relias healthcare training: The Autism Industrial Complex Alicia A. Broderick, 2022-01-12
A 2023 SPE Outstanding Book Award Winner Autism—a concept that barely existed 75 years ago—currently feeds multiple, multi-billion-dollar-a-year, global industries. In *The Autism Industrial Complex: How Branding, Marketing, and Capital Investment Turned Autism into Big Business*, Alicia A. Broderick analyzes how we got from the 11 children first identified by Leo Kanner in 1943 as “autistic” to the billion-dollar autism industries that are booming today. Broderick argues that, within the Autism Industrial Complex (AIC), almost anyone can capitalize on—and profit from—autism, and she also shows us how. The AIC has not always been there: it was built, conjured, created, manufactured, produced, not out of thin air, but out of ideologies, rhetorics, branding, business plans, policy lobbying, media saturation, capital investment, and the bodies of autistic people. Broderick excavates the 75-year-long history of the concept of autism, and shows us how the AIC—and indeed, autism today—can only be understood within capitalism itself. *The Autism Industrial Complex* is essential reading for a wide variety of audiences, from autistic activists, to professionals in the autism industries, to educators, to parents, to graduate students in public policy, (special) education, psychology, economics, and rhetoric. relias healthcare training: Legal and Ethical Issues for Health Professionals with Navigate

Advantage Access George D. Pozgar, 2023-03-31 Legal and Ethical Issues for Health Professionals, 6th Edition, has been designed to assist the reader in a more comfortable transition from the didactics of the classroom to the practical application in the workplace. The 6th Edition provides the reader with a clearer understanding of how the law and ethics are intertwined as they relate to health care dilemmas. The 6th Edition, as with previous editions, has been designed to introduce the reader to various ethical-legal issues and should not be considered an in-depth or comprehensive review of a particular ethical-legal issue. The book is a call to arms to do good things, to stand out from the crowd, because acts of caring, compassion, and kindness often go unnoticed.

relias healthcare training: Breaching Safe Nursing Practice Zane Robinson Wolf, Denise Nagle Bailey, 2022-07-29 This book addresses selected violations of professional nursing conduct and practices that take place in shadows or on the margins of clinical practice--incidents that represent dark or gray areas of nursing. Chapters identify threats to patient and nurse well-being that are antithetical to nurses' principles; sensitize nurses and other stakeholders to gray and dark sides of nursing through case examples; and pose evidence-based solutions for eliminating, mitigating, and addressing examples representing the gray or dark side of nursing. The book encourages organizations to promote a culture of ethical responsibility for nursing practices.

relias healthcare training: Reproduction and Society Carole Joffe, Jennifer Reich, 2025-05-30 The new edition of Reproduction and Society assembles an authoritative collection of the best scholarship on reproductive matters to help students and readers think critically and more expansively about acts of reproduction as social phenomena. The social, political, and personal meanings of reproduction have become increasingly important and surround us in the news, during elections, and even within popular culture. In the aftermath of the United States Supreme Court's decision to overturn a nearly 50-year-old precedent guaranteeing a constitutional right to abortion, these issues have become even more pressing. Exploring the topic from a sociological lens, and drawing on influential writing from other fields, including history, economics, anthropology, and medicine, editors Carole Joffe and Jennifer Reich are assured and accessible guides as they lead readers across six core thematic areas analyzing reproductive self-determination and why it matters. From a reproductive justice perspective, the new edition examines issues related to contraception and sterilization, abortion, pregnancy, maternal-fetal conflicts, and uses of reproductive technologies. Readers will encounter classical texts that have contributed to the foundation of this exciting field, as well as more recent research that continues to push the field forward, all in the service of sharpening their understanding of why reproductive politics have been and continue to be contentious, complicated, and high stakes. Refreshed and significantly expanded, with over two dozen new selections, the second edition of this reader will have wide appeal for undergraduate and graduate students who are new to the study of reproduction, both in courses that focus on the topic across different disciplines and as a supplement to courses on the family, gender, health care, social problems, and sexuality.

relias healthcare training: Connecting Care for Patients: Interdisciplinary Care Transitions and Collaboration Barbara Katz, 2018-10-29 Connecting Care for Patients: Interdisciplinary Care Transitions and Collaboration addresses practical strategies for creating connected, seamless, and transparent health care for patients in settings outside of the hospital. It presents antidotes to healthcare fragmentation caused by inefficient care, patient safety problems, patient dissatisfaction, and higher costs. The text focuses on clinical case management, interdisciplinary referrals and conferencing, cross functional team meetings, tracking patients in value-based purchasing programs, inpatient liaison visits, structured collaboration with physician groups, and referral sources and development of clinical community networking groups. Further, it explores tools for patient self-management support, effective integration of technology, family caregiver engagement, and techniques for addressing health disparities and other high-risk care gaps.

relias healthcare training: A Companion to Doing Ethics Alan A. Preti, Timothy A. Weidel, 2025-07-25 A comprehensive guide to practicing ethics across disciplines and contexts in the 21st century In an era of rapid technological advancements and complex societal challenges, A

Companion to Doing Ethics is a vital resource for understanding and navigating the multifaceted role of ethics today. Edited by Alan A. Preti and Timothy A. Weidel, this timely volume explores how ethics has evolved from traditional academic theory into a multidisciplinary practice with real-world applications. Contributions from leading scholars and professionals working in diverse fields, including healthcare, business, public policy, and education, illuminate the dynamic ways ethics is applied in modern contexts. Whether an ethicist working in a university, a member of a hospital ethics board, or a leader at an applied humanities center, the Companion is your indispensable reference and guide. In-depth chapters address a broad range of vital topics—from the role of public philosophy to the need for ethics education in shaping responsible decision making—while offering a rich, interdisciplinary perspective on the challenges and responsibilities of ethical work. Providing insights into what it means to practice ethics in today's world by those actively engaged in the field, A Companion to Doing Ethics: Explores the expanding role of ethics across academic, professional, and public contexts Highlights non-Western and global approaches to ethical practice Examines the function and impact of ethics centers and applied humanities institutions Offers insights into the integration of ethics education across diverse curricula Features multidisciplinary case studies illustrating real-world ethical applications Part of the prestigious Blackwell Companions to Philosophy series, A Companion to Doing Ethics is essential reading for advanced undergraduate and graduate courses in ethics, applied philosophy, and public policy. It is also an invaluable resource for ethics center directors, healthcare ethics board members, business leaders, and educators seeking to deepen their understanding of contemporary ethical practice.
