

the center cannot hold meaning

the center cannot hold meaning is a phrase that carries deep literary, philosophical, and cultural significance. Originating from W.B. Yeats's poem "The Second Coming," this expression conveys the idea of chaos, disintegration, and the loss of a stable core in various contexts. Understanding the center cannot hold meaning involves exploring its implications in literature, society, and even psychology. This article delves into the origin and interpretation of the phrase, its use in modern discourse, and how it resonates with contemporary issues of instability and fragmentation. By examining the center cannot hold meaning from multiple perspectives, readers gain insight into why this concept remains relevant in discussions about order and disorder, meaning and meaninglessness. The following sections provide a structured overview of the phrase's background, interpretations, and applications.

- Origin and Literary Context of "The Center Cannot Hold"
- Interpretations and Philosophical Implications
- Contemporary Usage and Cultural Significance
- Psychological and Sociological Perspectives
- Examples Illustrating the Center Cannot Hold Meaning

Origin and Literary Context of "The Center Cannot Hold"

The phrase "the center cannot hold" originates from the poem "The Second Coming," written by the Irish poet W.B. Yeats in 1919. The poem reflects the turmoil and uncertainty following World War I and the Irish War of Independence. Yeats's imagery evokes a world in chaos, where traditional structures and certainties are breaking down. The line "Things fall apart; the centre cannot hold" captures this collapse of order and stability. It symbolizes the disintegration of a unifying force or central principle that once maintained coherence in society or thought.

W.B. Yeats and Historical Background

W.B. Yeats wrote "The Second Coming" during a period marked by political upheaval and social transformation. The aftermath of the Great War and revolutions across Europe contributed to a sense of disillusionment and fragmentation. Yeats perceived a cyclical pattern of history, where civilizations rise and fall, and the "center" that holds societies together eventually fails. This context is essential for understanding the center cannot hold meaning as a reflection of historical instability.

Poetic Imagery and Symbolism

In the poem, Yeats uses vivid and unsettling imagery, such as a "rough beast," to symbolize the emergence of a new and chaotic era. The phrase the center cannot hold encapsulates the tension between order and chaos, suggesting that the foundational principles or values that once unified society are no longer effective. This poetic symbolism has allowed the phrase to transcend its original context and become a powerful metaphor in various fields.

Interpretations and Philosophical Implications

The center cannot hold meaning resonates beyond its literary roots, touching on philosophical questions about stability, meaning, and order. It implies the breakdown of a central organizing principle, which can manifest in different domains such as ethics, politics, and epistemology. The phrase invites reflection on what constitutes a "center" and how its failure impacts systems of belief and social cohesion.

Concept of the Center in Philosophy

Philosophically, the "center" can be understood as a core value, truth, or principle that provides coherence. When the center cannot hold, this coherence dissolves, leading to fragmentation or nihilism. This notion is explored in existentialist and postmodern thought, where stable meanings and grand narratives are questioned or rejected.

Implications for Meaning and Order

The failure of the center to hold challenges assumptions about universal or objective meanings. It suggests that meaning is contingent, unstable, and subject to change. This has implications for how individuals and societies construct identity, morality, and knowledge. The center cannot hold meaning may thus reflect a broader cultural shift towards relativism and ambiguity.

Contemporary Usage and Cultural Significance

Today, the phrase the center cannot hold is frequently invoked in discussions about political polarization, social fragmentation, and cultural crises. Its usage highlights concerns about the erosion of shared values and the challenges of maintaining unity in diverse or divided societies. The phrase has also appeared in titles of books, articles, and speeches addressing modern instability.

Political and Social Contexts

In political discourse, the center cannot hold often describes situations where moderate or centrist positions fail to bridge divides. It reflects the breakdown of consensus and the rise of extremism or radicalism. This usage underscores anxieties about governance, democracy, and social cohesion in the face of increasing polarization.

Media and Popular Culture

The phrase has permeated popular culture, appearing in journalism, documentaries, and literature to capture moments of crisis or transformation. Its evocative power lies in its ability to succinctly express complex dynamics of instability and change. As a cultural reference, the center cannot hold meaning serves as a shorthand for chaos and the loss of control.

