most evil historical figures: *The Common Excuses of the Comfortable Compromiser* Matt Crossman, 2012-12-16 Comfortable compromisers block the way of anyone trying to change anything. This is your field guide to their common excuses. Now you can recognise them, understand them and overcome their opposition. We live in the age of the compromiser. Political, business and personal life all echo with the sound of compromise. We know we need to change, but we can't because we fear we have too much to lose. This is a fundamental paradox facing human society. Comfortable compromisers often control the most significant power bases and since the current situation serves them well, they have little interest or incentive to listen to arguments for change. Reading *The Common Excuses of the Comfortable Compromiser* you will find yourself identifying with both compromiser and advocate for change, and gain a fresh insight into the need for innovative and pristine ideas on which to base our interactions as a society.

most evil historical figures: Haunts of the White City Ursula Bielski, 2020-07-31 The author of *Chicago Haunts* explores historical reports of ghosts, the curse of H.H. Holmes, and other dark tales from the Windy City. At the close of the nineteenth century, Chicago offered the world a glimpse of humanity's most breathtaking possibilities—and its most jaw-dropping horrors. Even as the White City emerged from the ashes of the Great Fire, serial killers like H.H. Holmes stalked the sparkling new boulevards and tragic accidents plagued the factories, slums and railroads that powered the churn of industrial innovation. In other words, amid the city's shining achievements, there were a lot of ghosts. Demons, mesmerists and birds of ill omen preyed on the unwary from the shadows. Ship captains spoke to the dead, while undertakers discovered reanimated corpses no longer requiring services. From posh mansions built on massacre grounds to the drowned quarries of a forest preserve, Chicago historian Ursula Bielski reveals the many hauntings and unexplained phenomena hidden within the Second City.

most evil historical figures: **The Model of Revelation Knowledge** B. J. Sifon, 2022-11-03 Have you ever wondered what you were before you were born or what will happen after you dematerialize away in death from this physical dimension? Quite often, one part of your mind tells you that after you die, you are going to be judged by God and after the judgment, you will spend the rest of your existence in an uncomfortable place called hell or a place of pleasure called heaven. The question is: how exactly did Christ define our existence? To understand our true nature, we have analyzed many important statements made by Christ concerning this issue. This nature reveals our true identities in the spirit—what we really are, what we are capable of, where we came from, and where we're heading. As spiritual individuals, we have also tapped into the realm of the spirit by making it substantial, to get answers not just to everything in existence but also to things unheard of. In this record, the author reflects on his spiritual identity.

most evil historical figures: *Common Sense Law Enforcement Leadership* Gerald W. Garner, 2025-08-25 Author Garner provides advice from his numerous books for aspiring sergeants, first-line supervisors, law enforcement mid-managers, and police chiefs, which can all be found here, along with a lot of new information. These different leadership ranks have enough in common that a single book would be of value to each of them. That is, of course, if the book contained practical advice that the law enforcement leader could apply to the challenges they face virtually every shift. This is intended to be that book. It recognizes that, while many leadership issues are the same regardless of

the rank of the leader, some of the challenges faced by the sergeant are not identical to the ones confronted by the chief or sheriff. While advice applicable to every rank is furnished in each chapter, each chapter also addresses the different issues encountered at each leadership level. Hopefully, all that helpful advice emphasizes practical application, not theory. After all, that is what common sense is all about. You will draw heavily upon your training, knowledge, and experience to do that. To be truly effective in your quest, you must add a healthy dose of common sense to these things. This book will aid you immeasurably by relating the experiences – good and bad – of other law enforcement leaders. The information provided is not based on theory but on actual practice. A solid core of common sense supports it. The book will also help you take care of yourself by offering time-proven advice on working for someone, handling bad events, when and how to ask for help, and surviving the hazards of your position. This book is about helping you do your important job extremely well while living to enjoy great satisfaction from your accomplishments. It's all about being a leader with common sense. It's about you.

most evil historical figures: Born in Chains Clinton Chauke, 2018-05-15 What is it like to be born dirt-poor in South Africa? Clinton Chauke knows, having been raised alongside his two sisters in a remote village bordering the Kruger National Park and a squatter camp outside Pretoria. Clinton is a young village boy when awareness dawns of how poor his family really is: there's no theft in the village because there's absolutely nothing to steal. But fire destroys the family hut, and they decide to move back to the city. There he is forced to confront the rough-and-tumble of urban life as a 'bumpkin'. He is Venda, whereas most of his classmates speak Zulu or Tswana and he has to face their ridicule while trying to pick up two or more languages as fast as possible. With great self-awareness, Clinton negotiates the pitfalls and lifelines of a young life: crime and drugs, football, religion, friendship, school, circumcision and, ultimately, becoming a man. Throughout it all, he displays determination as well as a self-deprecating humour that will keep you turning the pages till the end. Clinton's story is one that will give you hope that even in a sea of poverty there are those that refuse to give up and, ultimately, succeed.

most evil historical figures: John William McCormack Garrison Nelson, 2017-03-23 In the first biography of U.S. House Speaker John W. McCormack, author Garrison Nelson uncovers previously forgotten FBI files, birth and death records, and correspondence long thought lost or buried. For such an influential figure, McCormack tried to dismiss the past, almost erasing his legacy from the public's mind. John William McCormack: A Political Biography sheds light on the behind-the-curtain machinations of American politics and the origins of the modern-day Democratic party, facilitated through McCormack's triumphs. McCormack overcame desperate poverty and family tragedy in the Irish ghetto of South Boston to hold the second-most powerful position in the nation. By reinventing his family history to elude Irish Boston's powerful political gatekeepers, McCormack embarked on a 1928 - 1971 House career and from 1939-71, the longest house leadership career. Working with every president from Coolidge to Nixon, McCormack's social welfare agenda, which included Social Security, Medicare and Medicaid, immigration reform, and civil rights legislation helped commit the nation to the welfare of its most vulnerable citizens. By helping create the Austin-Boston Connection, McCormack reshaped the Democratic Party from a regional southern white Protestant party to one that embraced urban religiously and racially diverse ethnics. A man free of prejudice, John McCormack was the Boston Brahmin's favorite Irishman, the South's favorite northerner, and known in Boston as Rabbi John, the Jews' favorite Catholic.

