Der Sportfilm thematisiert historische Ereignisse, gesellschaftliche Entwicklungen wie auch individuelle und kollektive (Anti-)Helden. friday night lights cast: JJ Abrams - A Study in Genius Neil Daniels, 2015-10-11 J.J. Abrams is one of the most successful director-writer-producers working in Hollywood, and now that he is being offered the chance to visit a galaxy far, far away to direct the long-awaited *Star Wars* sequel, his reputation is set to shoot ever higher. Much like his hero Steven Spielberg, such has been Abrams' success that he has himself become something of a brand, especially since his popular revitalisation of *Star Trek* as producer of the 2009 blockbuster, as well as its 2013 sequel, *Star Trek Into Darkness*. However, in the early nineties Abrams began his career writing relatively average movie scripts, such as *Regarding Henry* and *Forever Young*, before moving into the world of TV with the college-based drama *Felicity*. It wasn't until the spy series *Alias* that his career truly launched. Since the early 2000s, Abrams has dominated genre-TV with the success of cult shows such as *Lost* and *Fringe*. At the same time, he found time for the big screen, directing *Mission: Impossible III* and his personal homage to Spielberg, *Super 8* as well as producing the innovative monster movie *Cloverfield*. Then, not content with distinction in these two fields, 2013 saw the release of his first novel *S.* with Doug Dorst. While Abrams sceptics note that not everything he has been involved with has worked - after a number of his TV shows have been cancelled and some of his films have received mixed reviews - there's no question that Abrams is one of Hollywood's most powerful people. Set to dominate the world of SF for years to come, this is the first biography of the cult legend.
