Background of Michael Salla

Michael Salla is an author, researcher, and founder of the field known as exopolitics, which examines the political implications of extraterrestrial life and interactions. With a background in international relations and peace studies, Salla brings a unique perspective to the study of alien phenomena. His work often focuses on government disclosure, whistleblower testimonies, and the socio-political ramifications of contact with non-human intelligences. Over the years, Salla has published numerous books and articles that explore the existence of extraterrestrial civilizations and secret space programs, particularly highlighting Mars as a focal point for these investigations.

Academic and Professional Credentials

Salla holds advanced degrees in international relations and has taught at various academic institutions. His expertise in diplomacy and conflict resolution informs his approach to exopolitical issues, framing extraterrestrial contact within the context of global governance and international law. This academic foundation distinguishes his work from purely speculative or fringe UFO research, aiming to establish a credible framework for understanding extraterrestrial affairs.

Founding of Exopolitics

In 2005, Michael Salla coined the term “exopolitics” to define the study of extraterrestrial presence and its political effects on humanity. This new discipline seeks to analyze government policies, whistleblower evidence, and international responses related to alien encounters. Exopolitics aims to bridge the gap between UFOlogy and mainstream political science, offering a structured approach to the disclosure debate and interstellar diplomacy.

Michael Salla’s Mars Theories

Central to Michael Salla’s research is the hypothesis that Mars harbors signs of ancient civilizations

and current extraterrestrial activity. He argues that evidence from NASA and other space agencies has been suppressed or misrepresented to conceal the reality of intelligent life on Mars. Salla's theories propose that Mars might have been home to advanced societies in the distant past, with remnants of their technology and infrastructure still present on the planet's surface.

Ancient Martian Civilizations

Salla suggests that various geological formations and anomalies on Mars, such as artificial structures or city-like ruins, point to a sophisticated civilization that once thrived there. This civilization may have influenced early Earth cultures or left behind artifacts that human space missions have yet to fully acknowledge. His research includes analysis of satellite imagery and declassified documents purportedly revealing these findings.

Current Extraterrestrial Presence

Beyond ancient history, Michael Salla asserts that extraterrestrials maintain ongoing operations on Mars. This includes secret bases and research facilities operated either by alien species or joint human-alien programs. According to Salla, whistleblower accounts and leaked information provide compelling support for the existence of such clandestine activities on the Red Planet.

Exopolitics and Secret Space Programs

Exopolitics, as developed by Michael Salla, encompasses the study of secret space programs (SSPs), which allegedly involve advanced spacecraft and extraterrestrial alliances. These programs are said to operate independently of public knowledge and government oversight, often utilizing Mars as a strategic location for exploration and experimentation. Salla's investigations explore the political and ethical dimensions of these covert activities.

Nature of Secret Space Programs

Secret space programs are described as highly classified projects involving collaboration between various government agencies, private corporations, and alien entities. These programs reportedly possess technology far beyond current public capabilities, including faster-than-light travel and advanced weaponry. Mars serves as a critical hub for these operations due to its proximity and potential resources.

Whistleblower Testimonies

A significant portion of Salla's research relies on testimonies from former insiders who claim direct knowledge of SSPs and extraterrestrial dealings. These whistleblowers provide detailed accounts of Mars missions, alien interactions, and the political secrecy surrounding these programs. Michael Salla evaluates and cross-references these statements to build a coherent narrative about the hidden realities of space exploration.

Evidence and Claims Regarding Mars

Michael Salla compiles a range of evidence to support his claims about Mars, including satellite imagery anomalies, official documents, and witness statements. He argues that this body of evidence challenges the mainstream scientific narrative, suggesting a need for transparent investigation and disclosure. The following list highlights some key categories of evidence cited in his research.

- **NASA and Space Agency Anomalies:** Unexplained artifacts and structures observed in publicly released Mars images.
- **Declassified Documents:** Leaked governmental files implying knowledge of extraterrestrial installations on Mars.

- **Whistleblower Reports:** Insider accounts describing covert missions and alien collaborations.
- **Historical Correlations:** Similarities between Martian features and ancient Earth civilizations.
- **Technological Disclosures:** Alleged advanced technologies reverse-engineered from Mars findings.

Analysis of Mars Imagery

Salla conducts detailed analyses of Mars surface photographs and satellite data, pointing out formations that resemble artificial constructs. He emphasizes patterns that defy natural geological processes, arguing these may be remnants of past settlements or current installations. His approach combines scientific scrutiny with investigative research to advocate for further study.

