iranian actors: Iranian Cinema in a Global Context Peter Decherney, Blake Atwood, 2014-09-15 Iranian films have been the subject of much critical and scholarly attention over the past several decades, and Iranian filmmakers are mainstays of international film festivals. Yet most of the attention has been focused on a small segment of Iranian film production: auteurist art cinema. *Iranian Cinema in a Global Context*, on the other hand, takes account of the wide range of Iranian cinema, from popular youth films to low budget underground films. The volume also reassesses the global circulation of Iranian art cinema, looking at its reception at international festivals, in university curricula, and at the Academy Awards. A final theme of the volume explores the intersection between politics and film, with essays on post-Khatami reform influences, representations of ineffective drug policies, and the representation of Jewish characters in Iranian film. Taken together, the essays in this volume present a new definition of the field of Iranian film studies, one that engages global media flows, transmedia interaction, and a heterogeneous Iranian national cinema.

iranian actors: Iranian-Russian Encounters Stephanie Cronin, 2013 Over the past two hundred years, encounters between Iran and Russia have been both rich and complex. This book explores the myriad dimensions of the Iranian-Russian encounter during a dramatic period which saw both Iran and Russia subject to revolutionary upheavals and transformed from multinational dynastic empires typical of the nineteenth century to modernizing, authoritarian states typical of the twentieth. The collection provides a fresh perspective on traditional preoccupations of international relations: wars and diplomacy, the hostility of opposing nationalisms, the Russian imperial menace in the nineteenth century and the Soviet threat in the twentieth. Going beyond the traditional, this book examines subaltern as well as elite relations and combines a cultural, social and intellectual dimension with the political and diplomatic. In doing so the book seeks to construct a new discourse which contests the notion of an implacable enmity between Iran and Russia. Bringing together leading scholars in the field, this book demonstrates extensive use of family archives, Iranian, Russian and Caucasian travelogues and memoirs, and newly available archives in both Iran and the countries of the former Soviet Union. Providing essential background to current international tensions, this book will be of particular use to students and scholars with an interest in the Middle East and Russia.

iranian actors: The I.B. Tauris Handbook of Iranian Cinema Michelle Langford, Maryam Ghorbankarimi, Zahra Khosroshahi, 2024-10-31 This volume brings together scholarship from both established scholars and early career academics to provide fresh insights and new research on the cinema of Iran. The book is organised around eight broad themes including cinema before and after the revolution, stylistic innovation, documentary, gender, and genre. Encompassing a diverse range of methodological approaches and disciplinary frameworks including film studies, cultural studies, and political economy, each chapter is a self-contained study on a specific topic engaging with the national and transnational history of Iranian cinema which combined provide readers with original new insights into Iranian film and filmmakers, from fiction films to art house and popular cinema. The Handbook includes analysis of the works of established filmmakers such as Bahram Beyzaie, Rakhshan Banetmad, Abbas Kiarostami and Mohsen Makhmalbaf, as well as the output of emerging voices such as Ida Panahandeh and Shahram Mokri. Covering well-known topics as well as cutting edge ones such the sonic and visual manifestations of the urban environment in Iranian films, this book is a vital resource for understanding Iran and its unique cinematic culture.

iranian actors: Iranian Cosmopolitanism Golbarg Rekabtalaei, 2019-01-17 From popular and 'New Wave' pre-revolutionary films of Fereydoon Goleh and Abbas Kiarostami to post-revolutionary films of Mohsen Makhmalbaf, the Iranian cinema has produced a range of films and directors that have garnered international fame and earned a global following. Golbarg Rekabtalaei takes a unique look at Iranian cosmopolitanism and how it transformed in the Iranian imagination through the cinematic lens. By examining the development of Iranian cinema from the early twentieth century to the revolution, Rekabtalaei locates discussions of modernity in Iranian cinema as rooted within local

experiences, rather than being primarily concerned with Western ideals or industrialisation. Her research further illustrates how the ethnic, linguistic, and religious diversity of Iran's citizenry shaped a heterogeneous culture and a cosmopolitan cinema that was part and parcel of Iran's experience of modernity. In turn, this cosmopolitanism fed into an assertion of sovereignty and national identity in a modernising Iran in the decades leading up to the revolution.