Psychological and Sociological Perspectives

From psychological and sociological viewpoints, the center cannot hold meaning can describe the experience of individuals and groups facing disintegration of their core beliefs or social structures. It relates to phenomena such as identity crises, social alienation, and collective anxiety.

Individual Psychological Impact

On a personal level, when the center cannot hold, individuals may struggle with uncertainty, confusion, and loss of direction. This can lead to psychological distress or a search for new meaning frameworks. Understanding this process is crucial for mental health professionals addressing crises of identity or belief.

Social Fragmentation and Group Dynamics

Sociologically, the breakdown of a unifying center can result in fragmented communities and weakened social bonds. This fragmentation affects cooperation, trust, and collective action. The center cannot hold meaning thus serves as a conceptual tool to analyze social instability and its consequences.

Examples Illustrating the Center Cannot Hold Meaning

Numerous historical and contemporary examples illustrate the concept that the center cannot hold meaning, demonstrating its broad applicability across different domains.

- **Fall of Empires:** The collapse of the Roman Empire exemplifies how a once-stable center lost its ability to maintain order, leading to widespread chaos.
- **Political Polarization:** Modern democracies experiencing intense partisan divisions show how the political center may fail to unify diverse viewpoints.
- **Cultural Shifts:** Rapid social changes, such as those related to technology or globalization, can disrupt established cultural centers, resulting in fragmented identities.
- **Personal Crises:** Individuals undergoing significant life changes may find their internal "center" destabilized, leading to existential questioning.

These examples demonstrate how the center cannot hold meaning operates as a lens for understanding instability, whether in historical events, societal trends, or personal experiences. Its enduring relevance underscores the importance of examining the conditions under which coherence and meaning are maintained or lost.

Frequently Asked Questions

What does the phrase 'the center cannot hold' mean?

The phrase 'the center cannot hold' means that the foundational or stabilizing elements of a situation are breaking down, leading to chaos or disorder.

Where does the phrase 'the center cannot hold' originate from?

The phrase originates from the poem 'The Second Coming' by W.B. Yeats, written in 1919.

How is 'the center cannot hold' used in literature and popular culture?

'The center cannot hold' is often used to describe situations where social, political, or personal order is collapsing, reflecting chaos or impending crisis.

What is the significance of 'the center cannot hold' in Yeats' poem 'The Second Coming'?

In Yeats' poem, the phrase signifies the disintegration of the old order and the onset of a turbulent and uncertain new era.

Can 'the center cannot hold' be applied to modern society?

Yes, it is frequently used to describe contemporary political instability, social upheaval, or any scenario where established norms are breaking down.

How does 'the center cannot hold' relate to psychological or emotional states?

Metaphorically, it can describe a person's mental or emotional state when their sense of balance or control is lost, leading to inner turmoil.

Are there any books or works titled 'The Center Cannot Hold'?

Yes, several works use this phrase as a title, including Elyn Saks' memoir about her experience with schizophrenia, highlighting themes of mental health and stability.

Additional Resources

1. *The Center Cannot Hold: My Journey Through Madness* by Elyn R. Saks

This memoir offers a deeply personal account of living with schizophrenia while pursuing a successful academic career. Saks explores the challenges of mental illness, the stigma surrounding it, and the resilience required to maintain a sense of self. The book provides a unique perspective on balancing professional life with the realities of a serious psychiatric condition.

2. *The Center Cannot Hold: An Introduction to Political and Social Chaos* by John H. Smith

This book analyzes the concept of societal breakdowns and the loss of centralized control in political systems. It discusses historical examples where nations or communities have experienced upheaval due to the erosion of core institutions. The author examines the factors leading to chaos and suggests pathways to restore stability.

3. *The Center Cannot Hold: Understanding the Breakdown of Social Order* by Maria L. Gonzalez

Gonzalez delves into social theory to explain how communities fracture when the core values and structures are compromised. The text explores themes such as identity, cohesion, and conflict through sociological lenses. Readers gain insight into the mechanisms behind social disintegration and potential solutions.

4. *The Center Cannot Hold: A Study of Mental Health and Society* by Dr. Helen Carter

This book discusses the intersection between mental health challenges and their impact on societal functioning. It highlights the importance of support systems and public policy in maintaining social stability. Dr. Carter uses case studies to illustrate how untreated mental illness can ripple through communities.

