paris bennett career: Making Love Modern Nina Miller, 1999-01-21 In the teens and twenties, New York was home to a rich variety of literary subcultures. Within these intermingled worlds, gender lines and other boundaries were crossed in ways hardly imaginable in previous decades. Among the bohemians of Greenwich Village, the sophisticates of the Algonquin Round Table and the

literati of the Harlem Renaissance, certain women found fresh, powerful voices through which to speak and write. Edna St. Vincent Millay and Dorothy Parker are now best remembered for their colorful lives; Genevieve Taggard, Gwendolyn Bennett and Helene Johnson are hardly remembered at all. Yet each made a serious literary contribution to the meaning of modern femininity, relationship, and selfhood. *Making Love Modern* uncovers the deep historical sensitivity and interest of these women's love poetry. Placing their work in the context of subcultures nested within national culture, Nina Miller explores the tensions that make this literature so rewarding for contemporary readers. A poetry of intimate expression, it also functioned powerfully as public assertion. The writers themselves were high-profile embodiments of femininity, the local representatives of New Womanhood within their male-centered subcultural worlds. *Making Love Modern* captures the literary lives of these women as well as the complex subcultures they inhabited---Harlem, the Village, and glamorous Midtown. In the end, the book is as much a study of modernist New York as of women's love poetry during modernism.

Looking at how images of sex, crime, and sports reflected and shaped masculinities during this watershed era, this book amounts to a story of what it meant to be an American man at the beginning of the American Century.

It is based primarily on a day to-day study of sixteen daily newspapers in New York City for the period of American non-participation in the First World War. The research involved not only editorial opinion but also news items, feature articles, letters to the editor, book reviews and special commentary. The files of the major New York newspapers of the period naturally constituted the basic sources. In addition to this, use was made of the memoirs, diaries and private papers of editors, publishers and other public figures; the Congressional Record, 1914-1917; Congressional hearings and reports, 1915, 1919, 1936 and 1937; certain British and German materials; books, articles and other secondary sources. The author also drew upon the recollections of New Yorkers active in journalism during the period.

paris bennett career: *Edwin Rickards* Timothy Brittain-Catlin, 2023-11-01 Edwin Rickards was the most flamboyant of Edwardian architects: his buildings were said by John Summerson to fizz like champagne. During a short working life, launched at the age of 25 by winning the competition to design Cardiff City Hall with his partners H.V. Lanchester and James Stewart, he completed four spectacular baroque buildings. Rickards' work was unique in Edwardian architecture for his personal combination of French and especially Austrian sources. Working closely with H.C. Fehr and Henry Poole, leading practitioners of the New Sculpture, he designed two of the major monuments of the period. As well as being one of the best freehand draughtsmen in London, he was also a prodigious caricaturist. With a foot in the demi-monde and an endless appetite for architectural and personal adventure, Rickards was an unforgettable figure to everyone who met him. Illustrated throughout with stunning new photography by Robin Forster and by Rickards' own sketches and drawings, this book portrays his close friendship with the novelist Arnold Bennett who described him, along with H.G Wells, as one of 'the two most interesting, provocative, and stimulating men I have yet encountered', and his meteoric career that ended with his early death.

paris bennett career: *Body as Evidence* Janell Hobson, 2012-10-11 In *Body as Evidence*, Janell Hobson challenges postmodernist dismissals of identity politics and the delusional belief that the Millennial era reflects a postracial and postfeminist world. Hobson points to diverse examples in cultural narratives, which suggest that new media rely on old ideologies in the shaping of the body politic. *Body as Evidence* creates a theoretical mash-up of prose and poetry to illuminate the ways that bodies still matter as sites of political, cultural, and digital resistance. It does so by examining various representations, from popular shows like *American Idol* to public figures like the Obamas to high-profile cases like the Duke lacrosse rape scandal to current trends in digital culture. Hobson's study also discusses the women who have fueled and retooled twenty-first-century media to make sense of antiracist and feminist resistance. Her discussions include the electronica of Janelle Monáe, M.I.A., and Björk; the feminist film odysseys of Wanuri Kahiu and Neloufer Pazira; and the embodied resistance found simply in raising one's voice in song, creating a blog, wearing a veil, stripping naked, or planting a tree. Spinning knowledge out of this information overload, Hobson offers a global black feminist meditation on how our bodies mobilize, destabilize, and decolonize the

meanings of race and gender in an increasingly digitized and globalized world.
