tony honor academic career: Magic To Do Elysa Gardner, 2022-11-01 In Magic to Do, which celebrates the 50th anniversary of Pippin's opening, two-time Pulitzer Prize jury member Elysa Gardner turns her attention to this innovative show, the musical retelling of the story of Prince Pippin, son of Charlemagne, and his quest for an extraordinary life. Magic to Do dives deep into the legendary clashes, backstage drama, and incredible artistic synergy that produced one of Broadway's most influential musicals, a show that paved the way for the pop-informed musicals that we know and love today. Full of big personalities, brilliant creative minds, and never-before-told stories, Magic to Do is an intimate look at a moment in history, a time and a place in which popular culture was as defined by conflict—between the young and the old, idealism and cynicism, creation and destruction—as anything else. Gardner draws out this friction through her examination of the creative struggles between Pippin's director/choreographer, the iconic Bob Fosse, for whom the show would mark a massive career resurgence, and its young composer/lyricist, Stephen Schwartz (of Wicked fame), who was making his Broadway debut. Magic to Do, named for the opening song of the musical, clearly marks the lasting cultural significance of Pippin, which derives in large part from the timelessness of the search for self, one that presents itself anew to each succeeding generation, accounting for the show's enduring popularity around the world. Infused with R&B sounds and a universal message, it is fair to say that, without Pippin, there is no Spring Awakening, Dear Evan Hansen, or even Hamilton.

tony honor academic career: From the Nation State to Europe Anand Menon, Vincent Wright, 2001-02-15 The relationship between the European Union and its member states is complex and continually evolving. This book seeks to explore not only the nature of this relationship, but the broader implications of European integration for the ways in which politics in Europe is studied. It addresses three major questions. How has European integration affected national politics and public policies? To what extent has the existence of the EU challenged existing approaches to the study of national politics? How appropriate is it to attempt to study the EU using the analytical tools traditionally used to study nation states? The intention is to consider the impact of European integration both on the nature and the study of politics in western Europe. These questions are addressed by a group of distinguished academics from both Europe and North America. Their findings will be of great interest to all those interested in the European Union and in West European politics more generally.

Berloni was a nineteen-year-old theater apprentice more than three decades ago when he was offered his first big break: find and train a dog to appear in the original production of the Broadway hit *Annie*. Defying the odds, he rescued a down-on-his-luck dog from a local shelter and, together, they redefined what animal performers could do. Since then Berloni and his trainers have provided animals for hundreds of films, commercials, and television shows as well as live theater, including productions of *The Wizard of Oz* and *Winn-Dixie*, all over North America. In this heartwarming book, he tells the true stories of “throw-away” animals who came back to work with some of entertainment's biggest names, names like Bernadette Peters, Sarah Jessica Parker, Mike Nichols, the New York City Ballet, and many more. This updated edition includes an account of Berloni's search for the newest Sandy to star with everyone's favorite red-headed orphan.

The author grew up in the Midwest in a lower-middle-class working household. His immediate forebears lost their jobs and occupations, homes, and money in the Great Depression. His more distant ancestors emigrated from many parts of northern Europe and settled in what would become or was Pennsylvania, New Jersey, and Maryland between the seventeenth and nineteenth centuries. His life has been that of ethnic mainstream White Protestant America, a category and subject rarely written about. He has observed from the vantagepoint of an ordinary person the social and economic environment of the times. Supported by a personal diary, correspondence, and photographs, this account is both factually accurate and objective. The story is a record of how his life and the lives of those around him including many relatives, friends, and associates evolved over time, as American and world societies developed and changed.