iranian actors: Remapping Persian Literary History, 1700-1900 Kevin L. Schwartz, 2020-03-18 Integrating forgotten tales of literary communities across Iran, Afghanistan and South Asia - at a time when Islamic empires were fracturing and new state formations were emerging - this book offers a more global understanding of Persian literary culture in the 18th and 19th centuries. It challenges the manner in which Iranian nationalism has infiltrated Persian literary history writing and recovers the multi-regional breadth and vibrancy of a global lingua franca connecting peoples and places across Islamic Eurasia. Focusing on 3 case studies (18th-century Isfahan, a small court in South India and the literary climate of the Anglo-Afghan war), it reveals the literary and cultural ties that bound this world together as well as some of the trends that broke it apart.

iranian actors: **Trends in Iranian Cinema** Behrooz Mahmoodi-Bakhtiari, Mohammad Rahmati, 2024-10-17 The cinema of Iran is celebrated both locally and internationally, yet elements of this diverse field remain comparatively understudied. This book brings together a diverse range of scholars to explore contemporary Iranian cinema in its local and international contexts from a range of perspectives including aesthetic, socio-political comparative approaches. Its chapters analyse the work of well-known filmmakers on the international film circuit such as Abbas Kiarostami, Mohammad Reza Aslani and Jaffar Panahi, as well as internationally lesser-known domestic films such as those of Kamal Tabrizi and the 'Sacred Defence' films of the Iran-Iraq war. The book further widens its scope with chapters which also examine the material practices of the Iranian film industry itself, including chapters on the process by which Iranian films become 'accessible' to international audience. Finally, it considers, too, representations of Iranians in foreign cinemas, and how these have in turn affected Iranian films.

iranian actors: *The Battle of the Ayatollahs in Iran* Alex Vatanka, 2021-04-08 Understanding the foreign policy agenda and behavior of the Islamic Republic of Iran is a critical challenge for the world. But where do the principal Iranian regime actors come from in terms of political background, experiences and interests? Which types of ambitions or policy conflicts have dominated and shaped foreign policy debates since 1979? This book explains the internal policy process in Tehran by following two regime personalities, Ali Khamenei, the Supreme Leader, and Akbar Hashemi Rafsanjani, who before his death in January 2017 held some of the most powerful political positions in Iran. No two men have been more influential in dictating the regime's decision-making processes since 1979. Yet little is known about how their competing worldviews and interests, their key moments of dispute - both personal or policy-based - or their personal ambitions have informed the trajectory of Iranian politics. The book analyzes Khamenei and Rafsanjani's own words and writings - and accounts of them given by others - to reveal how the domestic policy contest has shaped Tehran's actions on the regional and international stage. Comprising primary and secondary Iranian sources - including untapped memoirs, newspaper reports, and Iranian electronic media and personal interviews - the book highlights the principal rivalries over the lifespan of the Islamic Republic and offers new insights into the present and future of Iranian foreign policy.

iranian actors: Iran's Deadly Ambition Ilan Berman, 2016-12-06 Are we on the cusp of détente with Iran? Conventional wisdom certainly seems to believe so. Since the start of diplomacy between the Islamic Republic and the P5+1 powers (the United States, France, England, Russia, China, Germany) in November 2013, hopes have been running high for a historic reconciliation of Iran's

clerical regime with the West. Yet there is ample reason for skepticism that the United States and its allies can truly curb Iran's nuclear ambitions by diplomatic means. Moreover, the West's current focus on Iran's nuclear program is deeply dangerous insofar as it fails to recognize—let alone address—Iran's other international activities or its foreign policy aims. Those objectives are global, and they continue to grow in scope and menace. In this sobering book, Ilan Berman illuminates the multiple dimensions of the Iranian threat and exposes the perils of lodging confidence in diplomacy with the Islamic Republic.

