Now, six years later, Kate has carved out a new existence in NYC, armed with a sassy pup and a dream job at Q Magazine. tv trivia night: Independent Women Claire Perkins, Michele Schreiber, 2021-06-07 Independent Women: From Film to Television explores the significance for feminism of the

increasing representation of women on and behind the screen in television contexts around the world. Independent has functioned throughout film and television history as an important euphemism for feminist. This volume investigates how this connection plays out in a contemporary environment that popular feminist discourse is constructing as a golden age of television for women. The original essays in the volume offer insights into how post-network television is being valued as a new site of independent production for women. They also examine how these connotations of creative control influence perceptions of both female creators and their content as feminist. Together, they provide a compelling perspective on the feminist consequences of how independence and indie have intensified as cultural sensibilities that coincide and engage with the digital transformation of television during the first decades of the 21st century. The chapters in this book were originally published in a special issue of *Feminist Media Studies*.

tv trivia night: *Don DeLillo, American Original* Michael Naas, 2020-06-25 Don DeLillo, *American Original* is a startlingly original and provocative reinterpretation of one of the most important novelists of the 20th and 21st centuries. Adopting a direct approach that steers clear of debates with secondary literature and covering the full arc of Don DeLillo's career from *A* to *Z* - *Americana* (1971) to *Zero K* (2016) - Michael Naas shows that the extraordinary power, authority, insight, and inventiveness of DeLillo's fiction are the result of the way it traffics everywhere in

contraband goods and narratives, in doubleness or duplicity of every kind, in multiple voices, story lines, times, places, and media that at once interrupt and complement one another. This is a book that invites skimming and dipping, structured into easily digestible sections on everything from weapons and drugs to erotica, nuclear waste, and secret societies, each preceded by humorous and incisive epigraphs from DeLillo's novels. Michael Naas reads DeLillo's fiction as a way of life or as equipment for living, rather than as a critical puzzle to be solved - and thereby opens up new horizons for thinking about why literature matters in the 21st century.
