persian girls for marriage: *Persian Girls* Nahid Rachlin, 2007-12-27 For many years, heartache prevented Nahid Rachlin from turning her sharp novelist's eye inward: to tell the story of how her own life diverged from that of her closest confidante and beloved sister, Pari. Growing up in Iran, both refused to accept traditional Muslim mores, and dreamed of careers in literature and on the stage. Their lives changed abruptly when Pari was coerced by their father into marrying a wealthy and cruel suitor. Nahid narrowly avoided a similar fate, and instead negotiated with him to pursue her studies in America. When Nahid received the unsettling and mysterious news that Pari had died after falling down a flight of stairs, she traveled back to Iran--now under the Islamic regime--to find out what happened to her truest friend, confront her past, and evaluate what the future holds for the heartbroken in a tale of crushing sorrow, sisterhood, and ultimately, hope.

persian girls for marriage: From the Shahs to Los Angeles Saba Soomekh, 2012-11-01 Saba Soomekh offers a fascinating portrait of three generations of women in an ethnically distinctive and little-known American Jewish community, Jews of Iranian origin living in Los Angeles. Most of Iran's Jewish community immigrated to the United States and settled in Los Angeles in the wake of the 1979 Iranian Revolution and the government-sponsored discrimination that followed. Based on interviews with women raised during the constitutional monarchy of the earlier part of the twentieth century, those raised during the modernizing Pahlavi regime of mid-century, and those who have grown up in Los Angeles, the book presents an ethnographic portrait of what life was and is like for Iranian Jewish women. Featuring the voices of all generations, the book concentrates on religiosity and ritual observance, the relationship between men and women, and women's self-concept as Iranian Jewish women. Mother-daughter relationships, double standards for sons and daughters, marriage customs, the appeal of American forms of Jewish practices, social customs and pressures, and the alternate attraction to and critique of materialism and attention to outward appearance are discussed by the author and through the voices of her informants.

persian girls for marriage: The Boarding School Girls Soosan Latham, Roya Ferdows, 2017-09-06 They were children. Put on a train in a strange land, they waved goodbye to a parent as they headed to an educational institution that, unbeknownst to them, was to become their new home. Separated from their loving families, they strived to meet the expectations of the grownups and, in some cases, to rebel against them. Now, independent women, compassionate mothers, and astute professionals, they look back on their youth in the 1960's and 1970's to make sense of why they were sent away, and to give meaning to the sources that have sustained them over the years. Ex-boarders themselves, Latham and Ferdows provide vivid and emotionally embodied narratives of everyday lives of The Boarding School Girls. This unique collection of stories explores key issues of identity and lifespan development to seek understanding of the influence of national, religious and family culture on development within two conflicting sets of cultural values. Combining unique qualitative data with illuminating tales of resilience and accomplishment in what is likely to simultaneously inform and inspire readers with feelings of joy and sadness, love and hate, abandonment and hope, but mainly trust and forgiveness. The stories of eleven 'little rich' Persian girls are a nostalgic reminder of their past cross-cultural ordeals, a pragmatic perspective on psychological implications of boarding school education in England, and a celebration of the

possibilities of the future. The Boarding School Girls is valuable reading for students in cultural, developmental and educational psychology and the humanities, as well as clinical psychologists and educators looking at the impact of boarding school on adolescent development.