iranian actors: Mohammad Mosaddeq and the 1953 Coup in Iran Mark J. Gasiorowski, Malcolm Byrne, 2015-02-01 Mohammad Mosaddeq is widely regarded as the leading champion of secular democracy and resistance to foreign domination in Iran's modern history. Mosaddeq became prime minister of Iran in May 1951 and promptly nationalized its British-controlled oil industry, initiating a bitter confrontation between Iran and Britain that increasingly undermined Mosaddeq's position. He was finally overthrown in August 1953 in a coup d'état organized and led by the U.S. Central Intelligence Agency, along with British intelligence. This coup initiated a twenty-five-year period of growing dictatorship in Iran, leaving many Iranians resentful of the U.S.—legacies that still haunt relations between the two countries today. This book examines the turbulent political climate that prevailed in Iran during Mosaddeq's tenure, the confrontation between Iran and Britain for control over Iran's oil, the strategic considerations that led U.S. officials to intervene, and the details of the coup itself. Based on exhaustive research by leading academic experts in the field, this is the most authoritative account of the tragic events that led to the overthrow of Mosaddeq. With the recent declassification of CIA and other documents regarding the events of 1953 in Iran, there is an opportunity for new in-depth analysis into not only the coup d'état itself but also the events that led up to it.

iranian actors: Iran and Global Decolonisation Robert Steele, Firoozeh Kashani-Sabet, 2024-04-03 A presentation of scholarly work that investigates Iran's experiences with colonialism and decolonization from a variety of perspectives. How did Iran's unique position in the world affect and define its treatment of decolonization? During the final decades of Pahlavi rule in the late 1970s, the country sought to establish close relationships with newly independent counterparts in the Global South. Most scholarly work focused on this period is centered around the Cold War and Iran's relations with the United States, Russia, and Europe. Little attention has been paid to how the country interacted with other regions, such as Africa, Asia, and the Americas. Adding to an important and growing body of literature that discusses the profound and lasting impact of decolonization, *Iran and Global Decolonisation* contributes to the theoretical debates around the re-shaping of the world brought about by the end of an empire. It considers not only the impact of global decolonization on movements and ideas within Iran but also how Iran's own experiences of imperialism shaped how these ideas were received and developed.

iranian actors: *Political Radicalism in Iran and Ahmadinejad's Presidencies* Giorgia Perletta, 2022-03-16 This book offers a critical deconstruction of radicalism as a political category and through this analytical approach seeks to interpret and assess the presidencies of the former Iranian President Mahmud Ahmadinejad. It contextualizes radicalism within a broader framework of Western-derived political categories, which are too frequently used to simplify the complexities of Iran's domestic political landscape, generally reducing any comprehensive and objective understanding of Iranian politics. Since the term radicalism is often misrepresented and misused in readings of contemporary Iran, this study examines several analogous Persian and English labels, exploring their different meanings, significances, and varied applications, in order to challenge any fixed and universal interpretations of radicalism as a concept. The political experience of Mahmud Ahmadinejad, who has been widely perceived as a radical politician, provides an ideal case study in this regard, offering valuable insight into how best to frame and interpret radicalism in

post-revolutionary Iran. This book will be of particular interest to both scholars and students of Iranian Studies, but also to more general readers who are broadly interested in Middle Eastern studies, political science, and comparative politics.

iranian actors: Albee Abroad , 2023-07-03 The final volume of the New Perspectives in Edward Albee Studies series expands the analyses of Edward Albee's theatre beyond Anglophone countries. Ranging from academic essays, performance reviews, and interviews, the selected contributions examine different socio-political contexts, cultural dynamics, linguistic communities, and aesthetic traditions, from the 1960s to our contemporary days. Albee Abroad gladly brings together varied voices from Czech Republic, People's Republic of China, Brazil, Iran, Germany, Spain, and Greece, thus enriching Albee scholarship with more plural tones.