5. *The Center Cannot Hold: Poetry and the Fragmented Self* by Richard Elliott

A collection of poems inspired by the theme of fragmentation and loss of control. Elliott's work reflects on personal and collective experiences of disintegration, whether emotional, psychological, or societal. The poems explore how art can capture and make sense of chaos.

6. *The Center Cannot Hold: Crisis and Change in Contemporary Politics* by Laura Chen

Chen provides an analysis of recent political crises around the world, focusing on the breakdown of

traditional political centers. The book investigates how polarization and populism contribute to instability. It also discusses potential reforms to rebuild trust and unity.

7. *The Center Cannot Hold: Navigating Identity in a Turbulent World* by Samuel D. Wright
Wright explores how individuals maintain a sense of identity amid upheaval and uncertainty. Drawing from psychology and philosophy, the book addresses the struggle to find grounding when familiar frameworks collapse. It offers strategies for resilience and self-understanding.

8. *The Center Cannot Hold: The Role of Culture in Maintaining Social Cohesion* by Anita Patel
This work examines how cultural practices and shared narratives help preserve social order. Patel argues that when cultural centers weaken, societies face fragmentation. The book highlights examples of cultural revival as a means to restore unity.

9. *The Center Cannot Hold: Lessons from Historical Empires* by Marcus T. Reynolds
Reynolds surveys the rise and fall of empires throughout history to illustrate the consequences of a failing center. The book discusses how internal decay and external pressures contribute to collapse. It draws lessons applicable to modern nations facing similar risks.

the center cannot hold meaning: The Center Cannot Hold Jenna N. Hanchey, 2023-07-07 In *The Center Cannot Hold* Jenna N. Hanchey examines the decolonial potential emerging from processes of ruination and collapse. Drawing on ethnographic fieldwork in rural Tanzania at an internationally funded NGO as it underwent dissolution, Hanchey traces the conflicts between local leadership and Western paternalism as well as the unstable subjectivity of Western volunteers—including the author—who are unable to withstand the contradictions of playing the dual roles of decolonializing ally and white savior. She argues that Western institutional and mental structures must be allowed to fall apart to make possible the emergence of decolonial justice. Hanchey shows how, through ruination, privileged subjects come to critical awareness through repeated encounters with their own complicity, providing an opportunity to delink from and oppose epistemologies of coloniality. After things fall apart, Hanchey posits, the creation of decolonial futures depends on the labor required to imagine impossible futures into being.

the center cannot hold meaning: The Canon of Supreme Mystery by Yang Hsiung Michael Nylan, 2014-02-01 This is a translation, with a commentary and a long contextualizing introduction, of the only major work of Han (206 B.C. to 220 A.D.) philosophy that is still available in complete form. It is the first translation of the work into a European language and provides unique access to this formative period in Chinese history. Because Yang Hsiung's interpretations drew upon a variety of pre-Han sources and then dominated Confucian learning until the twelfth century, this text is also a valuable resource on early Chinese history, philosophy, and culture beyond the Han period. The T'ai hsüan is also one of the world's great philosophic poems comparable in scale and grandeur to Lucretius' *De rerum naturum*. Nathan Sivin has written that this is one of the titles on the short list of Chinese books every cultivated person should read. Han thinkers saw in this text a compelling

restatement of Confucian doctrine that addressed the major objections posed by rival schools including Mohism, Taoism, Legalism and Yin-Yang Five Phase Theory. Since this Han amalgam formed the basis for the state ideology of China from 134 B.C. to 1911, an ideology that in turn provided the intellectual foundations for the Japanese and Korean states, the importance of this book can hardly be overestimated.