most evil historical figures: What Is Wrong with Black People? - How Post-slave Psychology and Afrocentricity are Joining with Colonialism to Undermine Black Africa's Cultural Integrity Joe Mintsa, 2007-12-24 The mood in the world today is such that either you believe that Black people are natural slaves, or you believe that White people are evil by nature. In

either case, you are in a stalemate: you can't change nature, can you? -- Yet, not only is it very improbable for someone to turn up slave or evil just by nature; it is neither demonstrable that evil is conditioned by skin colour. The question, here, is: why should evil be White; and why should evil's target be Black? In other words, what is wrong with evil always tending to choose Black? In fact, the actual question is: what is wrong with Black people always tending to be evil's preferred targets? -- This book simply personifies a totally different type of intuition, where the most unsuspected a yet, the most damning a causes of the suffering and the struggles of Africans in today's world are not only laid open with courage, but also resolved with vision.

most evil historical figures: Hasidism and Modern Man Martin Buber, 2015-10-27

Hasidism, a controversial, mystical-religious movement of Eastern European origin, has posed a serious challenge to mainstream Judaism from its earliest beginnings in the middle of the eighteenth century. Decimated by the Holocaust, it has risen like a phoenix from the ashes and has reconstituted itself as a major force in the world of ultra-Orthodox Judaism. Philosopher Martin Buber found inspiration in its original tenets and devoted much of his career to making its insights known to a wide readership. First published in 1958, *Hasidism and Modern Man* examines the life and religious experiences of Hasidic Jews, as well as Buber's personal response to them. From the autobiographical *My Way to Hasidism*, to *Hasidism and Modern Man*, and *Love of God and Love of Neighbor*, the essays span nearly half a century and reflect the evolution of Buber's religious philosophy in relation to the Hasidic movement. *Hasidism and Modern Man* remains prescient in its portrayal of a spiritual movement that brings God down to earth and makes possible a modern philosophy in which the human being becomes sacred.

most evil historical figures: Awaken the Power Within Albert Amao, 2018-06-05 The \$12 billion self-help industry is under constant attack for pedaling false miracles to duped believers. But sociologist Albert Amao demonstrates that Americans eagerly support self-help books, seminars, and programs because, under the right conditions, these things work. Sociologist Albert Amao analyzes the accuracy of self-help and positive-thinking claims in this groundbreaking--and wholly unexpected--exploration of what works, what doesn't, and why. Regarding my personal experience, Amao writes, I can testify that positive thinking and positive action have worked wonderfully for me. Born in a poor Latin-American country into a very impoverished family with both parents practically illiterate, I was the oldest of five children. I started working when I was six years old, shining shoes and selling newspapers to help my family. Nobody then would have believed that I would be able to finish high school. Nevertheless, I was able to do it going to night school, which allowed me to be admitted at the San Marcos University in Lima to get my Ph.D. in sociology. All these things were possible because, when I was teenager, I had access to New Thought, or positive-thinking philosophy. Contrary to the critics who blithely dismiss self-help methods, or the New Age gurus who sell it them as miracles, Amao--writing with sobriety, scholarship, and drawing on deep personal experience--explores the conditions under which self-help is authentic.

"Meet Arthur Banks, a wise gentleman, nearly 80, retired Navy chaplain, who has been a friend to George Farmer and his sons all his life." "However, after George passed away, Arthur experienced a long absence from the Farmer family, and he is stunned, when, suddenly, he receives a phone call from Nick Farmer, George's youngest son, and his godson." "Although Nick has called primarily to say hello to his old friend, he's expressed to Arthur that he's having a serious health problem, and that he, his wife and children now reside up on the coast highway in a small town called Sinnerville. Nick

is coming down to 'Frisco for some tests the following week and he may be able to stop and see Arthur." "Although Arthur was gladly anticipating Nick's visit, nothing ever came of it. Therefore, Arthur telephones Nick to plan a trip to Sinnerville to meet his family and visit Nick about his illness. "Arthur makes the 5 1/2 trip to Sinnerville and learns that everything appears to be fine with Nick and his family. Nick's problem seems to stem from something terrible going on at the Post Office, where he works, but Arthur feels sure things will all settle down and work out. He promises his constant support and prayers, whatever happens." "However, a few days later, while Arthur has been home, he receives another sudden call, this time from Nick's wife, Darlene, whom he has just met. She wants Arthur to return ASAP, as Nick is reportedly acting suicidal." "With tremendous concern, Arthur advises Darlene to remove all the weapons from the property, if she can do so safely.. and he promises to return as soon as he can work out his travel plans." "When he does return to Sinnerville, Nick's health had visibly declined; he is in a dark, confused mood. Nick attempts to explain what's been going on at work, but it all seems quite unbelievable. However, Darlene agrees that it is exactly as her husband has said. Therefore, Arthur plans to look into the matter on their behalf, if they'll allow it." **** "This is a story of friendship, hope and courage, as Nick and Darlene's fates unravel before our eyes. Arthur learns something about evil from the small town of Sinnerville and its people; but in spite of them, he carries on to act courageously, to try to help, and later, to try to locate and rescue, his lifelong friend, and his family. You may wish you had a friend like Arthur Banks, who is persistent to the end. You may wish you had his courage and his grit, in difficult times.
