the show billions on netflix: Netflix's Speculative Fictions Colin Jon Mark Crawford, 2020-12-10 Netflix's Speculative Fictions: Financializing Platform Television argues that Netflix's scaled expansion has hinged upon its ability not only to create, but more importantly to communicate, new forms and flows of potential value in platform capitalism, wherein capital is mobilized not only from direct revenue streams but also the new value assigned to inputs and investments of data, debt, attention, behavior, taste, time, sociality, and speculation. To interpret and critique these new communications and projections of value, Colin Jon Mark Crawford performs a discursive analysis of the platform television industry leader Netflix and its 'investor lore': the multi-sited narrative of value found in the company's investor relations materials and corporate communications, such as letters to shareholders, financial earnings reports, executive interviews, press releases, and blog posts. Netflix best represents the increasingly ubiquitous nexus of culture, tech, and finance industries that is platform television. To better understand the emergent financial logics of this relatively new media industry, we must first understand the speculative narratives and discourses of value which organize it. Scholars of media studies, television studies, technology studies, and economics will find this book particularly useful.

the show billions on netflix: The Diaspora's Role in Africa Stella-Monica N. Mpande, 2021-11-07 Africans living in the diaspora have a unique position as potential agents of change in helping to address Africa's political and socioeconomic challenges. In addition to sending financial remittances, their multiple, hybrid identities in and out of geographical and psychocultural spaces allow them to play a role as cultural and political ambassadors to foster social change and sustainable development back in their African homelands. However, this hybrid position is not without challenges, and this book reflects some of the conundrums faced by members of the diaspora as they negotiate their relationships with their home countries. The author uses her lived experiences and empirical research to ask: are members of the diaspora conduits of Western cultural hegemony at the cost of their traditional preservation and meaningful development in Africa? How does the Western media's portrayal of Africa as the Dark Continent in the 21st century influence their decision-making process to invest back home? How could African nations' governments manage their relationships with citizens abroad to motivate them to invest in their home countries? How do some citizen-residents in Africa and African Diaspora communities perceive each other in the context of Africa's development? How could the African Diaspora collaborate with citizen-residents across growth sectors to impact Africa's development? The book hopes to inspire agents of change within the diaspora and features diverse African entrepreneurs' success stories and their experiences of tackling these challenges. The book will be of interest to aspiring entrepreneurs, researchers across African studies, and the expanding and vibrant field of diaspora research.

the show billions on netflix: Liberalism Mark Dice, 2018-11-13 It's as if we're living in an episode of the Twilight Zone. Every day we are inundated by news reports, trending topics on social media, and new political movements promoting such bizarre beliefs about race, gender, sexuality, and life in general, that it's impossible in many cases to distinguish whether such ideas are serious or if they're a parody of what liberalism has become. The political differences between liberals and conservatives used to be pretty well established, but recently the tug of war between the Left and the Right took a dramatic and disturbing turn. Modern liberalism has been replaced with new mind-boggling agendas promoting the adoption of unscientific, authoritarian, and sociologically disastrous ideologies. In attempts to accomplish their plans, the Left are conspiring to end freedom of speech, traditional families, long-cherished holidays, and hope to implement a new world order. Who is behind this madness? What is their ultimate goal? How far are they willing to go to achieve it? And what can we do to stop them? Bestselling author and media analyst Mark Dice takes you on a tour inside the minds of those constructing this new social landscape in his groundbreaking investigation: Liberalism: Find a Cure.

the show billions on netflix: The Tech Coup Marietje Schaake, 2025-09-16 A tech insider who has been hailed by *The New Yorker* for her “forceful critique” of Big Tech describes what must be done to stop its erosion of democracy. Over the past decades, under the cover of “innovation,” technology companies have successfully resisted regulation and have even begun to seize power from governments themselves. Facial recognition firms track citizens for police surveillance. Cryptocurrency has wiped out the personal savings of millions and threatens the stability of the global financial system. Spyware companies sell digital intelligence tools to anyone who can afford them. This new reality—where unregulated technology has become a forceful instrument for autocrats around the world—is terrible news for democracies and citizens. In *The Tech Coup*, Marietje Schaake offers a behind-the-scenes account of how technology companies crept into nearly every corner of our lives and our governments. She takes us beyond the headlines to high-stakes meetings with human rights defenders, business leaders, computer scientists, and politicians to show how technologies—from social media to artificial intelligence—have gone from being heralded as utopian to undermining the pillars of our democracies. To reverse this existential power imbalance, Schaake outlines game-changing solutions to empower elected officials and citizens alike. Democratic leaders can—and must—resist the influence of corporate lobbying and reinvent themselves as dynamic, flexible guardians of our digital world. Drawing on her experiences in the halls of the European Parliament and among Silicon Valley insiders, Schaake offers a frightening look at our modern tech-obsessed world—and a clear-eyed view of how democracies can build a better future before it is too late.