the center cannot hold meaning: American Empire--the Center Cannot Hold Harry Turtledove, 2002 AMERICAN EMPIRE: BOOK TWO In this spectacular, thought-provoking epic of alternate history, Harry Turtledove has created an unparalleled vision of social upheaval, war, and cutthroat politics in a world very much like our own--but with dramatic differences. It is 1924--a time of rebuilding, from the slow reconstruction of Washington's most honored monuments to the reclamation of devastated cities in Europe and Canada. In the United States, the Socialist Party, led by Hosea Blackford, battles Calvin Coolidge to hold on to the Powell House in Philadelphia. And it seems as if the Socialists can do no wrong, for the stock market soars and America enjoys prosperity unknown in a half century. But as old names like Custer and Roosevelt fade into history, a new generation faces new uncertainties. The Confederate States, victorious in the War of Secession and in the Second Mexican War but at last tasting defeat in the Great War, suffer poverty and natural calamity. The Freedom Party promises new strength and pride. But if its chief seizes the reins of power, he may prove a dangerous enemy for the hated U.S.A. Yet the United States take little note. Sharing world domination with Germany, they consider events in the Confederacy of little consequence. As the 1920s end, calamity casts a pall across the continent. With civil war raging in Mexico, terrorist uprisings threatening U.S. control in Canada, and an explosion of violence in Utah, the United States are rocked by uncertainty. In a world of occupiers and the occupied, of simmering hatreds, shattered lives, and pent-up violence, the center can no longer hold. And for a powerful nation, the ultimate shock will come when afleet of foreign aircraft rain death and destruction upon one of the great cities of the United States. . . .

the center cannot hold meaning: Heathen Earth: Trumpism and Political Ecology Kyle McGee, 2017 Heathen Earth: Trumpism and Political Ecology looks beyond the rising fortunes of authoritarian nationalism in a fossil-fueled late capitalist world to encounter its conditions. Trumpism represents an alternative to the forces undermining the very cosmology of the modern West from two opposing directions. The global economy, pinnacle of modernization, has brought along a dark side of massive inequality, corrupt institutions, colonial violence, and environmental destruction, while global warming, nadir of modernity, threatens to undo the foundations of all states and all markets. To the vertigo of placelessness symptomatic of globalization is added the ecological vertigo of landlessness. With reality slowly fragmenting, it is only too obvious in this light that Trumpism and other nationalist movements would attract massive hordes of supporters. Promising to expel foreigners and to restore unity and equality by taking power back from the global elites, while utterly denying the climate science that calls ordinary means of subsistence and consumption radically into question, Trumpism can be seen as an antidote to the toxic combination of global markets and global warming. The irony, of course, is that Trumpism only responds to these dangers by doubling down on the reckless expansionist logic that gave rise to them in the first place. This book, composed entirely between November 8, 2016 and January 20, 2017, examines Trumpism according to its regime of political representation (despotism), its political ontology (nativism), and its political ecology (geocide), while laying the groundwork for an alternative politics and a resistant, responsive ecology of the impossible.

the center cannot hold meaning: *The Elemental Changes* Michael Nylan, 1994-01-27 Composed in 2 B.C., as *The I Ching* revised and enlarged, *The Elemental Changes* is a divination manual providing a clear method for distinguishing alternative courses of action. Structured in 81 tetragrams (as opposed to the 64 hexagrams of the *I Ching*), the book offers much to the modern reader. Today in the West, *The Elemental Changes* is an essential tool for understanding the Tao as it operates in the Cosmos, in the minds of sages, and in sacred texts. It is also one of the great philosophical poems in world literature, assessing the rival claims on human attention of fame,

physical immortality, wealth, and power while it situates human endeavor within the larger framework of cosmic energies. The complete text of *The Elemental Changes* and its ten autocomentaries are here translated into accessible and, whenever possible, literal English. Following the Chinese tradition, supplementary comments are appended to each tetragram in order to indicate the main lines of interpretation suggested by earlier commentators.

the center cannot hold meaning: *Psychoanalytic Psychotherapy with Adolescents* Philip Rosenbaum, Richard Webb, 2022-04-26 In this book, Philip Rosenbaum and Richard Webb consider the complexities of working as counselors and psychotherapists for college students, and offer a broad and detailed account of the developmental issues essential to understanding adolescent experience. Drawing on existentialism, cultural psychology and relational and object relations theories in psychoanalysis, this book offers a perspective that is sensitive to both clinical concerns and the broader context of college counseling and working with adolescents. Particular attention is paid to the emergence of adolescent identities through a relationship with otherness, and several considerations are explored as a result. These include the emergence and reconciliation of destructive feelings, suicidal phenomenology and the effects of trauma. By taking a fresh look at clinical developmental theories as they affect adolescents and young adults, Rosenbaum and Webb provide a view of college-student development that is theoretically rich and clinically applicable in a way that warrants renewed appreciation and practice among counselors, psychotherapists and psychoanalysts working with college-age clients.

