walk two moons significance: Classroom Management Through Behavioral Interventions That Work : Tier Two Strategies Laura A. Riffel, Ph.D., Jessica R. Eggleston, Doctoral Candidate, 2016-08-29 This book focuses on tier two strategies for classroom management. When teachers feel empowered with information, classroom management is easier. This book is filled with specific strategies based on Dr. Riffel's Triple T- Triple R chart. The three T's are 1) Trigger (what sets the behavior in motion), 2) Target (what behavior do you want to target for change), and 3) impactT (what is the student gaining or escaping by engaging in this behavior). The three R's to combat the three T's are 1) Revise the environment (set the student up for success by changing the environment, 2) Replace the behavior (Teach the student what you want to see instead of telling them what not to do, and 3) Reframe your response (change how you react to the target behavior and feed the replacement behavior. When these three formats are followed, the behavior dissipates. This book also includes specific strategies on many common classroom target behaviors. This book coincides with Dr. Riffel's Tier Two Training.

walk two moons significance: Marginalized Literacies Cara M Mulcahy, 2010-06-01 Functional literacy, cultural literacy, and progressive literacy are just a few of the many terms one can invoke when attempting to define literacy. From a critical perspective, for a democratic society

to exist, a critical literacy is of crucial importance. Critical literacy aims to empower individuals and transform society. It is grounded in critical theory and, like critical pedagogy, investigates ways in which social, cultural, racial, sexual, and economic inequalities are reproduced. By investigating the ideological, political, and social structures that perpetuate such inequalities, it hopes to raise consciousness and move towards creating a more socially just society. This book examines the approaches set forth by Atwell, Calkins, and Rief in their books, *In the Middle* (1998); *The Art of Teaching Writing* (1994); and *Seeking Diversity* (1992), respectively. This book is of relevance to teacher educators and English Language Arts teachers. It enables one to become familiar with the main components of the Readers'/Writers' workshop and develop an awareness of how literacy may be conceptualized and reconceptualized through this approach. Teacher educators will find this text useful for raising preservice teachers' awareness of the ideologies that inform literacy education and in developing their understanding for how students are positioned socially, culturally, politically and economically by such ideologies. English Language Arts teachers will find this book informative in understanding how they can be positioned by teacher texts to teach towards certain ideologies of literacy. Finally, it allows teacher educators and English Language Arts teachers to consider what kind of literacy education is provided for through the Readers'/Writers' workshop, and whether space may be negotiated within the Readers'/Writers' workshop, for the teaching of critical literacy.

walk two moons significance: **Unsettling Narratives** Clare Bradford, 2007-04-26 Children's books seek to assist children to understand themselves and their world. *Unsettling Narratives: Postcolonial Readings of Children's Literature* demonstrates how settler-society texts position child readers as citizens of postcolonial nations, how they represent the colonial past to modern readers, what they propose about race relations, and how they conceptualize systems of power and government. Clare Bradford focuses on texts produced since 1980 in Canada, the United States, Australia, and New Zealand and includes picture books, novels, and films by Indigenous and non-Indigenous publishers and producers. From extensive readings, the author focuses on key works to produce a thorough analysis rather than a survey. *Unsettling Narratives* opens up an area of scholarship and discussion—the use of postcolonial theories—relatively new to the field of children's literature and demonstrates that many texts recycle the colonial discourses naturalized within mainstream cultures.
