power of images and the extent to which historical, political, social, and cultural processes and practices are shaped visually. Political iconographies are taken to interpret norms of actions, support ideological formations, and enhance moral concepts. Visual rhetorics are understood as active players in the construction and contestation of the political realm and public space. The twenty-one articles by scholars from Europe and the United States explore the political function and cultural impact of images from the perspectives of Art History, American Studies, Visual Culture Studies, History, and Political Science. The contributions in particular address the complex interplay between agent and addressee in the public space as well as issues of national identity, discourses of inclusion and exclusion, and the designation of political spaces within transnational contexts. The publication is part of the interdisciplinary research initiative "Perceiving and Understanding: Functions, Perception Processes, Forms of Visualizations, Cultural Strategies of Pictures and Texts" at the University of Regensburg.

farewell to manzanar significance: **Asian American Literature** Elaine Kim, 1982 An introduction to the literary works of Chinese-Americans, Japanese-Americans, Filipino-Americans, and Korean-Americans, this book focuses on the self-images and social contexts of the nineteenth-century immigrants, their descendants, and the Americanized writers of today. Although the book examines the novels, autobiographies, poems, and plays themselves, the social history of Asians in American is a significant backdrop-as Maxine Hong Kingston herself argues it should be. These racially distinctive Americans have confronted in their lives and writings American stereotypes of the Oriental, racial discrimination, and the cultural gulf between East and West. After a chapter on Fu Manchu, Charlie Chan, and other Anglo-American caricatures of Asians, the author turns to a discussion of the first immigrant writers, many of whom were educated aristocrats playing the role of cultural ambassadors, and then to the less privileged, more socially critical generations of writers who followed. From works like *Flower Drum Song*, *Eat a Bowl of Tea*, *The Woman Warrior*, *China Men*, and a host of lesser-known writings, the author shows how portrayals of Chinatown, the