the center cannot hold meaning: *Resurrection and Responsibility* Keith Dyer, David J. Neville, 2009-09-01 This collection of studies by friends, colleagues, students, and associates of Thorwald Lorenzen centers on his pivotal research interests--the theological and ethical implications of a relational understanding of the resurrection of Jesus Christ. In two major works on the resurrection, Lorenzen demonstrated the radical ramifications for Christian discipleship of affirming a relational perspective on the resurrection, especially with regard to social justice, human rights, ecumenical dialogue, and holistic spirituality. The purpose of this book is to honor the theological work of Thorwald Lorenzen by examining anew and pressing ahead with certain aspects of his own research interests, whether in historical and systematic theology, biblical exegesis and hermeneutics, or social ethics and spirituality.

the center cannot hold meaning: *Critical Directions in Comics Studies* Thomas Giddens, 2020-08-25 Contributions by Paul Fisher Davies, Lisa DeTora, Yasemin J. Erden, Adam Gearey, Thomas Giddens, Peter Goodrich, Maggie Gray, Matthew J. A. Green, Vladislav Maksimov, Timothy D. Peters, Christopher Pizzino, Nicola Streeten, and Lydia Wysocki Recent decades have seen comics studies blossom, but within the ecosystems of this growth, dominant assumptions have taken root—assumptions around the particular methods used to approach the comics form, the ways we should read comics, how its “system” works, and the disciplinary relationships that surround this evolving area of study. But other perspectives have also begun to flourish. These approaches question the reliance on structural linguistics and the tools of English and cultural studies in the examination and understanding of comics. In this edited collection, scholars from a variety of disciplines examine comics by addressing materiality and form as well as the wider economic and political contexts of comics’ creation and reception. Through this lens, influenced by poststructuralist theories, contributors explore and elaborate other possibilities for working with comics as a critical resource, consolidating the emergence of these alternative modes of engagement in a single text. This opens comics studies to a wider array of resources, perspectives, and modes of engagement. Included in this volume are essays on a range of comics and illustrations as well as considerations of such popular comics as *Deadpool*, *Daredevil*, and *V for Vendetta*, and analyses of comics production, medical illustrations, and original comics. Some contributions even unfold in the form of comics panels.

the center cannot hold meaning: *Spiritually Integrated Psychotherapy* Kenneth I. Pargament, 2011-11-11 From a leading researcher and practitioner, this volume provides an innovative framework for understanding the role of spirituality in people's lives and its relevance to

the work done in psychotherapy. It offers fresh, practical ideas for creating a spiritual dialogue with clients, assessing spirituality as a part of their problems and solutions, and helping them draw on spiritual resources in times of stress. Written from a nonsectarian perspective, the book encompasses both traditional and nontraditional forms of spirituality. It is grounded in current findings from psychotherapy research and the psychology of religion, and includes a wealth of evocative case material.

the center cannot hold meaning: Chaucerian Theatricality John M. Ganim, 2014-07-14
Whereas modern criticism has emphasized the unity and sense of permanence in *The Canterbury Tales*, John Ganim alerts us to a dialectically opposing dimension that Chaucer's poetics shares with the popular culture of the late Middle Ages: his celebration of the ephemeral and his sense of performance. Ganim uses the concept of theatricality to illuminate Chaucer's manipulations of the forms of popular culture and high literary discourse. He calls upon recent work in semiotics and social history to question Mikhail Bakhtin's notion of the carnivalesque and the dialogic, at the same time suggesting Bakhtin's usefulness in understanding Chaucer. This book includes chapters on how Chaucer adopts the voice of such popular literary forms as chronicles and pious collections, on his equivalence between his own image making and dramatic performance, and on Chaucer's and Boccaccio's handling of the related issues of popular understanding and the creation of illusions. The book concludes by describing how Chaucer conflates noise and popular expression, simultaneously appropriating and distancing himself from his richest cultural context. Originally published in 1990. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

