**in the know today answers:** *Implementing an Inclusive Staffing Model for Today's Reference Services* Julia K. Nims, Paula Storm, Robert Stevens, 2013-11-26 Reference service remains a core function of modern libraries. However, how and where we provide assistance has evolved with changing technologies and the shifting habits and preferences of our users. One way libraries can provide the on-demand, in-person assistance while managing and developing new services and resources that will benefit current and future users is to reconsider how their reference points and services are staffed and adopt a staff-based reference model. The authors, staff members at Eastern Michigan University, chose to address this by implementing an inclusive reference model in which staff and student assistants are trained to answer certain levels of reference questions while working at the reference desk and at other service points. The result was that librarians became more available to work with students who needed in-depth assistance and users were able to get simple questions answered throughout the library. Similar training for all staff and student assistants who work in the library results in better service, more accurate answers, and improved interdepartmental communication. In *Implementing an Inclusive Staffing Model for Today's Reference Services*, they describe step-by-step how to transition from the traditional librarian-staffed reference desk to an inclusive reference model where non-MLS personnel are equipped and empowered to answer reference questions wherever these questions might be asked. Users ask questions of staff at all service points, not just at the Reference Desk. It is vitally important that those who work at circulation, periodicals, maps, archives and other public service points be trained in how to answer certain reference questions. When this is accomplished, users who have simple questions will not have to make useless treks to the Reference Desk. Topics covered include: Recognizing that nearly all staff answer reference questions, but few are trained to do so documenting the necessity for a change in reference model gaining buy-in from all interested parties—librarians, non-MLS staff, and administrators determining the optimal staffing level creating training materials and schedules monitoring the quality of reference service supervising staff evaluating the new model using multiple methods Additionally, each chapter contains practical resources such as checklists, forms, and sample materials, and other usable features to support readers as they implement the inclusive reference model. The book describes in detail the process of transforming traditional reference into a model that transcends departmental and job title boundaries, is focused on the user, and allows librarians to better utilize their time and talents, and include non-professional staff in their reference services.

Spýtali by ste sa na svet okolo vás? Alebo o okolnostiach vo vašom vlastnom živote? Prvý týždeň tohto chladného mesiaca neprišla žiadna odpoveď. Pred koncom prvého týždňa sa však občas ozvala ozvena nezrozumiteľných slov. Uvedomil som si, že to nebol len zvuk vetra alebo nejaké vzdialené výkriky. A potom prišla prvá odpoveď. Môj rozhovor s ním sa začal v stredu a tu sa začína odpoveď na moju prvú otázku. Nie som si istý, kto to je, ani nepoznám jeho meno. Môžem o ňom povedať alebo hovoriť len ako o niekom bez mena. **in the know today answers:** **The Answer Is in the Problem** J Krishnamurti, 2022-09-09 In these Talks, given in Europe, Ojai and India, Krishnamurti addresses the need to approach our life problems in a manner does not perpetuate fragmentation. Though we have many problems, and each problem seems to produce so many other problems, perhaps we can consider together whether the wisest thing to do is, not to seek the solution of any problem at all. It seems to me that our minds are incapable of dealing with life as a whole; we deal, apparently, with all problems fragmentarily, separately, not with an integrated outlook. Perhaps the first thing, if we have problems, is not to

seek an immediate solution for them, but to have the patience to inquire deeply into them, and discover whether these problems can ever be solved by the exercise of will. What is important, I think, is to find out, not how to solve the problem, but how to approach it. An extensive compendium of Krishnamurti's talks and discussions in the USA, Europe, India, New Zealand, and South Africa from 1933 to 1967—the Collected Works have been carefully authenticated against existing transcripts and tapes. Each volume includes a frontispiece photograph of Krishnamurti, with question and subject indexes at the end. The content of each volume is not limited to the subject of the title, but rather offers a unique view of Krishnamurti's extraordinary teachings in selected years. The Collected Works offers the reader the opportunity to explore the early writings and dialogues in their most complete and authentic form.
