walkthrough jumpsuit: Listed Joe Roman, 2011-09-15 The first listed species to make headlines after the Endangered Species Act was passed in 1973 was the snail darter, a three-inch fish that stood in the way of a massive dam on the Little Tennessee River. When the Supreme Court sided with the darter, Congress changed the rules. The dam was built, the river stopped flowing, and the snail darter went extinct on the Little Tennessee, though it survived in other waterways. A young Al Gore voted for the dam; freshman congressman Newt Gingrich voted for the fish. A lot has changed since the 1970s, and Joe Roman helps us understand why we should all be happy that this sweeping law is alive and well today. More than a general history of endangered species protection, *Listed* is a tale of threatened species in the wild—from the whooping crane and North Atlantic right whale to the purple bankclimber, a freshwater mussel tangled up in a water war with Atlanta—and the people working to save them. Employing methods from the new field of ecological economics, Roman challenges the widely held belief that protecting biodiversity is too costly. And with engaging directness, he explains how preserving biodiversity can help economies and communities thrive. Above all, he shows why the extinction of species matters to us personally—to our health and safety, our prosperity, and our joy in nature.

walkthrough jumpsuit: TWENTY-ONE BOXES: Robin's Story and the Tragedy of the Edenton Seven Betsy Hester, 2024-03-13 In 1989, the Little Rascals Day Care in Edenton, North Carolina, was suddenly thrust into the national spotlight. One day, the owner's husband disciplined a boy at naptime, and soon an angry mother suggested that it was more than just a slap. Rumors quickly morphed into charges of unimaginable crimes against dozens of little children. Panic consumed the town, as the police, therapists, and parents relentlessly pressured the children who attended the day care to name their teachers responsible for multiple allegations of abuse. The Edenton Seven were caught up in the accusations, including nineteen-year-old teacher Robin Boles Byrum. She spent nearly a year in jail under an enormous bond meant to pressure her to tell the truth while she had a new baby at home. Eerily reminiscent of the hysteria that gripped Salem, Massachusetts, during the witch trials of the seventeenth century, the Little Rascals case ultimately became the longest and most expensive criminal trial in North Carolina history. Three decades later, Betsy Hester met Robin Byrum Couto and together, they joined forces to tell the truth. In this book, Betsy shares insights from legal and medical experts and reveals the facts from twenty-one boxes and bound testimonies from the courtroom long since buried away. Intertwined with the case history is Robin's never-before-told story of her harrowing journey through the court system. Finally, this book serves as a modern-day warning about the danger of mass hysteria and the consequences of a judicial system that blindly refused to hear and seek the truth.

walkthrough jumpsuit: The Memory Index Julian Ray Vaca, 2022-08-09 In this electric speculative YA sci/fi novel, the world treats memories like currency, so dreams can be a complicated business. Perfect for fans of Neal Stephenson and Philip K. Dick. In an alternative 1987, a disease ravages human memories. There is no cure, only artificial recall. The lucky ones—the recollectors—need the treatment only once a day. Freya Izquierdo isn’t lucky. The high school senior is a “degen” who needs artificial recall several times a day. Plagued by blinding half-memories that take her to her knees, she’s desperate to remember everything that will help her investigate her father’s violent death. When her sleuthing almost lands her in jail, a shadowy school dean selects her to attend his Foxtail Academy, where five hundred students will trial a new tech said to make artificial recall obsolete. She’s the only degen on campus. Why was she chosen? Freya is nothing like

the other students, not even her new friends Ollie, Chase, and the alluring Fletcher Cohen. Definitely not at all like the students who start to vanish, one by one. And nothing like the mysterious Dean Mendelsohn, who has a bunker deep in the woods behind the school. Nothing can prepare Freya and her friends for the truth of what that bunker holds. And what kind of memories she'll have to access to survive it. "Vaca's debut is a thrilling and often unsettling examination of the elusive nature of memory and truth. The Memory Index will leave you breathlessly turning pages until its satisfying conclusion." —Jonathan Evison, New York Times bestselling author of *Small World* Get hooked on *The Memory Index Duology: Book 1: The Memory Index Book 2: The Recall Paradox* (coming Spring 2023)