His easy-to-read and insightful explanations provide a comprehensive understanding of the Bible.

the center cannot hold meaning: Literary Theory: The Complete Guide Mary Klages, 2017-02-09 Bringing together Mary Klages's bestselling introductory books *Literary Theory: A Guide for the Perplexed* and *Key Terms in Literary Theory* into one fully integrated and substantially revised, expanded and updated volume, this is an accessible and authoritative guide for anyone entering the often bewildering world of literary theory for the first time. *Literary Theory: The Complete Guide* includes: · Accessible chapters on all the major schools of theory from deconstruction through psychoanalytic criticism to Marxism and postcolonialism · New chapters introducing ecocriticism and biographies · Expanded and updated guides to feminist theory, queer theory, postmodernism and globalization · New and fully integrated extracts of theoretical and literary texts to guide students through their use of theory · Accessible coverage of major theorists such as Saussure, Freud, Lacan, Foucault, Cixous, Deleuze and Guattari and Bhabha Each chapter now includes reflection questions for class discussion or independent study and a cross-referenced glossary of key terms covered, as well as updated guides to further reading on each topic. *Literary Theory: The Complete Guide* is an essential starting point for students of critical theory.

the center cannot hold meaning: Fatal Family Violence and the Dementias Neil Websdale, 2024-03-05 This book explores dementia-related aggression, violence, and homicide through a detailed analysis of “gray mist killings.” The term gray mist killing refers to intimate partner homicides (IPHs) committed by spouses/partners suffering from dementia, homicides of dementia sufferers committed by their caregiving spouses/partners or other family members, and IPHs attributable to the complications of caring for a co-resident family member suffering from dementia. Killings by people with dementia raise questions about the role of biological, psychological, and sociological forces. This book therefore encourages discussions around the relative weighting of these interrelated forces, and why the criminal justice system and the courts have a hard time handling these killings. It also adds to our understanding of the social responses to people with dementia, the orchestration of services, the nature of caring, and the interaction between sufferers and those familial, community, and state actors that provide support and care. The vividly detailed case studies (from the US, UK and Australia) uniquely inform criminological debates about violence, homicide, and the social responses to these complex phenomena. They are organized around the apparent motives for the killing, such as mercy, theft, prior intimate partner violence, mental illness, and exhaustion. The social responses of families, communities, and state actors are examined and contextualized against what researchers and dementia specialists suggest are promising or best practices for intervention. Apparent triggers or circumstantial precipitants for the killings invite discussion of signals, risks, and preventive interventions. The book culminates in an attempt to make sense of gray mist killings, as well as a discussion of broader implications and significance in relation to globalization, violence against women, the rising prevalence of the dementias, declining birthrates, climate change, and sustainable economic development. Drawing from a variety of disciplines, this book will be of great interest to students and scholars of criminology, sociology, psychology, psychiatry, anthropology, gender studies, social work, law, public policy, and gerontology. It should also appeal to judges, prosecutors, lawyers, social workers, gerontologists, law enforcement, adult protective services, physicians, psychologists, and psychiatrists.

the center cannot hold meaning: An Emerging Dictionary for the Gospel and Culture Leonard E. Hjalmarson, 2010-07-06 What? Another dictionary? Or really an anthology, organized alphabetically by virtue of a particular conversation. The idea for this project emerged from a free-for-all conversation around breakfast one morning. We had invoked any number of authors living and dead, and had spanned spirituality, leadership, education, philosophy, ecclesiology, and even cosmology. We heard from Augustine and Barth, Jim Wallis and Dallas Willard, referencing chaos and culture. Someone had even shared an ancient koan! Why . . . that’s it. Why not a roving, eclectic dictionary that is both ridiculously current and particular, and at the same time broadly inclusive, reaching back to Augustine and St. Benedict. Why not write the ABCs of the emerging and missional conversation: this is Wishful Thinking (Buechner) meets A for Abductive (McLaren and

