the covenant walkthrough: BattleTech: The Highlander Covenant Michael J. Ciaravella, 2025-06-27 AN OATH PLEDGED IN BLOOD... In the 32nd century, the Republic of the Sphere is beset on all sides, its enemies seeking the most important advantage in the Inner Sphere: interstellar communication. As the Capellan Confederation's mighty military penetrates the crumbling Republic, they are laser-focused on the one goal that will let them destroy the Republic once and for all: the planet of Northwind, homeworld of the famed Northwind Highlanders mercenaries. Northwind boasts the only working hyperpulse generator along the line of the Capellan Confederation's advance into the weakened Republic. Sang-shao Lindsey Baxter and the Fourth McCarron's Armored Cavalry have been tasked with taking Northwind for the Confederation at all costs, and the besieged Republic is unable to lend support to the defending XII Hastati Sentinels. Northwind will be easy pickings, allowing the Capellans to use Northwind as a launch point for the next phase of their campaign. The arrival of a Draconis Combine fleet, recent allies of the Confederation, further shifts the balance. Will the Capellan force finally bring Northwind back under the rule of the Celestial Throne, or will Countess Tara Campbell, Captain Declan Casey, and Knight of the Republic Maeve Stirling find a way to lead the embattled Highlanders to victory? the covenant walkthrough: Move Slowly and Build Bridges Robert W. Gehl, 2025 Move Slowly and Build Bridges tells the story of activists, software developers, artists, and everyday people who have built the fediverse -- a large, noncentralized, alternative social media system. In contrast to big tech corporations like Meta, TikTok, or X, the fediverse is comprised of thousands of small, independent communities who use a powerful internet protocol to communicate with one another. These small communities can govern themselves and moderate content at the human scale -- in stark contrast to the global and advertiser-friendly interests of Meta or X. The Mastodon network is perhaps the most notable and successful platform in the fediverse. Founded in 2016, Mastodon has positioned itself as an alternative to Twitter -- one that can be completely under the control of its members, from it to its daily operations to it underlying software. Making a noncentralized, ethically-run social media system is no easy task. The people building the fediverse have faced burnout, bigotry, angry debates, and death threats. And they face constant, nagging doubts: can we really do this? Can noncentralized social media survive? Can we -- all of us -- have our own social media? In this thoroughly researched book, Robert W. Gehl argues that the answer is yes -- but it won't be easy.

the covenant walkthrough: Overcoming the Five Obstacles to Assurance Frank T. Whalen, 2025-01-03 What do an ancient Jewish King, an entire New Testament church, and a poor English tinker have in common? The answer is a fierce battle with assurance-doubt. King David, the Ephesian church, John Bunyan, and countless others have all wrestled with the assurance of salvation. In this book, Whalen deftly weaves in the work of giants in the fields of theology, philosophy, psychiatry, and psychology as he identifies the root causes of assurance-doubt and explains how struggles with assurance may become a devastating and long-lasting problem. More importantly, as the title suggests, he also reveals how these obstacles to assurance can be overcome. Frank has been a football coach for many years so fittingly the subtitle of this book is 'Your Winning Game Plan for Making your Calling and Election Sure!' However, that subtitle is not just a catchy

phrase. Like the hundreds of game plans Frank received and developed as a player and coach; he explains and organizes this book in a very thorough, logical, yet practical manner. So, pick out a good seat in the Team Room, and begin reading: Overcoming the Five Obstacles to Assurance Your Winning Game plan for Making Your Calling and Election Sure!
