tuttle twins republic: Body Phobia Dianna E. Anderson, 2024-10-01 Your body is who you are. We will only build a just society by rejecting fear of our bodies. Western culture hates the fact that we have bodies--from evangelical culture, which insists you are a soul and have a body, to wellness culture that turns your control over your body into a moral test, to transphobic activism that insists any step taken to change one's body is an immoral act, to the treatment of disabled bodies in a profoundly ableist culture. Fear has led cisgender, white, and able-bodied people to deprioritize the physical experience and prioritize the mind alone, contributing to our alienation from one another, the marginalization of certain kinds of bodies, and harm to us all. Body Phobia is an examination of the western societal fear of the body. Starting with an excavation of the religious roots of this fear, Dianna Anderson then zooms out to show how fear of bodies permeates all parts of culture, influencing who gets to be perceived as more than their body, and who does not. By becoming self-aware of how our bodies interact with the world and what it means to have a body, we can begin to overcome the harm done in divorcing the western body and the western mind for centuries. Through cutting analysis and candid storytelling, Dianna E. Anderson exposes our fear-based politics and shows us a way to approach bodies that is neither positive nor negative but neutral. Our bodies are. And that's enough.

tuttle twins republic: In God's Country David A. Neiwert, 2021-09-24 Rather than simply demonizing or directing outrage at Patriot and militia organizations, as some recent high-visibility publications have done, David Neiwert takes the approach of allowing Patriot extremists to speak for themselves and largely on their own terms. His critical journalistic dialogue allows us to better understand the social, economic, philosophical, and religious complexities of how and why these people have come to think the way they do. There is no question that strains of racism, paranoia, ill-will, and even evilness can characterize many of these people, but it is equally true that they--often minimally educated, and economically and socially challenged by the changing times--are desperately responding to feelings of having been marginalized, and even disenfranchised, from the American dream. Neiwert's comprehensive manuscript presents an overview of the multitude of Patriot organizations and beliefs found in the Northwest today. Neiwert feels it is essential to maintain some kind of dialogue with Patriots because, after all, these people are our neighbors and relatives, and they are here to stay.