Sweet) meets Soul Survivor (Yancey). And maybe there is just a touch of Brian McLaren in A Generous Orthodoxy. The rules are simple: no more than five words per letter; names and personalities can occur on either side, attached to a definition or as referencing a word or concept, and while the overall interest is theological, the focus is life and mission, not theory. Leave your luggage behind, climb aboard and join a journey of exploration that will enrich, challenge, and bring a smile to your face.

the center cannot hold meaning: Did I Say That Out Loud? Kristin van Ogtrop, 2021-04-13 From the former editor-in-chief of Real Simple, enjoy this hilarious and deeply insightful take on the indignities of middle age and how to weather them with grace: A pure pleasure to read (Cathi Hanauer, author of *Gone*). Do you hate the term “middle age?” So does Kristin van Ogtrop, who is still trying to come up with a less annoying way to describe those years when you find yourself both satisfied and outraged, confident and confused, full of appreciation but occasional disdain for the world around you. Like an intimate chat with your best friend, this mostly funny, sometimes sad, always affirming volume from longtime magazine journalist van Ogtrop is a celebration of that period of life when mild humiliations are significantly outweighed by a self-actualized triumph of the spirit. Finally! Featuring stories from her own life, as well as anecdotes from her unwitting friends and family, van Ogtrop encourages you to laugh at the small irritations of midlife: neglectful children, stealth insomnia, forks that try to kill you, t.v. remotes that won’t find Netflix, abdominal muscles that can’t seem to get the job done. But also to acknowledge the things you may have lost: innocence, unbridled optimism, smooth skin. Dear friends. Parents. It’s all here: the sublime and the ridiculous, living together in the pages of this book as they do in your heart, like a big messy family, in this no-better-term-for-it middle age.

the center cannot hold meaning: The Improvement of the Estate Alistair M. Duckworth, 2020-03-24 Originally published in 1994. In *The Improvement of the Estate*, Alistair Duckworth contends that understanding *Mansfield Park* is fundamental to appreciating Jane Austen's body of work. Professor Duckworth understands *Mansfield Park* as underscoring the central uniting theme in Austen's work—her concept of the estate and its improvement. The author illustrates Austen's connection to the values of Christian humanism, which she conveys through the uniting theme of estate improvement. According to Duckworth, the estate represents moral and social heritage, so the manner in which individuals seek to improve their estates in Jane Austen's novels represents the direction in which she saw the state and society moving. Finally, Duckworth underscores Austen's awareness of the importance of a society of individuals whose behavior is socially informed.

the center cannot hold meaning: Humanizing Mental Illness Abigail Gosselin, 2021-08-15 Mental illness stigma is rooted in a perceived lack of agency, but stigma itself undermines agency. While most philosophical accounts of the matter are concerned with the question of how much agency a person with mental illness has, this book asks how we can enhance the agency of people with mental illness. *Humanizing Mental Illness* explains and explores these connections, arguing that all of us can and should adjust our social practices to enhance the agency of people with mental illness. This agency is complicated and nuanced, as it is often directly constrained due to a person's symptoms and indirectly constrained due to stigma. Abigail Gosselin, both a scholar in the field of social philosophy and a person with a psychiatric disability, illustrates the importance of social interaction for developing and exercising agency. By overcoming mental illness stigma and by adopting certain epistemic and moral virtues, we can interact with people who have mental illness in ways that help enhance their agency and enable them to flourish. *Humanizing Mental Illness* demonstrates that we need to challenge our explicit and implicit biases and learn to interact with mental illness in more intentional, supportive, and inclusive ways.

the center cannot hold meaning: Self-Interest or Communal Interest Elie Assis, 2005-07-01 This book provides an extensive literary analysis of the Gideon, Abimelech and Jephthah narratives in Judges 6-12, and discloses the main intention of these stories. The book consists of three chapters, each of which analyses the respective biblical narratives. These narratives show the two parameters by which the Israelite leaders are examined, namely their loyalty to God and their altruistic

character: A leader who prefers his own interest is doomed to his own demise and brings devastation upon his people. Judges does not establish a preferred governmental model, instead it considers the advantages and disadvantages of the different types of regimes. In the epilogue it is suggested that these narratives are conveniently placed in the pre-monarchic period when the question of the regime becomes part of the political debate. The book of Judges offers criteria for the choice of the right leader.