Criticism and Controversy

Michael Salla's theories about Mars and extraterrestrial involvement have sparked considerable debate within both the scientific community and UFO research circles. Critics challenge the validity of his evidence and question the reliability of whistleblower testimonies. The controversial nature of his claims has led to polarized opinions regarding the legitimacy of exopolitical studies.

Scientific Skepticism

Mainstream scientists largely dismiss Salla's assertions due to the lack of conclusive empirical data. Many argue that the anomalies he highlights can be explained by natural geological formations or image artifacts. The scientific method demands repeatable and verifiable evidence, which critics claim is absent from Salla's research on Mars.

Debates Within UFO Community

While some UFO researchers support Michael Salla's work as groundbreaking, others regard it as speculative or sensationalist. Disagreements focus on the interpretation of evidence, the credibility of sources, and the broader implications of disclosure. These debates reflect the complex and often fragmented nature of extraterrestrial research communities.

Impact on Extraterrestrial Research

Despite controversy, Michael Salla's investigations into Mars and exopolitics have influenced public discourse on extraterrestrial contact and government transparency. His promotion of the secret space program narrative and Martian civilizations has encouraged renewed interest in space exploration and alien life. Salla's work contributes to the ongoing dialogue about humanity's place in the cosmos and the potential realities beyond Earth.

Promotion of Disclosure Movement

Salla actively advocates for government disclosure of classified information related to extraterrestrials and Mars activities. His efforts seek to foster openness and international cooperation in addressing extraterrestrial phenomena. This advocacy has helped galvanize a global community interested in uncovering hidden truths about space and alien presence.

Educational and Media Contributions

Through books, lectures, and online platforms, Michael Salla disseminates his research to a wide audience. His contributions provide resources for those studying exopolitics, ufology, and planetary science from a speculative yet structured perspective. This educational outreach continues to shape the narrative surrounding Mars and extraterrestrial affairs in the modern era.

Webb, 2019-05-24 This up-to-date introduction to the complex world of conspiracies and conspiracy theories provides insight into why millions of people are so ready to believe the worst about our political, legal, religious, and financial institutions. Unsupported theories provide simple explanations for catastrophes that are otherwise difficult to understand, from the U.S. Civil War to the Stock Market Crash of 1929 to the terrorist attacks on the World Trade Center in New York. Ideas about shadowy networks that operate behind a cloak of secrecy, including real organizations like the CIA and the Mafia and imagined ones like the Illuminati, additionally provide a way for people to criticize prevailing political and economic arrangements, while for society's disadvantaged and forgotten groups, conspiracy theories make their suffering and alienation comprehensible and provide a focal point for their economic or political frustrations. These volumes detail the highly controversial and influential phenomena of conspiracies and conspiracy theories in American society. Through interpretive essays and factual accounts of various people, organizations, and ideas, the reader will gain a much greater appreciation for a set of beliefs about political scheming, covert intelligence gathering, and criminal rings that has held its grip on the minds of millions of American citizens and encouraged them to believe that the conspiracies may run deeper, and with a global reach.

Salla, 2023-01-27T11:32:00-05:00 Le développement d'armes nucléaires a été l'une des raisons pour lesquelles les civilisations extraterrestres ont commencé à visiter la Terre à l'époque de la Seconde Guerre mondiale. Il existe à ce sujet une explication plus significative et lourde de conséquences. Pendant des décennies, la vérité n'a pas été communiquée en raison de sa nature dérangementante. C'est seulement aujourd'hui que nous en percevons une image plus nette. La Terre était devenue l'épicentre d'une guerre temporelle impliquant une future tyrannie galactique dont les origines se trouvent dans notre passé, mais qui a réémergé au début des années 1900 avec un

accord secret conclu par l'Allemagne nazie avec un groupe d'extraterrestres appelés Draco-reptiliens. Après la Seconde Guerre mondiale, cet accord a abouti à l'établissement d'une colonie allemande autonome en Antarctique qui a rapidement donné naissance à une flotte dotée d'une technologie extraterrestre. Dans *Fédérations galactiques*, Michael Salla fait un survol des différents groupes extraterrestres et programmes spatiaux secrets impliqués dans la guerre temporelle qui fait silencieusement rage autour de nous, à l'insu de la majeure partie de l'humanité. Il met surtout en évidence les événements actuels menant à la réalisation d'un avenir positif et passionnant, où l'humanité rejoindra à son tour la communauté galactique.

