ghost recon breakpoint walkthrough: *Ghost Recon Breakpoint Guide - Unofficial Game Guide, Tips, Tricks and Hints* Anton Loire, 2019-12-28 Before buying, please note that this is not an official Ghost Recon Breakpoint Guide. This is a collection of Tips, Tricks and Hints that we found in the game. Ghost Recon: Breakpoint is a direct continuation of Ghost Recon: Wildlands, in which players have to go to the island of Oroa in the middle of the Pacific Ocean. There, a squad of ghosts will have to face an unprecedented threat - a squad of wolves, whose leader controls a huge and deadly army of drones, with the help of which he plans to bring the world to its knees. Ghosts have an extremely difficult goal - to crush the enemy, and at the same time stay alive. Breakpoint in gameplay is similar to Wildlands - players will find a huge open world, many types of weapons and vehicles, as well as more than four character classes. Among the innovations, it is worth noting the ability to put a bivouac - a detachment camp where you can change the class and equipment. Players will also be able to challenge each other in PvP modes, as well as try out the first raids in the Ghost Recon series.
