Longstanding hacker group DedSec has been framed for a series of bombings in the city, and its members are branded as terrorists. This, however, was all engineered by the mysterious rival hacker group known as Zero Day. In the chaos after the bombing, London and its citizens are effectively caught in the vice-grip of encroaching fascism and suffocating capitalism due to the occupation of Albion, a private military group, as well as criminal and corporate enterprises taking advantage of the power vacuum. With many key operatives dead or missing, DedSec London starts from scratch by crowdsourcing new members made up of like-minded citizens wanting to liberate the city. So, what are you waiting for?