michael salla mars: *The Omniverse* Alfred Lambremont Webre, 2015-11-17 A tour through the new science of the Omniverse, its spiritual and physical dimensions, and its incalculable intelligent civilizations • Reveals the key travel and communication technologies of the Omniverse: time travel, teleportation, and telepathy • Unveils newly disclosed state secrets about these technologies, about the findings of the NASA Mars rover missions, and about a secret colony and life on Mars • Explains through science how souls are holographic fragments of God and how they help create planets, solar systems, galaxies, and universes in the multiverse We are all citizens of the Omniverse, the overarching matrix of energy, spirit, and intelligence that encompasses all that exists: all universes within the multiverse as well as the spiritual dimensions centered on the divine Source that many call God. In this scientific guide to the Omniverse, Alfred Lambremont Webre reveals startling replicable evidence about extraterrestrial and extra-universal life, the intelligent civilizations created by souls in the afterlife, top-secret alien technology, and the existence of a secret base as well as life on Mars. The author explains how our souls are holographic fragments of God/Source and how souls and Source are co-creating planets and galaxies as virtual realities for soul development. He addresses Grey alien control over soul reincarnation and also sheds light on the presence of invisible hyperdimensional controllers known as the Archons, who feed off negative energy. Revealing the key technologies of the Omniverse, the author explains how hyperdimensional civilizations communicate telepathically, teleport interdimensionally, and travel through time. He unveils newly disclosed state secrets about government possession of these technologies, the findings of the NASA Mars rover missions, and the secret Mars colony whose permanent security personnel is age-reversed and shot back through time to their specific space-time origin points-with their memories blocked. Integrating science and spirituality, this map of the dimensions of the Omniverse sounds the call for scientific inquiry into the holographic origins of the soul, the potential of time travel, and our role as divine co-creators with Source.

michael salla mars: *The Chaos Conundrum* Aaron John Gulyas, 2014-01-23 In *The Chaos Conundrum*, historian Aaron John Gulyas examines how the paranormal has intersected and influenced our culture in myriad ways, from the conspiracy beliefs of William Cooper and Exopolitics to the challenge that the stories of Gray Barker presented to our concept of self and time. He looks at the maelstrom of personalities, agendas, impressions, data, confusion, and contradictions that can be found in the world of the weird, and demonstrates how they have become an integral part of our lives, whether in the form of flying saucers, hauntings, religious revelations, psychic abilities, or dozens of other guises. Gulyas delves into the stories of the people who have attempted to create order out of the chaos. Along the way he recounts his own journey from enthusiastic believer in the shadow government and their underground bases to jaded academic skeptic, and then finally to someone who thinks there might just be something to the paranormal after all... but not what we have been led to expect or believe!

michael salla mars: *Antarctica and the Secret Space Program* David Childress, 2020-05-20 David Childress, popular author and star of the History Channel show *Ancient Aliens*, brings us the incredible tale of Nazi submarines and secret weapons in Antarctica and elsewhere. He looks into

the strange life and death of Rudolf Hess, as well as the mystery of James Forrestal and the secret group called MJ-12. He examines Operation Highjump led by Admiral Richard Byrd in 1947 and the battle that he apparently had in Antarctica with flying saucers. Through "Operation Paperclip," the Nazis infiltrated aerospace companies, banking, media, and the US government, including NASA and the CIA after WWII. He reveals that the Nazis had built secret bases in a variety of places during WWII, including Greenland, the Canary Islands, Tibet and Antarctica. Childress discusses the secret U-boat fleet that patrolled the Atlantic and Antarctic Oceans for decades after the war. He looks into the secret German space program and its flying disks and tubular aircraft; the secret technology involved, including anti-gravity propulsion technology; underground and under ice bases; strange things happening in South America; and secret bases on the Moon and Mars. Childress looks at the possible merger of Nazi assets in Antarctic with the Americans' and the use of Antarctica as a space base for traffic to secret space stations in orbit and below the surface of the Moon. The author looks at military space programs such as Solar Warden, Lunex and Project Horizon. Does the US Space Force have a secret space program that maintains huge ships in orbit around the Earth and employs hundreds of astronauts as crew for these vehicles? Includes a 16-page color section.