persian girls for marriage: *Rethinking Gender, Ethnicity and Religion in Iran* Azadeh Kian, 2023-07-13 Winner of the Latifeh Yarshater book prize 2024 Covering the Pahlavi modern nation-state as well as the Islamic regime, this book examines the crucial shifts that affected Sunnite and subaltern women once Shi'ism became the state religion after the Iranian Revolution. Focusing on women in the Baluchistan and Golestan provinces of Iran, Azadeh Kian analyses and explores issues of cultural racialization, ethno-centrism, Shi'a centrism, and patriarchal and chauvinistic ideologies in Iranian society propagated by the state and sustained by its policies. Based on quantitative and qualitative surveys taken throughout Iran, comprised of over 7,000 married women and 100 interviews with a sample of Sunnite and subaltern Persian women, Kian reveals how social hierarchy and power relations based on gender, class, ethnicity and religion operate. She argues that women have been at the heart of the process of national and ethnic re-construction as women, as potential mothers, are expected to reproduce national and ethnic boundaries. Kian argues that by examining the family institution as a site of power, analysing family dynamics as well as women's everyday lives, the politics of ordinary Iranians and the relationship between state and society can be better understood. Kian argues that the time is ripe to achieve a non-hegemonic definition of Iranian national identity, through acknowledgement of gender, class, ethnic, and religious diversity and plurality of experiences of oppression and injustice.

persian girls for marriage: *Genealogical History in the Persianate World* Jo-Ann Gross, Daniel Beben, 2025-06-26 Scholarship on the Muslim world has recently begun to pay increased attention to non-literary genres of documentation as sources for historical research. Genealogical writings are one form of such documentation that has demonstrated significant potential for addressing a wide range of research concerns, particularly for topics that receive little attention in historical chronicles and other state-centered narrative sources. However, while genealogical documentation has received some attention in scholarship on the Arab world, it remains mostly unstudied in scholarship on Persianate societies. The chapters in this book offer reflections on theoretical and methodological issues concerning the study of genealogical documentation, combined with case studies based primarily on previously unpublished, unstudied source materials. The topics explored span the full breadth of the Persianate world, from Anatolia to the Ferghana Valley in Central Asia to the Gujarat region of India, utilizing sources dating from the fourteenth to the twentieth century. The book will be of significant interest to scholars and students of Islamic history and the Persianate ecumene as well as readers in other fields interested in comparative research demonstrating the use of genealogical documentation as historical sources.

persian girls for marriage: *Mental Utopia* Michael Clemons, 2012-07-24 From my experiences at the factory to my time in the military, as well as my history as a student at the University of Cincinnati (1979-1984) and the Community College Southern Nevada (2003-2004) and Cincinnati State Technical College (2006-2007), and as a reader of Futurist magazine and New Scientist magazine, I feel I must live a life of dedication to the evolution of not only the bourgeoisie of the Earth, but also of those who take it upon themselves to live the role of a leader and enlighten all societies to see that there are no born aristocrats, and that there are no guaranteed obstacles to

people becoming leaders in not only their chosen field, but leaders in empiricist manner of thought for success in many areas of life. I chose to live a life of someone who wants to see that all societies are prepared for upkeep of Western-style societies, and not sophist enough to weigh their decisions about who has value to their or any society on race, flag, and religious icons/idols. My book, *Mental Utopia*, will show how not to let those that adhere to the parochial, whatever social conduct that is, blind people to rational thought. Those said to be rich are not guaranteed empiricists. Why should you believe the word of a person said to be an authority figure is guaranteed coming from an empirical, rational-minded person, by mere reason of that so-called authority having degrees or letters? *Mental Utopia* will offer a way to perpetual happiness. *Mental Utopia* needs to be offered in high school and college/university curriculums the world over. I have enjoyed peace of mind for over thirty years because of the lessons I give to you in *Mental Utopia*.

persian girls for marriage: *The Inquiring Reader* Idelle Sullens, Edith Karas, Raymond Fabrigio, 1974 Collections of readings for college English students appear in more abundance every year, and the instructor who opens this one with *Ho hum*, another anthology will echo his colleagues everywhere. Among our most compelling reasons for writing it was the desire to read some new material with our students, and we hope that it will be stimulating to other seasoned instructors and to their unseasoned students as well. The majority of selections in this anthology are interesting contemporary materials, many of them reprinted here for the first time. But there are also certain old stories, essays, and poems so dear to us that we could not leave them out. They are classic statements of their kind, the pieces that some of us feel we must continue to present to every class, partly because nothing better has been written to take their place.