iranian actors: Iranian-Saudi Rivalry since 1979 Talal Mohammad, 2022-08-11 The fraught relationship between Saudi Arabia and Iran is usually attributed to sectarian differences, even by the states' own elites. However, this book shows that in their official speeches, newspaper editorials and Friday sermons, these elites use sectarian and nationalist references and tropes to denigrate each other and promote themselves in the eyes of their respective constituencies in the region. Talal Mohammad, who is fluent in both Arabic and Persian, examines Saudi-Iranian rivalry using discourse analysis of these religious, political and journalistic sources. Tracing what has been produced since 1979 in parallel, he argues for a consistent pattern of mutual misrepresentation, whereby each frames its counterpart as the 'Other' to which a specific political agenda can be justified and advanced. The book covers key events including the Iranian Revolution, the invasion of Kuwait in 1990, the Taliban war, the fall of Saddam, the Arab Spring, the rise of Mohammed bin Salman, and the war on ISIS. While until now Saudi-Iranian rivalry has been understood in primarily sectarian or geopolitical terms, the author argues here that the discursive othering serves as a propagandist function that supports more fundamental political and geopolitical considerations.

iranian actors: Relaying Cinema in Midcentury Iran Kaveh Askari, 2022-01-25 Relaying Cinema in Midcentury Iran investigates how the cultural translation of cinema has been shaped by the physical translation of its ephemera. Kaveh Askari examines film circulation and its effect on Iranian film culture in the period before foreign studios established official distribution channels and Iran became a notable site of world cinema. This transcultural history draws on cross-archival comparison of films, distributor memos, licensing contracts, advertising schemes, and audio recordings. Askari meticulously tracks the fragile and sometimes forgotten material of film as it circulated through the Middle East into Iran and shows how this material was rerouted, reengineered, and reimagined in the process.

iranian actors: Iran at War Maziar Behrooz, 2023-04-06 After the destructive decades following the fall of the Safavid Empire, the Qajar dynasty inherited a weakened state and the growing threat of European imperial powers, culminating in two wars with Russia. In this book, Maziar Behrooz provides a history of the Qajar dynasty's navigation of this difficult period, beginning with the reign of Aqa Muhammad Shah and ending with that of Fath Ali Shah. Examining the key decisions taken by Qajar, Russian, British and other actors, the book argues that a reevaluation of the early-Qajar period is required, one which acknowledges the failures of its rulers, while recognising the external constraints they were under, and their successes in reuniting a formerly fragmented state in the face of overwhelming technological, economic and military firepower.

iranian actors: Deciphering Iran's Cyber Activities Jack Caravelli, Sebastian Maier, 2016-12-01 This research paper explores the topical implications of the new realities and calculations surrounding Iran's rapidly-evolving cyber ecosystem. The study traces a variety of cases where attribution is overwhelmingly linked to cyber interference emerging from the Islamic Republic, in which perpetrators act at arm's length in an effort to insulate definitive accountability. First, the

findings include an in-depth account describing the strategic and technical ramifications of the infamous Stuxnet worm, a Western cyber attack that crippled nuclear centrifuges at the Iranian enrichment facility at Natanz in 2009. Second, the paper outlines the lessons learned from Natanz, from an Iranian perspective, by shedding light on the country's increasing domestic efforts to centralize and professionalize its cyber clout. This is done in an attempt to streamline limited capacities, effectively making Iran a competitive top-tier player in the global cyber realm to date. Lastly, the paper describes Iran's strategic departure in the aftermath of Stuxnet, moving away from mere defacement campaigns towards extensive cyber sabotage operations. Such a move resulted in repeated intrusive operations, either directly or through regional proxies, which hit the broader Middle East, the US and European nations from 2009 up until the present.