michael salla mars: *Dark Fleet* Len Kasten, 2020-03-10 Reveals the Nazi-Reptilian infiltration of the U.S. government, their secret space program, and their slave colonies throughout the solar system • Details "Operation Paperclip," which enabled Nazis and their Reptilian partners to infiltrate the U.S. military-industrial complex, including NASA and the CIA • Reveals their interstellar space ports in Antarctica and on Mars, their base on the Moon, and their alien technologies, including nano-technology, antigravity propulsion, mass mind control, and hyperdimensional teleportation capabilities • Shares testimonies from American and British "supersoldiers" who participated in the "20 and Back" age-regression programs, revealing advanced human technology and our Space Armada that constitutes a counter-balance to the Nazi Dark Fleet The Nazis did not really lose World War II. They made it appear that way in order to divert attention from the alliance between the Fourth Reich and the race of aliens known as the Reptilians--an ancient galactic civilization obsessed with conquest and domination. After the German surrender in 1945, the Nazi-Reptilian alliance infiltrated the U.S. military-industrial complex. Through "Operation Paperclip," the Nazis and Reptilians removed their political opponents, such as the Kennedys, and moved into policy-making positions in post-war America, infiltrating aerospace companies, banking, media, and the U.S. government, including NASA and the CIA. But their real target was not the United States--it was the solar system. As Len Kasten reveals in startling detail--including revelations of antigravity propulsion technology, alien techniques of mass mind control, and hyperdimensional teleportation capabilities--the Nazi-Reptilian alliance used their newfound power, wealth, and influence to launch a Secret Space Program with interstellar spaceports in Antarctica and on Mars as well as an eleven-story base of operations on the Moon. They commenced mining and manufacturing operations on Mars and Ceres, forming colonies there and elsewhere in the solar system. And, most shocking, they have used thousands of human slaves, easily transported in their spaceships, for both work and sexual exploitation. Sharing testimonies from American and British "supersoldiers" who participated in the "20 and Back" age-regression programs, Kasten reveals the various forces inside and outside government that are resisting the Nazis and thwarting Reptilian attempts to achieve total dominance of the planet and the solar system. The U.S.-led Secret Space Program has its own fleet of spaceships, the Solar Warden Space Armada, which patrols the edges of the solar system and poses a growing threat to the Nazi Dark Fleet.

michael salla mars: *Triumph of the Light* Vidya Frazier, 2017-11-20 Story of Humanity's Enslavement and Impending Liberation If you're disturbed by the increasing chaos, disasters and violence playing out on the world stage, this book will help you understand why this is all happening. It will introduce you to a world that may sound like science fiction or conspiracy theory--but becomes a fascinating story difficult to dispute or deny, as it finally makes sense of what is happening. The story presented here is largely based on information revealed by increasing numbers of courageous whistle-blowers from within the military, intelligence communities and researchers

who are speaking truths long kept secret from the public. It becomes clear that humanity has actually been controlled for thousands of years in insidious ways most people are unaware of. And that there is a battle currently being waged for humanity's liberation from this control. Triumph of the Light may lead you to question your beliefs, your conditioning, and what you've believed to be true about the world and humanity's history. Although disturbing in many ways, what's offered here is also exciting and uplifting, as the author gives great hope for our future. It becomes clear that, even with all that is now occurring, humanity is actually on the verge of an incredible leap in consciousness into a state of much greater freedom, harmony, justice and spiritual awakening.

michael salla mars: Programmes spatiaux secrets et alliances extraterrestres, tome II

Michael E. Salla, 2018-04-20T00:00:00-04:00 Le raid aérien survenu au-dessus de Los Angeles les 24 et 25 février 1942 a inauguré un nouveau chapitre dans l'histoire de la marine de guerre américaine. L'incident suscita la création d'un programme de recherche secret destiné à étudier la faisabilité de la propulsion antigravitationnelle. Parallèlement, des agents secrets furent postés dans l'Europe occupée afin d'espionner les programmes allemands de construction d'engins volants, et ces espions découvrirent que les nazis recevaient l'aide de deux groupes extraterrestres aux objectifs différents. Les séances de compte rendu de ces agents secrets avaient lieu à la base aéronavale de San Diego, dirigée par le contre-amiral Rico Botta, qui confia à un « diffuseur d'informations en recherche aéronautique », William Tompkins, la mission d'aller porter des colis d'informations confidentielles à certains groupes de réflexion, certaines compagnies et certains départements universitaires des États-Unis. Plus tard, Tompkins fut engagé par d'importantes compagnies aérospatiales, où il conçut d'énormes vaisseaux spatiaux pour un programme secret de la marine avec l'aide providentielle de visiteurs extraterrestres appelés les « Nordiques ». Un grand nombre de documents corroborent les affirmations de Tompkins sur l'existence d'un programme secret de la marine créé pour concevoir et construire des groupes de combat spatiaux, lesquels sont devenus opérationnels dans les années 1980. La marine cherche maintenant à équilibrer les règles du jeu, et l'élection de Donald Trump à la présidence des États-Unis est peut-être l'élément imprévisible dont elle avait besoin pour tout révéler au public !

michael salla mars: Programmes spatiaux secrets et alliances extraterrestres Michael E.

