Originally published by Floyd Clymer in 1969 with coverage for the 250, 360 and 400cc single cylinder Motocross, Enduro and Sportsman models from 1965 through the 1969 MG series. However, as both the 250cc and 400cc models remained in production through 1975 as the MH (1970), MI (1971), MJ (1972) and MK (1973-1975) series, the original Clymer manual provided coverage beyond its publication date and effectively included those models from 1965 through 1975. While this 2025 edition includes all of the data from the original publication, it has also been expanded to include the 1972 and later 125cc and 450cc MJ and MK series. Models covered by engine size & year of manufacture are: 125 cc 1972 - 1974 250 cc 1965 - 1975 360 cc 1966 - 1971 400 cc 1969 - 1975 450 cc 1972 - 1974 We encourage you to exercise caution when purchasing technical publications for your classic motorcycle or automobile as many of the reprints found on internet websites are from 'bedroom sellers' at enticingly low prices by individuals that really have no idea what they are selling. Many are nothing more than poor quality, digital or comb-bound photocopies that are scanned or printed complete with greasy pages and thumbprints and, as such, are deceptively described as 'pre-owned', 'used' or even 'refurbished'. In addition, they are often advertised for the incorrect series and/or model years. However, VelocePress.com has been publishing reprints of motorcycle and automobile manuals since 2003 and our publications have earned excellent reviews worldwide so you can be assured you are purchasing a quality product.
