old man giant wings: Flannery O'Connor in the Age of Terrorism Avis Hewitt, 2010-07-28 In any age, humans wrestle with apparently inexorable forces. Today, we face the threat of global terrorism. In the aftermath of September 11, few could miss sensing that a great evil was at work in the world. In Flannery O'Connor's time, the threats came from different sources—World War II, the Cold War, and the Korean conflict—but they were just as real. She, too, lived through a “time of terror.” The first major critical volume on Flannery O'Connor's work in more than a decade, *Flannery O'Connor in the Age of Terrorism* explores issues of violence, evil, and terror—themes that were never far from O'Connor's reach and that seem particularly relevant to our present-day setting. The fifteen essays collected here offer a wide range of perspectives that explore our changing views of violence in a post-9/11 world and inform our understanding of a writer whose fiction abounds in violence. Written by both established and emerging scholars, the pieces that editors Avis Hewitt and Robert Donahoo have selected offer a compelling and varied picture of this iconic author and her work. Included are comparisons of O'Connor to 1950s writers of noir literature and to the contemporary American novelist Cormac McCarthy; cultural studies that draw on horror comics of the Cold War and on Fordism and the American mythos of the automobile; and pieces that shed new light on O'Connor's complex religious sensibility and its role in her work. While continuing to speak fresh truths about her own time, O'Connor's fiction also resonates deeply with the postmodern sensibilities of audiences increasingly distant from her era—readers absorbed in their own terrors and sense of looming, ineffable threats. This provocative new collection presents O'Connor's work as a touchstone for understanding where our culture has been and where we are now. With its diverse approaches, *Flannery O'Connor in the Age of Terrorism* will prove useful not only to scholars and students of literature but to anyone interested in history, popular culture, theology, and reflective writing.

Jack has caused an earthquake. He was trying to save his sister Lucy from being thrown down a well, but sometimes the magic doesn't quite work out. Not only does Jack demolish a monastery, but Lucy is carried off by the Lady of the Lake, and Jack has to follow her through the Hollow Road, which lies underground. Aided by Pega, a slave, and the berserker Thorgil, Jack encounters hobgoblins, kelpies, yarthkins, and elves—not the enchanted sprites one would expect, but fallen angels who steal human children for pets. In the eighth century, the world is caught between belief in the Old Gods and Christianity, and what Jack and his companions do will decide the fate of both religions. From National Book Award winner Nancy Farmer, this second book in the Sea of Trolls trilogy brilliantly enlarges the world of the first story. Look for the conclusion in The Islands of the Blessed.