Salla, 2017-12-01T00:00:00-05:00 Les programmes spatiaux secrets font partie intégrante d'un puzzle complexe concernant les ovnis, la vie extraterrestre, les anciennes civilisations et les technologies aérospatiales avancées, un casse-tête qui a longtemps échappé à toute compréhension cohérente. Nous disposons enfin d'informations permettant d'en rassembler toutes les pièces grâce, en particulier, aux divulgations d'un dénonciateur des programmes spatiaux secrets, Corey Goode. Un examen détaillé des témoignages de Goode et d'autres initiés révèle l'ensemble du tableau : un monde parallèle de programmes spatiaux secrets et d'alliances extraterrestres. Dans ce livre, vous apprendrez comment, au cours des années 1930, les programmes de la Société du Vrïl et des nazis leur ont permis d'accéder à une technologie d'antigravité et même de construire des vaisseaux utilisant cette technologie ; comment les scientifiques américains de l'opération Paperclip ont rapatrié après la guerre cette technologie et ont développé le programme spatial Solar Warden de l'US Navy ; comment le groupe MJ-12 fut à l'origine de la création d'un conglomérat impliquant d'autres planètes ; et comment s'est développé le programme de la Ligue globale des nations. En fait, un ensemble d'éléments est présenté ici, révélant au grand jour l'ampleur de ces programmes spatiaux secrets. Enfin, vous découvrirez l'existence de l'Alliance des Êtres des sphères et comment celle-ci aide l'humanité à se libérer de certaines forces de contrôle extraterrestres. La divulgation complète des programmes spatiaux secrets et des alliances extraterrestres mettra fin à la grande tromperie qui empêche l'humanité de réaliser tout son potentiel pour faire de nous de vrais citoyens galactiques.

michael salla mars: CIVILISATION SUR MARS Jean leDuc, 2015-04-21 Il peut paraître étrange dans un contexte chrétien et biblique de parler de civilisation sur la planète Mars. Le sujet semble plutôt être du niveau de la fiction que de la réalité, mais nous devons faire face aux évidences de découvertes récentes qui ne peuvent être négligées et demandent une explication. Il ne faut pas

succomber à la crainte de l'inconnu ou mettre sa tête dans le sable comme l'autruche dans le but d'en refuser la possibilité. Pour certains qui se disent chrétiens, ce sujet est complètement tabou et ils n'hésitent pas à le condamner comme étant une doctrine dangereuse, diabolique et démoniaque, une séduction hollywoodienne conçue pour séduire les faibles. Peut-être s'imaginent-ils que Satan y habite avec ses cohorte de démons ?

michael salla mars: Programmes spatiaux secrets et alliances extraterrestres, tome 5 Michael E. Salla, 2021-09-15T15:06:00-04:00 Le 5 septembre 2019, à l'occasion d'une séance de travail sur les perspectives d'avenir de l'espace organisée par le Commandement spatial de la Force aérienne des États-Unis, l'évolution de la situation spatiale jusqu'en 2060 fut analysée. Des huit scénarios possibles, positifs ou négatifs, qui en découlèrent, le plus favorable fut celui d'un « avenir à la Star Trek » qui verrait les pays possédant un programme spatial constituer une alliance multinationale et collaborer dans l'espace sur les plans civil, militaire et commercial. Aujourd'hui, l'émergence de la Force spatiale, la signature des accords Artemis et la création du centre spatial OTAN promettent d'être les leviers de ce scénario à la Star Trek. Mais en raison de l'existence des programmes spatiaux rivaux et peu coopératifs de la Chine et de la Russie, un tel avenir n'a rien d'une certitude. L'un l'autre ou les deux pays pourraient-ils déclencher un Pearl Harbor spatial apte à totalement détruire le système GPS des États-Unis, ainsi que le prédisent il y a vingt ans les experts de la Commission de l'espace ? Et que devons-nous penser des électrons libres que sont les nombreux programmes spatiaux secrets dotés de véhicules antigravitationnels développés par rétro-ingénierie à partir de vaisseaux extraterrestres récupérés ? Leur existence n'est pas officiellement reconnue par les grandes puissances, mais leurs activités spatiales posent des défis majeurs à un avenir à la Star Trek. La Force spatiale sera-t-elle en mesure d'intégrer les programmes spatiaux secrets américains ou ces programmes et leurs équivalents étrangers feront-ils obstacle à ses opérations futures ? Il faut se demander ultimement comment l'existence d'une vie extraterrestre entrera en ligne de compte dans les activités d'une Force spatiale de nations alliées et la présence de l'humanité dans l'espace jusqu'aux confins de notre système solaire et même au-delà. Force spatiale - Pour une alliance des nations apporte des réponses à ces questions et à tant d'autres interrogations essentielles au sujet de l'émergence prochaine de l'humanité sur la scène interplanétaire.
