In this book, I'll be sharing tips and tricks that I wished I knew earlier so you can benefit from them during your play. Watch Dogs: Legion is set in a near-future, more technologically advanced London. Longstanding hacker group DedSec has been framed for a series of bombings in the city, and its members are branded as terrorists. This, however, was all engineered by the mysterious rival hacker group known as Zero Day. In the chaos after the bombing, London and its citizens are effectively caught in the vice-grip of encroaching fascism and suffocating capitalism due to the occupation of Albion, a private military group, as well as criminal and corporate enterprises taking advantage of the power vacuum. With many key operatives dead or missing, DedSec London starts from scratch by crowdsourcing new members made up of like-minded citizens wanting to liberate the city. So, what are you waiting for? Bravely Default 2 Guide includes a complete, detailed walkthrough (including boss strategies), Job unlock locations and statistics, information on your favorite characters, collectibles, cheats and secrets, and even deep-dives into specific game mechanics. After both of the beautiful games that came out for 3DS, the series came to a halt... and after 5+ years of wait, we finally got the next game. This game is a completely separate story from the first 2, with different cast, different story, and even different art style. After many, MANY RPGs that I've played during 2020, playing Bravely Default 2 was a hard change, but not a bad one. Bravely Default II is a VERY RPG game, and by that I mean there are save points in dungeons, there are tents to heal up, tons of weapons and jobs, etc. This is a game where you cannot save anywhere, where save points won't heal your HP and MP, and when you need to grind to get stronger.