the show billions on netflix: Sense8 Deborah Shaw, Rob Stone, 2021-05-20 This collection explores the many ways in which the Netflix series *Sense8* transcends television. As its characters transcend physical and psychological borders of gender and geography, so the series itself transcends those between television, new media platforms and new screen technologies, while dissolving those between its producers, stars, audiences and fans. *Sense8* united, inspired and

energized a global community of fans that realized its own power by means of online interaction and a successful campaign to secure a series finale. The series' playful but poignant exploration of globalization, empathy, transnationalism, queer and trans aesthetics, gender fluidity, imagined communities and communities of sentiment also inspired the interdisciplinary range of contributors to this volume. In this collection, leading academics illuminate *Sense8* as a progressive and challenging series that points to vital, multifarious, contemporary social, political, aesthetic and philosophical concerns. *Sense8: Transcending Television* is much more than an academic examination of a series; it is an account and analysis of the way that we all receive, communicate and consider ourselves as participants in global communities that are social, political and cultural, and now both physical and virtual too.

Whether you'll marry, commit a crime or fall victim to one, or contract a disease are becoming easily accessible facts. The naked future is upon us, and the implications are staggering. Patrick Tucker draws on fascinating stories from health care to urban planning to online dating. He shows how scientists can predict your behavior based on your friends' Twitter updates, anticipate the weather a year from now, figure out the time of day you're most likely to slip back into a bad habit, and guess how well you'll do on a test before you take it. Tucker knows that the rise of Big Data is not always a good thing. But he also shows how we've gained tremendous benefits that we have yet to fully realize.

the show billions on netflix: *Dogfight* Fred Vogelstein, 2024-03-26 Behind the bitter rivalry between Apple and Google—and how it's reshaping the way we think about technology The rise of smartphones and tablets has altered the industry of making computers. At the center of this change are Apple and Google, two companies whose philosophies, leaders, and commercial acumen have steamrolled the competition. In the age of Android and the iPad, these corporations are locked in a feud that will play out not just in the mobile marketplace but in the courts and on screens around the world. Fred Vogelstein has reported on this rivalry for more than a decade and has rare access to its major players. In *Dogfight*, he takes us into the offices and board rooms where company dogma translates into ruthless business; behind outsize personalities like Steve Jobs, Apple's now-lionized CEO, and Eric Schmidt, Google's executive chairman; and inside the deals, lawsuits, and allegations that mold the way we communicate. Apple and Google are poaching each other's employees. They bid up the price of each other's acquisitions for spite, and they forge alliances with major players like Facebook and Microsoft in pursuit of market dominance. *Dogfight* reads like a novel: vivid nonfiction with never-before-heard details. This is more than a story about what devices will replace our cell phones and laptops. It's about who will control the content on those devices and where that content will come from—about the future of media and the Internet in Silicon Valley, New York, and Hollywood.

the show billions on netflix: *Reality Show Secrets* Ophelia Kincaid, AI, 2025-03-31 *Reality Show Secrets* unveils the carefully constructed world of unscripted television. It argues that reality TV, far from being spontaneous, is a product meticulously shaped to maximize entertainment and profit. The book highlights how producers wield immense power, scripting unscripted scenarios and manipulating narratives through strategic editing. Did you know that contestants can be subtly prompted to behave in specific ways, or that editing can create heroes and villains to heighten viewer engagement? The book progresses methodically, beginning with the roles of producers, editors, and casting directors. It then explores the art of scripting reality and the manipulation of contestants' stories, culminating in an examination of the ethical implications. This includes the potential psychological impact on participants and the distortion of societal norms. By combining interviews, analyses of show footage, and academic insights, *Reality Show Secrets* offers a balanced perspective, acknowledging the artistry involved while exposing the manipulative tactics behind the scenes. This book is valuable for media consumers, aspiring filmmakers, and journalism students

alike. It empowers readers to critically analyze reality television and its influence, providing tools to understand media manipulation. The book's approach is factual and evidence-based, adhering to investigative journalism standards.
