secret language of birthdays people: 13 Sun Signs of the Zodiac Dr. Regina Atara Wead, 2014-10-29 Using the Sidereal Zodiac, like Nostradamus, an astrologer and metaphysician shares her insight about the blending of Eastern and Western astrology in The Zodiac Conspiracy. This book underscores the omission of Ophiuchus, a major constellation that the Greeks left off the tropical zodiac wheel. It includes a brief section on Ophiuchus, the only constellation named after a real man named Imhotep. The 13 Sun Signs of the Zodiac outlines the differences between popular tropical astrology (that you read in the daily horoscopes) and the science/astronomy of sidereal astrology. This book merges the sidereal and tropical systems to help us understand how the tropical zodiac represents who we are learning to be, while the sidereal zodiac represents who we really are. Rev.Dr. Martin Luther King Jr. was really a Sagittarian (The Seeker) who was learning how to be a

Capricorn goat, climbing up the mountain to become The Achiever. Jesus was probably born under the sign of Virgo to a virgin mother. However, he was really a Libra (The Peacemaker) who was learning how to be a Virgo (The Selfless Servant). All of this and much, much more is explained in this extraordinary book **13 Sun Signs of Zodiac**.

secret language of birthdays people: *The Zodiac Conspiracy* Atara, Dr Atara, 2011-11 The appearance of an astronomer, who was discussing the 13th constellation on national TV last year, caused a huge outcry from the public. The big question was, How can my sun sign be different? Many people concluded that the astronomer did not know what he was talking about! People wanted to know how their Sun sign could be different than what they had been told all these years. Actually, the astronomer was very correct; he was telling everyone the truth as indicated by the science of astronomy, which the psychological art of astrology is based upon. There are 13 constellations and has always been 13. This is why the book also features a section on Ophiuchus, which is the 13th constellation and the only constellation/sign named after a human being, Imhotep an African Egyptian. There has been a conspiracy of silence among Western astrologers to misrepresent the history of astrology and ignore the truth of astronomy. Since astrologers did not adhere to the science of astronomy, as dictated by the constellations, they created an alternative paradigm called the Koch zodiac system, which only acknowledges 12 constellations and therefore 12 signs. Astrologers who live in the Eastern part of the world practice the truth of astronomy by using the Sidereal zodiac system. Most people in the Western world actually believe that on January 1st their Sun sign is Capricorn. However, the truth is that the Sun is actually in the constellation of Sagittarius. This is the truth of astronomy and the sidereal zodiac system. So, if you were born on January 1st (of any year) your Real Sun Sign is Sagittarius (not Capricorn). This book shows everyone (who wants to continue believing in their old sign, while embracing the truth of their Real Sun Sign), how to blend these two systems, so that who you REALLY ARE and what you are destined to learn about yourself, is anchored in the truth. It is a gentle reminder that you are not living your most authentic self. Are you the Virgo, Selfless Servant or Aquarius, The Giver? Read, the *Zodiac Conspiracy* and be introduced to the truth and Your Real Sun Sign.

secret language of birthdays people: Breathing oxygen, free from Long Covid Harold Lee, 2024-10-15 Western medicine provides valuable insights into the anatomy of the human body and hormonal functions, Eastern medicine offers a different perspective. It focuses on the role of unseen forces such as viruses, lymph fluids, plasma, and oxygen, which often go unnoticed in laboratory tests. Oxygen, unlike glycogen, fluids, matrix, and sleep, does not accumulate debt in the body but is essential for optimal functioning. However, the Covid and chronic diseases have disrupted this vital function, leading to the breakdown of our natural building system. The Western version of Covid treatment mainly revolves around killing the virus, with little focus on the inner organ relationships. It prioritizes vaccines and treating symptoms rather than understanding the root cause of the disease. On the other hand, Eastern medicine examines why certain individuals are more susceptible to infections and focuses on optimizing damaged organs to create an environment where the virus cannot thrive. It utilizes treatments such as acupuncture, Japanese Tiny Moxibustion and herbal remedies Though scientific proof may be lacking, historical medical practices from traditions like Ayurvedic and TCM emphasize the importance of oxygen and air in the healing process. This book aims to provide insights into how our body system can effectively fight against the virus, regenerate the lymphatic system, and improve 5 organ health. It combines perspectives from both Western and Eastern medicine to give a comprehensive viewpoint. Additionally, it addresses the importance of the lymphatic system, the theory of invisible forces, the role of oxygen, and the treatment of chronic pain and undiagnosed diseases using Eastern medicine. the book highlights the significance of the 5-organ energy balance, linking it to one's genetic makeup and overall health.
