**tyler henry books uk: Probing Parapsychology** Grant R. Shafer, 2023-05-29 Parapsychology is a science made controversial by its subjects: extrasensory perception, psychokinesis (mind over matter) and disembodied minds, which imply life after death. Moreover, these parapsychological phenomena (called psi) challenge physicalism, the philosophy that everything can be completely understood in terms of physics. This book is a snapshot of the parapsychological field, with essays written by authors of diverse academic backgrounds and experiences. Essays examine parapsychological phenomena from prehistory, through the founding of the science by intellectuals distressed by physicalism, to the postmodern present. It includes both experimental and theoretical evaluations of the phenomena. Parapsychology is a science which may overturn the philosophy which has dominated science since Newton and may inspire curious readers who are disheartened by the consequent denial of the spirit.

**tyler henry books uk: American Psychic** Marla Frees, 2018-06-05 While shooting a TV commercial in Los Angeles, Marla Frees was given a message. The father of the actor sitting across from her wanted the actor to know he was happy about the new baby. But there was a twist—the father was deceased. The actor was shocked. Marla was God-smacked. Increasingly, messages from deceased loved ones and a powerful psychic awareness demanded her attention. Marla followed her heart, left acting, and never looked back. She now uses her gifts to help families from the heartland to Hollywood find healing. American Psychic tells the spiritual journey of a small-town girl who develops her psychic gifts and relationship with God on a synchronistic path that weaves through the trauma of her childhood, the drama of her acting career, and adventures in healing and transformation. Along the way, she's explored her abilities with U.S. military "psychic spies," assisted detectives on homicide cases, and delved into the science behind her abilities with physicist Thomas Campbell. Marla has learned to trust the voice of "Spirit," which never fails her. Marla Frees' story of spiritual transformation takes us into realms that will astonish, inspire—and heal.

**tyler henry books uk: The Books and the Life of Judith of Flanders** Mary Dockray-Miller, 2016-12-05 In the first full-length study of Judith of Flanders (c. 1032-1094), Mary Dockray-Miller provides a narrative of Judith's life through analysis of the books and art objects she commissioned and collected. Organizing her book chronologically by Judith's marriages and commissions, Dockray-Miller argues that Judith consciously and successfully deployed patronage to support her political and marital maneuverings in the eleventh-century European political theater. During her marriage to Tostig Godwinson, Earl of Northumbria, she commissioned at least four Gospel books

for herself in addition to the numerous art objects that she gave to English churches as part of her devotional practices. The multiple treasures Judith donated to Weingarten Abbey while she was married to Welf of Bavaria culminated in the posthumous gift of the relic of the Holy Blood, still celebrated as the Abbey's most important holding. Lavishly illustrated with never before published full-color reproductions from Monte Cassino MS 437 and Fulda Landesbibliothek MS Aa.21, *The Books and the Life of Judith of Flanders* features English translations of relevant excerpts from the *Vita Oswinii* and *De Translatione Sanguinis Christi*. Dockray-Miller's book is a fascinating account of this intriguing woman who successfully negotiated the pitfalls of being on the losing side of both the Norman Conquest and the Investiture Controversy.

**tyler henry books uk:** ***The Diaries of Anthony Hewitson, Provincial Journalist, Volume 1***

Andrew Hobbs, 2022-09-26 Anthony Hewitson (1836-1912) was a typical Victorian journalist, working in one of the largest sectors of the periodical press, provincial newspapers. His diaries, written between 1862 and 1912, lift the veil of anonymity hiding the people, processes and networks involved in the creation of Victorian newspapers. They also tell us about Victorian fatherhood, family life, and the culture of a Victorian town. Diaries of nineteenth-century provincial journalists are extremely rare. Anthony Hewitson went from printer's apprentice to newspaper reporter and eventually editor of his own paper. Every night he jotted down the day's doings, his thoughts and feelings. The diaries are a lively account of the reporter's daily round, covering meetings and court cases, hunting for gossip or attending public executions and variety shows, in and around Preston, Lancashire. Andrew Hobbs's introduction and footnotes provide background and analysis of these valuable documents. This full scholarly edition offers a wealth of new information about reporting, freelancing, sub-editing, newspaper ownership and publishing, and illuminates aspects of Victorian periodicals and culture extending far beyond provincial newspapers. The *Diaries of Anthony Hewitson, Provincial Journalist* are an indispensable research tool for local and regional historians, as well as social and political historians with an interest in Victorian studies and the media. They are also illuminating for anyone interested in nineteenth-century social and cultural history.

**tyler henry books uk:** *Managing Nongovernmental Organizations* Frederik Claeyé, 2014-03-26 The idea that international development aid needs to be better managed and coordinated gained currency in the early 1990s. The increasing emphasis on management has resulted in the present vogue of 'managing for development results' as one of the central tenets in the discourse on international aid. But how appropriate are these ideas, tools, and techniques for non-governmental development organizations (NGOs), and how much does geographic context matter? Examining the

current debate on aid effectiveness and the role of NGOs in contributing to it, this book highlights the critical importance of understanding how the global and the local interact to increase aid efficacy and develop more culturally astute ways of managing NGOs. With a focus on NGOs active in sub-Saharan Africa as case studies, author Frederik Claeyé demonstrates that NGOs are not mere passive recipients of management knowledge and practices emanating from the global governance structure of international aid, but actively engage with these ideas and practices to translate and rework them through a local cultural lens. This process results in the emergence of unique hybrid management systems that combine the pressure to become more business-like with the mission to satisfy the demands of the communities they serve.
